COMMUNICATION.

DETROIT, July 1, 1873.

To the Honorable the Common Council:

Gentlemen—We hereby accept the charter granted to the Central Market, Cass Avenue and Third Street Railroad, on June 10, 1873, by your honorable body.

Respectfully, etc.,

W. LIVINGSTONE, JR., President,
WM. D. MORTON, Sec'y & Treas.
Central Market, Cass Ave. & Third St. R. R. Co.

Accepted and placed on file.

COMMUNICATION.

DETROIT, July 1, 1873.

To the Honorable the Common Council:

Gentlemen—It is now upwards of three months since you ordered the suspension of work on High street. We now wish to know whether you intended that order for a final suspension and abandonment of the work or not. We have been in weekly expectation that you would take action in reference to it. Our material is strung from one end of the street to the other, and your delay has been a serious loss and damage to us. The contract provides that you may suspend or diminish the work within reasonable limits at any time. Should you desire to discontinue the work entirely where it is now completed, we wish to know it at once and have a fair and equitable adjustment of the matter. Any further delay of yours in the premises will be accepted as final order for abandonment, and we shall take steps to remove our material from the street and consider ourselves relieved from any further obligations in the matter, and shall look to the city for the unpaid portion o the work already done and damage sustained in consequence of your action.

Yours most respectfully,
DETROIT IRONIZING & PAVING CO.

Accepted and referred to the special committee previously appointed, together with the City Counselor.

COMMUNICATION FROM THE MAYOR.

CITY OF DETROIT, MAYOR'S OFFICE,
June 26, 1873

To the Honorable the Common Council:

Gentlemen—I return to your honorable body without my approval that part of your proceedings on the 24th ult., permitting the erection of a shed roof on the river front of the warehouse at the northeasterly corner of the foot of First street.

For the reason that as the late fire that destroyed the building occupying the very same ground, and much more property besides, was caused by the burning of a steamboat, the upper works of which was at the occurrence of the fire within from four to six feet of a wooden shed attached to the said warehouse, which latter proved to be a swift conductor of the fiery element, and caused the destruction of so much property; whereas, had the said shed been constructed of iron the Fire Department could easily have kept the flames under until the boat could have been towed off to a safe distance, if, indeed, by their being enabled to act sooner they could not have extinguished the fire on the boat itself.

So much damage, therefore, being clearly the fault of the wooden shed, covered with the still more combustible coat of tar and paper, it certainly becomes the city government to put its laws in force, and, if such sheds are indispensable, require them to be built of iron, similar to that at the Michigan Central dock, or of any other material which is a nonconductor of fire

In the present instance I believe the denial of the petition to be no hardship, but a benefit to the parties interested, and the continuance of disregarding our fire limits law will drive the spirit out of the Fire Department, of whose abilities our citizens are so justly proud.

Very respectfully,
H. MOFFAT,
Mayor.

Accepted, and, on motion of Ald. Christian the vote by which permission was granted was reconsidered as follows:

Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Ruehle, Shanahan, Stange, Welch, Woolley, and the President—19.

Nays—None.

The question being, "Shall the prayer of the petitioner be now granted, notwithstanding the objections of the Mayor," the same did not prevail, as follows:

Yeas—Ald. Botsford, Garrison, Grelling, Hough, Shanahan, Stange, Woolley—7.

Nays—Ald. Broeg, Christian, Daly, Dullea, Flower, Hinchman, Lichtenberg, O'Keefe, Parsons, Ruehle, Welch, and the President—12.

FROM THE BOARD OF SEWER COMMISSIONERS.

To the Honorable the Common Council:

Gentlemen—the Sewer Commissioners, to whom was referred the resolutions of Alderman Dullea for receiving basins, beg leave to report that, in reference to the resolution of April 8 for a receiving basin on the northwest corner of the alley on Eighth street, between Howard and Abbot streets, we find by consulting the City Surveyor that by the grade the water runs from the alley to Howard and Abbott streets, and a receiving basin at that place would therefore be of no service. In reference to the resolutions of May 20 and June 18, for a receiving basin on the southeast corner of Sixth and Porter streets and on the southeast and the northwest corners of Fort and Porter streets, the City Surveyor reports that receiving basins are not necessary at those points.

We would also state that we have at different times received resolutions asking for receiving basins which, after consulting the City Surveyor, we have found were not neces-ary.

Respectfully submitted.

FROM THE BOARD OF FIRE COMMISSIONERS.

To the Honorable the Common Council:

Gentlemen—The Fire Commissioners, to whom were referred sundry petitions, for permission to build within the fire limits, have caused the subjects therein set forth to be carefully examined, and would report as follows, viz.:

Against granting the petition of I. J. Beniteau, for permission to build a shed on the southwest corner of Fort and Hastings streets, for the reason that said corner is now covered with old frame buildings, and the granting of the prayer of said petitioner would consequently increase the fire risk.

Against granting the petition of James E. Clough, for permission to build a frame dwelling

on the south side of Lafayette avenue, between Tenth and Eleventh streets, said petitioner wishing to erect a large frame dwelling in the locality before mentioned, and the granting of any such permission would also increase the fire risk.

Against granting the petition of F Deinzer, for permission to build a barn on Gratiot street, near Hastings street. Said Deinzer has already violated the law, as the barn, for permission to build which the petitioner now prays, is nearly two-thirds completed, the work on the same having been stopped by the Fire Marshal.

FROM THE CITY ASSESSOR.

To the Honorable the Common Council:

Gentlemen—Allow me to ask your attention to an act passed by the Legislature of the State of Michigan, at its last session, approved April 12, 1873, to enlarge the corporate limits of the city of Detroit and to create an additional ward after the 1st day of September next, to be the Eleventh Ward, describing the boundaries thereof and attaching the territory lying westerly of Mt. Elliott avenue extended, and south as described by lines north of and parallel with Fremont street extended, to be annexed to and form part of the Tenth Ward, which will be subject to taxation for the year 1874. Surveys may be necessary and plats of the territory will of a necessity have to be made; the Council also added to the city the Twelfth Ward by a division of the Ninth Ward, all of which will greatly increase the labor of the Assessors The field maps now in use are worn out and in many instances the description of property ob literated New maps will be required of the new territory and ward attached. I would recommend that the new maps be made in book form, they would be equally as convenient to carry and would protect the maps in stormy weather, hence the necessity of having the maps and plats ready as soon as possible to enable the Assessors to get all the rolls and books as required for the valuation and description of property written up and ready by the 1st of October for the Assessors

All of which is respectfully submitted.

H. H. LEROY,
City Assessor.

Accepted and leave being granted Ald. Flower offered the following:

Resolved, That the City Surveyor be, and he is hereby directed to make all ward maps and plats necessary, and transcribe all city plats and maps that have not been (that are now on record in the Register's office) on the map and in the book of plats that belong to the City Assessors' office at once.

To the Honorable the Common Council:

Gentlemen—The Police Commissioners ask the authority to build the line of telegraph contemplated by the amended Police act, passe by the last Legislature, the same to be paid out of the Metropolitan Police Fund.

President, P. C.

Accepted, and authority granted.

FROM ALD. PRESTON

To the Honorable the Common Council:

Gentlemen—I herewith tender to you my resignation as Alderman of the Fifth Ward. I have not been able to attend a meeting of the Council for a month past, on account of absence from the city on business, and do not expect to be able to be present more than once or twice for two or three months to come. I was called to this position without any desire or effort on my part. I have with pleasure done the best I could for my constituents, and for the best interests of our own quiet, beautiful home, Detroit, with the limited amount of time that I could command for this work. Regretting that I have not been able to accomplish more good, and thanking you individually for your uniform courtesy to me, and my constituents for the confidence reposed in me,

I remain, yours truly,

CLAIMS AND ACCOUNTS.

To the Honorable the Common Council:

STREETS.

To the Honorable the Common Council:

Gentlemen—Your committee, to whom was referred the petition of Alfred Thornton, asking permission to exhibit a machine known as a lung tester, have examined into the matter and find that Mr. Thornton is in possession of a license issued by His Honor the Mayor, which will expire on the 1st day of August next, and would recommend that Mr. Thornton be permitted to continue his business until the expiration of his license.

Respectfully submitted,

C. M. WELCH,

FIRE LIMITS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Fire Limits, to whom was referred the petition of Chris. Anorheim, for permission to move back a frame building on the north side of Croghan street, for the purpose of erecting a brick store in front, respectfully report that they have examined the locality, and find that Mr. Anorheim will be compelled to

pull down and remove a portion of the wooden buildings now on said lot, so that there will not be as much wood on the lot as there is now, and consequently the fire risk will be decreased thereby, while the erection of the brick building will be a decided improvement to the street. Your committee therefore recommend that the prayer of the petitioner be granted.

Respectfully submitted,
M. C. CHRISTIAN,
A. O'KEEFE,
D. DULLEA.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Fire Limits, to whom was referred the petition of John Stead, to build a frame barn on the rear of the lot corner of Thirteenth-and-a-half street and Michigan avenue, respectfully report that Mr. Stead has recently built a fine store on the front of his lot, which extends back 150 feet. He wishes to build a small barn in the rear, 20 feet distant from the store. Your committee do not believe the fire risk will be increased thereby, provided he will cover the same with a gravel roof, and on that condition would recommend that the prayer of the petitioner be granted.

Respectfully submitted
M. P. CHRISTIAN,
A. O'KEEFE,
D. DULLEA.

Accepted and adopted.

GAS LIGHTS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Gas Lights, to whom was referred the petition of H. Roediger and others, asking that a gas light be placed on Fort street, between Beaubien and Antoine streets, have examined the same and would recommend that the prayer of the petitioner be granted, and the gas company to whom it belongs should be requested to erect said gas lamp.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Gas Lights, to whom was referred the resolution of Ald. Hough, requesting the Detroit Gas Light Company to lay gas mains in Twelfth street, have examined the same, and beg leave to report that they have laid the resolution before Mr. DeMill and he promised to lay the same before the Board of Directors as soon as possible. Your committee would state that the Common Council has no power over the Detroit Gas Light Company—that they cannot compel them to lay mains on any street.

Respectfully submitted
JAMES FLOWER,
C. M. GARRISON.
G. GRELLING.

Accepted and adopted.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—Your special committee, to whom was referred the petition of Wm. Howe and others, would respectfully report that the Street Commissioner says the work has been ordered and will be completed as soon as the contractors complete the work already commenced.

Respectfully submitted.
SMITH A. WOOLLEY,
ALBERT BOTSFORD,
Aldermen First Ward.

Accepted and adopted.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—Your committee, to whom was referred the examination of the Thorold stone, would respectfully report that they have made an examination of a vessel load of stone purporting to be from the Thorold quarries, (and your committee believe they are from said quarries), and are favorably impressed with them for paving purposes. They appear ready nearly or quite as hard as the Medina stone and very much resemble them, and on careful analysis and examination they are found to be entirely free from lime and are of uniform hardness, and though your committee are not prepared to say that they are fully equal to the Medina stone in street paving, as that can only be tested by experience, yet we would commend them as incomparably superior to Sandusky or any other limestone, and would recommend their immediate trial for paving purposes.

Respectfully submitted,
P. PARSONS,
JAMES DALY,
WM. LICHTENBERG.

Accepted and adopted.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—Your special committee, to whom was referred the resolutions asking the Street Commissioner of the Western District to report to the Common Council why the pavement on Woodbridge street, between Second and Third streets, had not been repaired, would respectfully report that upon a careful investigation we believe that the same should be repaired at the expense of the city instead of the Detroit Car Company, and would respectfully recommend the adoption of the accompanying resolution.

ALBERT BOTSFORD,
SMITH R. WOOLLEY,
JAMES FLOWER.

Resolved, That the Street Commissioner of the Western District be, and he is hereby directed to cause the wood pavement on the north side of Woodbridge street, between Second and Third street, to be repaired forthwith.

FROM THE STREET COMMISSIONER, W. D.

To the Honorable the Common Council:

Gentlemen—In reference to the report of the Sewer Commissioner which was referred to me on the 1st inst., with instructions to report I would respectfully state that in regard to a receiving basin on the west side of Eighth street, between Howard and Abbott streets, that in my opinion by opening the gutter the water will run to Howard street, and then it would have to be conducted through a culvert to the receiving basin on the N. E. corner of those streets, unless there was a basin placed on the N. W. corner of Eighth and Howard streets. In regard to a receiving basin on the S. E. corner of Sixth and Porter streets, I would state that in the present condition of those streets the water runs from Abbott street, down Sixth street to Porter, thence to Fifth street, and down to Labrosse street, before it enters a receiving basin, and that it has to pass through three culverts and in case of heavy rains it would be very apt to overflow. That part of the report as printed which refers to the S. E. and N. W. corners of Fort and Porter streets I would say that there are no corners of that description.

Respectfully submitted,
HENRY KNOWLES,
Street Commissioner, W. D.

Accepted and placed on file.

FROM THE BOARD OF FIRE COMMISSIONERS.

To the Honorable the Common Council:

Gentlemen—The Fire Commissioners, to whom was referred the petition of Messrs. Buhl, Ducharme & Co., for permission to erect a shed on the dock back of their building, have carefully examined the same and respectfully report against granting permission to construct any kind of a shed that is not as secure from danger of fire as that of the Michigan Central Railroad, as the windows of the large building of the petitioners aforesaid are unprotected by iron shutters, and the erection of a shed as prayed for would result in an enhancement of the fire risk, more particularly entailing disastrous liabilities on the docks than in any other portion of the city.

By direction of the board
Very respectfully, etc.,
FRED. H. SEYMOUR,
Secretary.

Accepted and placed on file.

FROM THE CITY CLERK.

That he presented the proceedings of the last Council to the Mayor on the 3d inst., and they were returned aproved on the 8th inst.

Also that the Mayor has approved an ordinance "authorizing the construction of a double railway track on Jefferson avenue," and "an ordinance relative to stone sidewalks on Woodward avenue."

STREETS.

To the Honorable the Common Council:

Gentlemen—The undersigned Committee on Streets, to whom was referred the petition of property-owners on Twelfth street for the paving of said street from Michigan avenue to Walnut street, have had the matter under consideration and recommend that the prayer of the petitioners be granted, and submit the annexed resolutions

Very respectfully,
C. M. WELCH,
G. GRELLING,
D. SHANAHAN.

Resolved, That Twelfth street be and the same is hereby ordered to be graded and paved from the north curb line of Michigan avenue to the north line of Walnut street, and that said street within said limits be paved with wood or stone 26 feet in width, according to specifications adopted by

the Common Council, and it is hereby declared that this action is taken under that clause of the charter authorizing this Council to appropriate $200,000 annually for paving without the petition of property-owners

Resolved, That for the purpose of assessment for defraying and paying the cost of grading, paving and setting curb on Twelfth street, from the north curb line of Michigan avenue to the north line of Walnut street, the lots and parcels of real estate situated on said Twelfth street, embraced within said limits and fronting the portion of said street ordered to be improved by said grading and paving, shall be, and the same are hereby constituted and declared to be one local assessment district.

Resolved, That the City Surveyor be, and he is hereby ordered and directed to estimate and determine, and report such determination to the City Controller, showing:

1. The quantity of all grading, paving and other work on said Twelfth street within the limits ordered to be graded and paved, excepting those portions of the intersection of cross-streets and alleys.

2. The quantity of all grading and paving of each portion of said Twelfth street, included and embraced within the lines of intersection of the cross-streets and alleys with said Twelfth street

3. The quantity of all crosswalks at each intersection of said Twelfth street, with the cross-streets and alleys.

Resolved, That payment for the construction of said pavement and assessment to secure the same shall be according to the provisions of the amendment to the city charter, approved April 17, 1871, permitting the issue of bonds to an amount not exceeding three-quarters of the cost of paving said street as estimated and assessed.

Resolved, That whenever the Controller shall receive the report of the City Surveyor showing the quantity of the grading, paving and crosswalks, and other work required on said Twelfth street, he shall and is hereby ordered and directed to advertise for 15 days for proposals for grading, paving and for crosswalks on said street, in accordance with the provisions of the charter and ordinances of the city of Detroit.

Accepted and adopted as follows:

FIRE LIMITS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Fire Limits, to whom was referred the petition of Wm. Law, for permission to remove a frame house from No. 136 Adams avenue east to lot No. 5 on the south side of Elizabeth street, between Beaubien and St. Antoine streets, respectfully report that the building now stands in the middle of a block of wooden buildings within the fire limits, while the lot upon which it is desired to locate the building is out of the fire limits, and separated from other buildings, consequently the fire risk will be decreased by the change. Your committee, therefore, recommend that the prayer of the petitioner be granted.

Respectfully submitted,

M. P. CHRISTIAN,
A. O'KEEFE.

Accepted and adopted.

SEWERS—MAJORITY REPORT.

To the Honorable the Common Council:

Gentlemen—Your Committee on Sewers, to whom was referred the bid of Messrs. Mahoney & Dean, for public sewer No. 3, on Eighteenth street, from Baker street to the south side of Michigan avenue, beg leave to report that having examined into the matter, we find that on the 10th day of June the Sewer Commissioners received bids for the above sewer: Daniel Shanahan being the lowest bidder at $18 per lineal foot. After due notice being given him and his sureties to enter into a contract for the same, and to commence the work, they failed to do so, therefore, the Sewer Commissioners asked your honorable body to be allowed to readvertise for proposals for the building the said sewer. Bids were advertised for June 30, and in the meantime there came a very heavy rain-storm, which caused the banks of the sewer on Eighteenth street, which is being now built, to cave in, thereby discouraging parties from bidding, in consequence of which only one bid was received at $19 50 per lineal foot, making a difference of $5 50 per lineal foot, which in the whole length of the sewer would amount to $12,342, which amount the sureties of Daniel Shanahan would have to pay according to their bond. In consulting with the Sewer Commissioners we find that they were unanimous in favor of re-advertising for said sewer, as some of the contractors would soon finish their contracts and there would be a better competition for said work. In justice to the sureties of Daniel Shanahan and the interest of the city we would beg leave to offer the following resolution.

Respectfully submitted,

F. RUEHLE, Chairman.

Resolved, That the Sewer Commissioners be, and they are hereby directed to re-advertise for proposals for building a public sewer in Eighteenth street, from Baker street to Michigan avenue.

Accepted, and on motion of Ald. Hough the report and resolution were laid upon the table.

SEWERS—MINORITY REPORT.

To the Honorable the Common Council:

Gentlemen—The undersigned, to whom was referred the communication of the Controller in reference to the proposals for the construction of the Eighteenth street sewer, from Baker street to Michigan avenue, respectfully report that they have examined the facts in the case and find that proposals for the construction of the said sewer have been advertised for three distinct times, but that no contract has yet been entered into. The first time the bids were thrown out for informality and readvertised, the second time the contract was awarded to Daniel Shanahan, but upon an examination of the work to be done he refused to enter into it, and proposals were for the third time advertised for, the lowest and only bidders being Messrs. Mahoney and Dean, as reported to your honorable body by the Controller and by you referred to the undersigned.

Your committee find that this proposed sewer is a continuation of the sewer from the river to Baker street, which was let last year but is not yet completed, and that a sewer is now being constructed from the proposed terminus of this sewer, north, on Michigan avenue, a distance of about 2,000 feet, as a continuation of the sewer from the river

Your committee further find that much difficulty has been experienced in the construction of the sewer from the river to Baker street, owing to the peculiarity of the soil. The contract for that sewer was let to Messrs. Common & Stewart a year ago last spring, and by them sublet to Mr. Bristow. Mr Bristow, having sunk over $4,000 in his bargain, relieved himself from further loss by throwing up the contract to the original contractors, Common & Stewart, and those gentlemen, renewing the work about two months ago, have thus far only been enabled to build about 500 feet of the sewer with a force of over 100 men working daily.

In the construction of the sewer, bid for by Messrs Mahoney & Dean, the same if not a greater difficulty will be experienced. The soil partakes largely of quicksands, and unless extraordinary care is taken the earth will cave in as fast as it can be taken out This can only be remedied by hauling the dirt entirely away from the sewer and leaving no weight whatever upon either embankment. To do this your committee find the contractors will have to haul the dirt a distance of about 1,000 feet, that being the nearest outlet, as there are no intersecting streets from Baker to the railroad crossing, and from the River road crossing only one, making a distance altogether that the dirt will have to be hauled of about 2,000 feet; that is to say, 1,000 feet in carting it away from the sewer and 1,000 feet in carting it back to replace the earth Arising from the same cause will also be the inconvenience and difficulty of getting materials to the sewer, as the distance to the intersecting streets to the locality where the materials will have to be taken will involve much more labor, expense and trouble were the outlets nearer the sewer.

Digitized by Google

Your committee find and experience teaches that it is with great difficulty contractors can be induced to undertake the construction of this sewer. The fact that out of the large number of sewer contractors in this city who are anxious and actually waiting to enter into contracts of this nature that there was but one bid, is evidence enough to show they will not undertake the matter without, at least, sufficient compensation to cover actual expenses

That the sewer is a necessity there can be no question. It is needed on account of the drainage of the street and also as a connecting sewer between the one north of Michigan avenue and the one from the river to Baker street.

Messrs. Mahoney & Dean have bid in good faith and are willing to enter into the contract, running all risk, and your committee believe in view of all the facts that the work cannot be done at any less price than that bid by Mahoney & Dean, and that as a matter of justice and equity to them they should be awarded the contract.

Your committee therefore respectfully recommend that the Sewer Commissioners be directed to contract with Messrs. Mahoney & Dean for the construction of this sewer, in accordance with the terms of their bid

Respectfully submitted.

C. M. WELCH,
D. SHANAHAN.

Accepted, and Ald. Ruehle moved that the report be laid upon the table.

Lost as follows:

Yeas—Ald. Ruehle and Stange—2.

On motion of Ald. Hough the rules were suspended for the purpose of introducing the following resolution:

Resolved, That the Board of Sewer Commissioners be, and they are hereby directed to contract with Mahoney & Dean for the building of the Eighteenth street sewer, from Baker street to Michigan avenue, in accordance with their proposals, they being the lowest responsible bidders.

Objected to and laid over under the rules.

Ald. Woolley, President *pro tem.*, was called to the chair.

STREET OPENINGS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Street Openings, to whom was referred the matter of opening Watson street to Woodward avenue, would respectfully report that they see no immediate necessity for said opening, and therefore report against the prayer of the petition.

REPORTS OF COMMITTEES.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—Your special committee, consisting of the senior Alderman of the Seventh and the Aldermen of the Sixth Wards, to whom was referred the report of the Committee on Streets and the City Counselor, relative to the pavement on High street, respectfully submit the following:

We have examined this matter carefully, and while we approve of the report referred to us, we find that the pavement on said street, accepted by the Council, to wit: from the west line of Beaubien street to a point 184 feet west of Hastings street, is in a wretched condition, and worse than no pavement at all: that the blocks and stone are out of place, and that in our opinion it should be taken up and relaid upon a board foundation, in the same manner as proposed for the balance of the street.

The pavement ordered upon this street is not what the property-owners thereon desired; but as the property-owners, where it has already been laid and accepted, are compelled to pay for it, we believe that exact justice to them requires that the pavement fronting them should be put in good and serviceable condition, the same as is proposed for the balance of the street, and not at their expense.

We find that the weak place in a pavement having stone gutters and wood between is where the stone and blocks join, but believe that the defect can be remedied by placing a row of ordinary Sandusky paving-stone between the cobble-stone and a row of blocks split in half, so that the square faces of the stone and split blocks will be opposite each other and make a joint that will not readily break down.

We therefore recommend the adoption of the accompanying resolutions:

F. RUEHLE,
M. P. CHRISTIAN,
P. PARSONS.

Resolved, That the Controller be, and he is hereby instructed to advertise for proposals for five days to furnish and lay down a board foundation of good common pine boards for the entire pavement on High street, accepted and not finished, from the west line of Beaubien street to Gratiot street, and to take up and relay the pavement already accepted on said street, between the west line of Beaubien street and a point 194 feet west of Hastings street, using only the materials already there existing, but requiring that a row of ordinary Sandusky paving stone shall be laid between the cobble stone and wood blocks on each side, and that the outer edge of the wood pavement on each side shall be composed of a row of blocks split in half, so that a substantial joint may be effected between the wood and stone pavement on said street as proposed to be taken up and relaid: the entire expense of laying such board foundation, and of taking up and relaying said pavement, to be paid out of the General Road Fund.

Resolved, That the contractor for the finishing of said pavement on said street is requested to join the wood and stone pavement on said street in the manner contemplated in the preceding resolution, provided he shall do so at his own expense, if any.

Ald. Ruehle moved the adoption of the report and resolution.

The question then being upon the adoption of the report and resolution, the same, as amended, were objected to and laid over under the rules.

SPECIAL.

To the Honorable the Common Council:
Gentlemen—The special committee to whom was referred the resolution of the Police Commission, asking for two scavengers to be appointed by them, and to act under their control, for the removal of garbage for the months of July and August, would respectfully report that they have been unable to find the ordinance adopted by the city of Milwaukee, and cannot therefore report upon it: but are of opinion that the request of the Commission is a wise one and should be granted. The committee believe that with this addition to the "force," under the control and direction of the commission, and under the espionage and direction of the 10 members of the force detailed for sanitary purposes, whose duty it is to hunt up in the respective wards every tendency to prejudice the public health, the wants and wishes of the city will be fully met, and at a very moderate cost.

Respectfully submitted,
P. PARSONS,
President of the Board of Health.
G GRELLING,
D. DULLEA.

The report was accepted.

SUSPENSION OF THE RULES.

Ald. Parsons moved that the rules be suspended for the purpose of taking from the table the resolution previously offered by himself on the 24th ult. relative to the appointment of the officers mentioned in the report.
Carried as follows:
Yeas—Ald. Botsford, Daly, Dullea, Grelling, Hinchman, O'Keefe, Parsons, and the President *pro tem.*—8.
Nays—Ald. Broeg, Christian, Garrison, Hough, Ruehle, Shanahan, and Stange—7
The resolution was thereupon taken from the table and Ald. Parsons moved the adoption of the same
The President *pro tem.* retiring from the chair called Ald. Daly thereto.
Ald. Ruehle moved to amend by referring the matter to the Board of Health.
The motion prevailed and the matter was thus referred.

Directors of the the Detroit and Grand Trunk Junction Street Railway Company to accept the provisions of an ordinance passed by your honorable body on the 18th day of June last, granting said company the right to construct and operate their road through the streets named therein, and have the honor to be,

Very respectfully,
Your obedient servant,

Accepted and placed on file.

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE CONTROLLER.

To the Honorable the Common Council:

Gentlemen—The inspector of paving on Atwater street has reported to this office that the paving of said street is fully completed from the east line of Bates street to the east line of Randolph street.

The pavement is of Medina stone, and has this day been examined by the chairman of the Committee on Streets of your honorable body, and by myself, and found to be in accordance with the contract and specifications for the same, as far as we can judge from the appearance of the work.

There is due the contractors for paving said street as follows:

For repaving intersections, etc., being the whole amount for work as far as completed..... .... $3,368 85

I respectfully ask authority to draw my warrant on the city treasury in payment of said intersections, being the whole amount now due the contractors.

Respectfully, etc.,
E. I. GARFIELD,
Controller.

Accepted, and by unanimous consent Ald. Welch offered the following:

Whereas, It appears from communication from the City Controller that the paving on Atwater street, from the east line of Bates street to the east line of Randolph street, has been fully completed; and

Whereas, Said street has been examined by the City Controller and the chairman of the Committee on Streets of this Council, and the pavement of said street has been found to have been done in accordance with the contract and specifications for the same; therefore

Resolved, That the pavement on said street be, and is hereby accepted, from the east line of Bates street to the east line of Randolph street; and further

Resolved, That the City Controller be, and is hereby authorized to draw his warrant on the City Treasurer in payment of the repaving, intersections, etc., of said street to the amount of $3,368 85, the same being the whole amount due the contractors for paving said street.

Adopted as follows:

Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Preston, Ruehle, Welch, Woolley, and the President—18.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—I deem it my duty to call the attention of your honorable body to the condition of the Seventh Ward Road Fund.

The appropriation of $3,000 made for the cleaning of paved and working of unpaved streets is nearly exhausted, leaving only about enough to pay the overseer his salary for the balance of the season, while he complacently ponders over the onerous duties of his office and draws his pay.

A comparison of the work performed, with the cost to the tax payers of that ward, is decidedly refreshing, if not suggestive.

I have ordered all work in the ward to stop at once, and only regret that the facts did not come to my knowledge at an earlier date

Very respectfully, etc.,
E. I. GARFIELD,
Controller

Ald. Ruehle moved to refer the matter to the Committee on Judiciary, together with the City Counselor and Controller.

Ald. Hinchman moved to amend by referring the same to the aldermen of the Seventh Ward.

Carried as follows:

Yeas—Ald. Botsford, Daly, Dullea, Flower, Hinchman, Hough, O'Keefe, Welch, Woolley, and the President—10.

Nays—Ald. Broeg, Christian, Garrison, Grelling, Lichtenberg, Parsons, Preston, and Ruehle—8.

FROM THE CITY SURVEYOR.

To the Honorable the Common Council:

Gentlemen—I herewith transmit to your honorable body assessment rolls Nos. 1,711 and 1,712 for the construction of brick lateral sewers.

No. 1,711, in the alley between Nineteenth and Twentieth streets, from Howard street northerly to alley Cost, $1,905 58. Daniel Shanahan, contractor.

No. 1,712, for sewer in Larned street, from Elmwood to McDougall avenue. Cost, $913 63. T. L. Campau, contractor.

Very respectfully,
EUGENE ROBINSON,
City Surveyor.

Accepted and assessment rolls confirmed by the following vote:

Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Preston, Ruehle, Welch, Woolley, and the President—18.

Nays—None.

FROM THE CITY CLERK.

That he presented the proceedings of the last Council to the Mayor on the 9th inst., and they were returned approved on the 11th inst.

Also, that the Mayor has approved an ordinance authorizing the "St. Aubin Avenue Street Railway" to construct and operate its railway; also an ordinance repealing an amendatory ordinance of chapter 54 of the Revised Ordinances.

Accepted and placed on file.

REPORTS OF COMMITTEES.

WAYS AND MEANS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Ways and Means, to whom were referred the reports of the various city officers for the week ending July 5, as also the report of the Clerk of the Police Court for the quarter ending June 30, beg leave to report that they have carefully examined the same and believing them to be correct, recommend their approval.

Respectfully submitted,
DAVID PRESTON,
GUY F. HINCHMAN,
C. M. GARRISON.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—The undersigned, Committee of Ways and Means, to whom was referred the communication of the Board of Water Commissioners requesting your honorable body to issue bonds to the amount of $1,000,000 for the use of said board in the erection of new water works above the city, respectfully report that they met Messrs. Hurlbut, Farrand and Hodge, of said board, and submitted to them the points requested by this Council on the 20th day of June last, and at such meeting the subject under consideration was discussed, and we submit to the Council the papers laid before us and the result of such meeting

The Board of Water Commissioners presented a report, made in 1868, by Mr. McAlpine, an eminently distinguished civil engineer, on the subject of our water works, their location etc.; also of their Chief Engineer, of expenditure in detail. They also presented a report of a committee appointed by that board which we also return herewith.

The importance of the subject justifies us, we think, in presenting to the public all the information possible, and as these papers represent the views of the Board of Water Commissioners they are made a part of this report, and from which it

Digitized by Google

may be inferred and taken as an answer to the inquiries contained in the resolution of Ald. Botsford:

1. That it is not the intention of the Board of Water Commissioners to remove, or at all do away with the present works, but in effect to duplicate the supply of water, and in case of accident to rely on the other works to continue a supply.

2. That the Board of Water Commissioners have not yet determined, nor are they agreed, in the particular location for the new works, but have suggested that the water be taken from near the front of the Richard Beaubien farm so called, or near lighthouse or Windmill Point, so called.

3 The necessity of the works is stated in the various reports of the Board.

4. The estimated cost of the works is fully set forth in the report of the Chief Engineer of the Water Works, herewith reported.

5. The Board of Water Commissioners do not propose to use the required bonds immediately, but as the necessity may arise.

The undersigned are fully impressed with the necessity, and common prudence demands the taking of immediate measures for securing to the inhabitants of this city a sure, constant and full supply of the purest water to be obtained within our means; and that in carrying out and perfecting this it should be so done as to be permanent and fixed for years to come; and we think the present time offers opportunities which should not be allowed to escape; and, without urging any scheme to carry this into practice, we think the Board of Water Commissioners are fully capable and better able to judge of this than others.

The undersigned, however, have, after consideration of the matter, and with all due respect to the opinion of the gentlemen who compose the Board of Water Commissioners, concluded that there is only one location or place for the future works, or for obtaining a supply of pure water which will justify this Council in issuing the large amount of bonds required, and that location is at or near Lighthouse or Windmill Point, so called, and for the following reasons.

1. The extra cost (as advised) of taking the water from that point is about $331,000 more than from the front of the Richard Beaubien farm, just above the Park House, and water taken from that point assures us of its purity, and free from all future danger of contamination by local works above it.

2. By this location the whole territory below it is open for all kinds of manufactories, without interfering with the water works.

3. The eastern portion of the city as now extended must be supplied, and the work itself will furnish a supply itself as it progresses; in other words, the supplying of that part of the city will form a part of the work as extended.

4. The extension of the present inlet pipe would be a temporary improvement merely to be continued as now used, and a supply pipe entering the river at any place below Windmill Point would be subject to the same liability to receive impure water, not only from natural, but artificial causes, as the present pipe.

With these views there can be but one result, and that is that the work should be commenced and prosecuted without delay, and in executing the same the future should be kept constantly in view, not only as a matter of economy and the health of our citizens, but the growth, safety and welfare of all mechanical trades, and the undersigned therefore recommend the issuing of the required bonds, whenever the Board of Water Commissioners shall have determined on their part, the premises and location required for the purpose satisfactory to the Council.

All of which is respectfully submited.

DAVID PRESTON,
C. M. GARRISON,
GUY F. HINCHMAN.

CHIEF ENGINEER'S OFFICE,
DETROIT, May 6, 1878.

To the Commissioners on Supply of Water, Board of Water Commissioners, Detroit:

Gentlemen—I have the honor to submit the following detailed estimates for pumping works at Beaubien farm and Windmill Point.

Some of my first estimates have been changed since a more full examination of the ground has been possible. This is particularly the case with the inlet basin, which has been reduced in size and a puddle wall substituted for one of concrete.

As in the channel in front of the Beaubien farm there does not seem to be any good place for a strainer of sufficient size to accommodate a five foot inlet pipe, I have estimated for a crib on the upper end of the middle ground to rise above the water, and which would probably take the water from the outside of both channels, thus avoiding most, if not all, of the shore wash. I have estimated for a five foot inlet pipe of wood bounded with galvanized iron and lined with concrete.

The cost of this will be about one-fourth that of an iron pipe of the same size, and I can see no reason why it will not be just as good and in some respects better.

As will be seen on the last page, the difference between the cost of the works at Beaubien farm and Windmill Point will be $351,013 80.

Very respectfully,

D. FARRAND HENRY,
Chief Engineer.

[Extract from report of Engineer McAlpine, 1868.]

Location of the Pump House.

The primary object is to procure a supply of water of the greatest purity, and a secondary one, from the most convenient place, with the least expense.

A sewer now discharges into the river just above the inlet pipe, and when the velocity of its discharge considerably exceeds the flow of the water in the river, the former will be carried out as far as the extremity of the inlet pipe.

The specific gravity of a considerable portion of the sewerage matter will be greater than that of the pure river water, and will therefore descend to the mouth of the inlet pipe, and seriously contaminate the water which enters it.

The surface current of the river at this place is usually three miles per hour, but a strong west wind will reduce it so that even that portion of the sewerage, which under other circumstances would float down the channel, inside of the mouth of the inlet pipe, is retarded, and flows further out into the channel and sinks to the bottom.

The conjunction of the forces which will produce these effects will probably only occur at rare intervals, but as your works are now arranged daily pumping is necessary, and therefore you are liable to this evil as often as these forces operate in the manner above suggested.

The water flowing down the river has been estimated at 300,000 cubic feet per second, of which at least two-thirds passes down the channel south of Belle Island.

The water which supplies the northern or American channel, sweeps past the concave shore of the swampy ground above this island and then from opposite the upper part of the island, along the hard, high banks on which the city is built, to Bloody Run, and thence on nearly a direct line along the wharves of the city.

About midway of Belle Island there is a sand bar,

Digitized by Google

which was once an island, and the American channel divides at its head, and about one third of this water (one-ninth of the whole river), passes down a channel between this sand bar and Belle Island and unites with the northern branch nearly opposite Bloody Run, although it is some distance further down before these two channels are completely united.

The great Canadian channel also divides into two of unequal size, nearly opposite the middle of Belle Island; the larger one follows close along the Canadian shore and unites with the American channels below the city. The smaller of these channels is deflected toward the American shore and intersects the channel on that side of the river, not very far below the present location of the inlet pipe.

In a calm day these channels are visible, and on a copy of a map furnished to me by Gen. Reynolds, on which are marked the soundings taken by ——— in 18—. I have drawn certain lines, by which, after allowing for some known changes in the bar, these channels are indicated as I have above described.

Some changes in the surface currents are produced by strong winds blowing crosswise of their direction; but the main body of the water, especially that near the bottom of the river, follows the direction indicated.

It would have been more definite and satisfactory if this question could have been determined from observations taken with special reference thereto, but those now accessible are sufficient to determine the general form and direction of these channels.

It will thus be seen that the great Canadian channel serves as a great sewer, to carry off all the offensive matter which may ever be discharged into the river from that side, and the northern American channel performs the same service on that side of the river, while between these two great sewer arteries, there flows two streams of perfectly pure water, from either of which, water can be procured as pure as it is in the lakes above.

To avail of the southern branch of the American channel it would be necessary to remove the pumping works to a point about —— feet further up the river, that is to above the junction of the two American channels to avoid the contamination which is certain to be given to the whole volume of the north channel, by such mechanical works, slaughter-houses, etc., as will be built on the river shore above this place. The south channel at this location is from 2 000 to 2,500 feet from the north shore, and the inlet pipe must be estimated of that length eventually.

Opposite the present pumping works the north Canadian channel approaches within less than 1,000 feet of the north shore, and an inlet pipe of this length will be required eventually.

There is but little difference in the quality of the water which would be obtained from these two sources but it is slightly in favor of the one last mentioned.

In regard to the cost of works of the same capacity at the two places, the advantage is altogether in favor of the present location, which requires an inlet pipe of but one-half the length, while to the other must be added, a very heavy expenditure for a wharf, pump well, pump house, chimney, the removal of the machinery and —— feet of additional force main, besides the necessity of adding capacity to the existing main, to lessen the friction, and added to all this will be the annual expense of pumping all of the water a greater distance, which will add from one-tenth to one-fifth of the cost of this item.

The land at the present location would sell for more than enough to purchase the new site

One of your honorable body informed me that the popular opinion was so strong against any location of the work on the river, below the sewers which are now contemplated, and especially of those which will eventually discharge through the valley of Bloody Run, and even below the places where manufactories, etc., will probably be established on the river bank, that it had been suggested by your board, that your new works should be located entirely above these influences, and with him I examined the location suggested, viz: nearly opposite the trotting park and head of Belle Island.

At this location the quality of the water would be unquestionable and not liable to any further injury from any of the causes heretofore stated, and the inlet pipe would be very short.

The objections to this location are in all other respects the same as those stated to the second named location, with the additional cost of a force main of four miles, and the annual cost of pumping all of the water against an increased head.

The opinion against any plan of using water which is contaminated by sewage, etc., even in the smallest degree, is well founded, and no such place would receive your approbation

The sewers which discharge into the river above the present works, might be intercepted by a large sewer running parallel to, and near the river and discharging below the inlet pipe, and if you did not have such a river sewer to receive and convey the sewage away, you would be compelled to resort to this method, but the river, besides its other benefits, will save you this large additional expense.

Although this part of the municipal work is not under your charge, your interest in the city would prevent you from adopting any plan which would involve so large an expenditure in another department.

It has hereinbefore been shown that by extending an inlet pipe 1,000 feet from the shore, at the present location, a channel of pure water will be found, and that this water will never be liable to contamination, unless from nuisance created on —— —— Island discharging on its south shore. The contingency of this is so remote that it is not worth while to even consider it—especially so, in that case, you could obtain legislative authority to prevent it, which could be exercised without injuring any of the interests of the city.

On a careful consideration of the question, I am decidedly of the opinion that the present location of your pumping works is preferable to any other; and if it was an original question as to where these works should be located, the one now adopted would be better than any one to the eastward.

REPORT OF COMMITTEE TO THE BOARD OF WATER COMMISSIONERS ON THE ENLARGEMENT OF THE PUMPING WORKS.

The committee, in accordance with instructions, respectfully report;

At a regular meeting of the Board of Water Commissioners, held December 10, 1872, the following resolution was offered by Commissioner Hodge, and unanimously adopted:

"Resolved, That the time has arrived when it is expedient and necessary to enlarge the means of supplying water, and that the pumping works should be removed to some point on the river above the city."

The board subsequently asked the Legislature to allow them to issue bonds to the amount of $1,000,000, for this purpose, subject to the approval of the Common Council, which request was granted.

The reasons for passing the above resolution were substantially as follows:

1st The present pumping power consists of three engines, one of which is able to deliver from 15,000,000 to 20,000,000 gallons of water a day, and the other two together from 10,000,000 to 12,000,000 when pumping continuously. The former will suffice for some years to come, but the present demand has about reached the capacity of the two smaller ones; so that in case of accident to the large engine, they would be pushed to their limit of capacity to supply the maximum demand, especially as the reservoir contains considerably less than one day's supply; hence additional pumping power is an immediate necessity.

The present lot is too small to admit of the erection of a new engine house, and it is so surrounded by buildings, that in case of a large fire, the present house would be in great danger. Therefore, to increase the present pumping works, would necessitate the purchase of additional grounds, and they would need to be surrounded by a high wall to protect them from fire.

An inlet pipe, of large capacity and of considerable length, would also be necessary.

2d. The river in front of the present pumping works is certainly at times contaminated by sewage, and will be more so as the population of the Tenth and Eleventh Wards increase and manufactories are extended up the river. Mr. McAlpine, who was here in November, 1838, made a report upon the location of the pumping works, a copy of which is presented herewith. Probably no engineer in this country has given more time to the study of the contamination of water by sewage, and in the report he plainly shows that in neither the American nor the Canadian channels can we expect to find pure water in the future. He, however, thought the soundings given on the lake survey chart of the river indicated its separation into four channels, a conclusion of which he would be the first to acknowledge the error could he see the soundings taken last month by our Chief Engineer. There being, therefore, no intermediate channels between the "great Canadian channel, which serves as a great sewer to carry off all the offensive matter which may ever be discharged into the river on that side, and the American channel which performs the same service on this side of the river," it follows that no pure water can be found below the outlets of the sewers. For, as he says, a west wind will check the current of the river, and thus allow even that portion of the sewage which would ordinarily be carried inside the inlet pipe to flow further out into the river. And this more especially as we know that the most of our heavy rains are accompanied by westerly winds, and thus the velocity of the sewage is accelerated just at the time the current of the river is retarded.

Reliable parties have informed us that during our last heavy rains the muddy water from the sewers could be perceived well out to the center of the river below Woodward avenue; corks and other light articles also being seen on the surface at that distance from shore.

Omitting, then, from the report of Mr McAlpine, the idea of a north Canadian channel, the whole argument is against the present location of the works. Besides, he allows that even this *pseudo* channel would not be free from contamination by any nuisance committed on Belle Isle, but says that that contingency is so remote as not to make it worth considering, while we now see that there is great probability of that island being devoted to manufacturing purposes before long

Now, to reach the Canadian channel would require an inlet pipe, 1,800 feet long, which if laid on the surface would be liable to be caught by the anchors of vessels, or crushed by a vessel sinking over it, and if a channel were dredged for it, would cost with crib at the end, certainly $150,000. A tunnel, as proposed by some, would be hardly practicable: 1st, on account of the great expense and uncertainty of construction; and 2d, because as shown by the report of Mr. E. S. Chesebrough, on the attempted railroad tunnel, there would be a strong probability of striking sulphur springs, which, with a head of say 100 feet, would force through any cement brick work and spoil the water passing to the pumps. Again, with this 1,800 feet inlet pipe, we reach a channel which is not naturally as pure as our own, and which would also be fouled by sewage from Belle Isle, and from the Canadian shore, should manufactories be erected there, which does not seem so improbable now as it did five years ago.

Besides, it does not seem to be just to locate the end of the pipe through which the city's supply is drawn, in foreign waters.

Below the old gas works the gas-tar has been found fully 8.0 feet out into the river, and at Clark's dry dock the surface water is so foul from the gas refuse that the workmen have to go some hundreds of feet from the dock to find water fit to drink. At the Fort the inlet pipe has been lengthened twice, and they are yet troubled with bad water, while 8 0 to 1,0 0 feet from the shore the water taken in a hydrosphere, 12 or 15 feet from the bottom, has the greasy blue color and smell of the gas washings at the works. Although probably the new gas works above the city have not yet contaminated the water to this degree, yet it is only a question of time.

The certain way, therefore, to obtain pure water with the pumping works at the present location, is to carry the inlet pipe up to the middle ground between Belle Isle and the main land This would be very expensive, and the works would be crowded and in danger from fire, and although the vegetable matter and clay held in suspension in the river after heavy storms and which necessarily enters the pumps, is probably not hurtful, yet it is very disagreeable and unpleasant to the sight. And the water increased would be far better if it were possible to allow it to stand in an inlet basin long enough to allow it to settle out all such impurities, before it was pumped into the mains

These considerations induced the board to unanimously agree to the proposition to locate new pumping works up the river, above the danger of contamination by sewage, and where land enough could be obtained to construct such an inlet basin as mentioned above. Two localities were selected by our engineer, as shown in the accompanying sketch, either of which, however, could be moved several hundred feet without materially increasing the expense or altering the plans.

A great deal has been said in the newspapers about the connection of the water works and the park, but as will be seen on this sketch, both these locations are above the park site.

At the Beaubien farm locat on below Conner's Creek, the water can be brought from the head of the middle ground opposite, and thus take the water from the inside of both the channels into which the American channel is divided at that point, and at the Windmill Point location the water would be taken from the deep pocket at the foot of Lake St. Clair. One great advantage the American has over the Canadian channel will be seen on reference to a map of Lake St. Clair. For while the Canadian side of the lake near the mouth of the river has a muddy bottom and marshy shore, the American side has sandy banks and a gravelly bottom, giving the water in the former channel the dirty appearance which is always remarked after storms: while the latter, except at extraordinary times, preserves its clear blue color.

If new pumping works were located up the river the cost of the present works would by no means be lost, for dock would still be needed for the receiving and storing of pipe and supplies, and the old engines could be left, ready to be used to supply the city in case any accident should happen to the upper works, or should the force main from them be broken: thus giving us what Chicago is now constructing at great expense, duplicate pumping works. This duplication also makes a large reservoir to keep a supply of water on hand in case of accident, less essential.

Many levels have been made by our Engineer, and the only places he finds more suitable for a reservoir than the present lot, are two: one about a mile north of, and 10 feet higher than, the present site, the other about three miles out on the Van Dyke road, and about 17 feet higher. The latter is about two miles north of the Mack road, the northern boundary of the Park, and is the one mentioned in his estimates as Hamtramck reservoir, which has been spoken of as the Park reservoir in the newspapers.

The present reservoir is probably large enough for the immediate future, with duplicate works, and it will be soon enough to talk about the construction of a new one, after the more pressing necessity of additional pumping power, and its location where pure water can be obtained has been attended to. The purity of the water, at the proposed location can be maintained, as under a recent act of the Legislature the board have the right to prevent the pollution of the water for six miles above the inlet pipe. This right could be exercised without interference with other important interests.

One large item in the expense of locating new works up the river is the cost of the force mains to bring the water to the present distribution. But were the present works enlarged, mains would have

to be laid eventually to the city limits at least, which now extend a mile beyond the Beaubien farm, and within a mile of the Windmill Point location. Therefore the cost of laying these mains should be deducted from the estimates for the force mains, as the latter could be tapped to supply these districts.

The facts may be new to some, as the silence of the board under the criticisms of certain newspaper scribblers may have conveyed the impression that those articles were unanswerable; but they have not thought themselves called upon to answer such attacks until questioned by authorized persons. They have felt the responsibility of their position, and have ever been ready to fulfill the requirements of the citizens so far as their abilities would permit, and have always been willing to avail themselves of the judgment and experience of others; but they feel that this question of water supply is one of vital importance to our city. They have devoted much time and thought to it, and it should not be lightly passed over by any who have the interest of the city at heart, nor should it unjustly be mixed up with another scheme, with which its only connection is, that both seek to go above the city rather than below.

The matter of contamination by sewage, is one which should be very carefully considered by all, for it is a question of life and death to our city, and we cannot better close than by giving some quotations from different writers on this subject.

FROM CHAMBERS' ENCYCLOPÆDIA.

"Organic matter in a putrefying state forms the worst kind of contamination that water can have. * * As to the plea of smallness of amount, the highest medical authorities hold that it is impossible to say how small a quantity of organic matter in a state of fermentation may not do harm. We are not, however, left merely to presume that organic impurity in water is prejudicial to health. During the cholera visitation of 1853-1854, a gigantic experiment was undesignedly made on 500,000 of human beings. It so happened that a certain district of London was supplied by two rival water companies, the two mains running often side by side, and some houses taking water from the one and some from the other. The whole inhabitants were living alike in all respects save one, viz: that one company drew its water from high up the Thames, where it was of comparative excellence, while the other drew its water from low down the river, where it was profusely contaminated with town drainage. Among this population there were more than 4,000 deaths from cholera; and when the epidemic had subsided an inquiry was made, house by house, as to those deaths, and as to the water-supply of the several houses where they had occurred. The inquiry was conducted with every precaution, to avoid sources of fallacy; and the result was this: in the one set of houses the mortality per 10,000 of the population was 37; in the other set of houses it was 130, that is to say, the cholera death-rate was 3½ times as great in the one set as in the other."—Vol. X, p. 101.

FROM REPORT OF ENGINEER M'ALPINE TO THE WATER COMMISSIONERS OF HUDSON, 1872.

"The atmosphere over a city is always contaminated with the gaseous products of combustion, and those arising from decaying animal and vegetable matter, garbage which is strewn over vacant places so freely, and from manufactories, slaughter-houses, and sewage matter, all of which are constantly sending upward volumes of noxious gases, which the descending water rapidly absorbs, or which are condensed in the upper strata of the air, and are precipitated upon the roofs and surface of the ground where they will be absorbed by the first fall of water * * * At present London is chiefly supplied by water from the Thames and New Rivers, and the experts (often in the interest of monopolizing water companies), insist upon the purity of the waters from these rivers into which flows as much sewage as there is in the Hudson River. Schemes for a supply of pure water from Wales and Cumberland, more than 200 miles distant from London, are now being discussed, and half a century hence they will doubtless be carried out.

"In another place in this appendix will be found voluminous extracts from foreign and domestic authorities, and even from Prof. Chandler, showing not only the impure but even dangerous character of such river water as that of the Hudson at Albany.

"The citations of the Thames water for London, the Seine for Paris, the Connecticut for Hartford, the Schuylkill for Philadelphia, and the cities along the Ohio and Mississippi Rivers, are all met and answered by the fact that, at each of the places named new inland sources have been obtained, or are being sought for to escape the pollutions which must necessarily exist in river waters bordered by their usual dense populations.

"Even on the theoretical grounds it is found to be impossible to prove, or any rate to convince the common sense of the public that such waters are fit for domestic uses. The analytical chemists themselves admit that their science does not enable them to detect the presence of some very poisonous matters in water, among which are portions of sewage and other matter, which have caried the impregnations of that frightful disease, cholera, with diarrhœa, dysentery, and fevers to all those who have been used to such waters These facts are so well known, not only to physicians, but to the intelligent public, that it seems to be almost unnecessary to argue the question further."

Merely saying that it is impossible for sewage to go out beyond a certain distance will not alter nature's laws, nor prevent it from bringing disease into the city, if it really does become mingled with the water we drink.

To recapitulate, we find that new works at the present location would require a large outlay for additional grounds, and, unless the inlet pipe were carried far up the river, the water would sooner or later be contaminated by sewage.

To build new works up the river would cost somewhat more for force mains, but an abundant supply of water of undoubted purity could be obtained, and the works would be duplicated, thus obviating the necessity for the immediate construction of a large reservoir.

The works should, in extent and capacity, be commensurate with the wants of our city for at least the present century. It is evident that there will not only be a great increase in our population, but also unusually large accessions to our manufacturing establishments.

Adopting the language of the water board of a sister city, now called upon to consider the questions before us: 'The soundest economy dictates that if we are to have water works at all, we should have the best which are attainable. * * * Whatever we build should be builded to meet the needs of future generations as well as our own We should be justly held by them under condemnation, if in the spirit of unwise economy we had left them the legacy of water works for which they were to pay, which lacked one of the essential elements of value which should be involved in them—the purity of the water supplied."

The Board of Water Commissioners—charged by law with the important duty "to examine and consider all matters relative to supplying the city of Detroit with a sufficient quantity of pure and wholesome water,"—with a proper appreciation of their great responsibilities, have given this subject the most careful and patient consideration. They are thoroughly confident of the correctness of the conclusions to which they have with entire unanimity arrived, and of the wisdom of their proposed action. We believe their judgment will meet with the approval of an intelligent public.

HOUSE OF CORRECTION.

To the Honorable the Common Council:

Gentlemen—Your Committee on the House of Correction herewith transmit to your honorable body communications from the chairman of the Board of Inspectors of the House of Correction which deserve grave consideration.

Respectfully submitted,
GEO. W. HOUGH,
SMITH R. WOOLLEY,
C. M. GARRISON.

[Copy.]

To the Honorable the Common Council:

The annexed communication of the Superintendent of the House of Correction calls the attention of the board to the deplorable and unsafe condition of the buildings and sewers belonging to the institution. The safety of the buildings and the health of its inmates make it an imperative necessity that immediate repairs should be ordered by your honorable body.

Respectfully submitted,
EDWARD KANTER,
Chairman.

[Copy.]

To the Hon. Edward Kanter, Chairman of the Board of Inspectors of the Detroit House of Correction:

SIR—As directed by your honorable board, I have prepared a statement of the condition of the buildings and the sewerage of this institution, which I herewith submit, with estimates of the probable cost of putting both buildings and sewers in proper condition.

The sewerage is in a deplorable condition and requires immediate attention. The drains leading into Russell street sewer, laid when the buildings were erected, are entirely inadequate at present, the buildings having increased to nearly double their original size.

The outside walls never were properly drained and water may be found gushing from under the footings on excavating to that depth. The cellars are wet and unfit for storage purposes.

The waste water of the kitchen and the officer's closets partially drains into the cellar. These closets are nearly opposite the Superintendent's dining-room, and being improperly constructed (without traps), have become an intolerable nuisance, besides being detrimental to health. The drains of the female prison are in about the same condition.

The sewerage of the buildings throughout is in a condition to excite the gravest apprehensions should cholera visit us during the present summer.

The roofs of the buildings leak to such a degree that large portions of the ceilings have fallen off. The heels of the rafters having been exposed to wet, have nearly rotted away, and the walls have already suffered to a great extent from the action of the frost.

The roofs of the dwelling and the prison proper are of slate, which were poorly laid, and a large number have dropped off. The gutters are formed in the rear of brick battlements, and are consequently over the inside of the building.

I propose to remove those battlements, and to replace the present gutter by one projecting beyond the face of the walls.

The probable cost of these improvements will be:

For additional sewers	$2,800 00
For providing proper closets for officers' quarters and the necessary water connections	860 00
For reslating roofs and providing same with new gutters and cornices	5,998 78
Total	$9,578 78

Very respectfully,
A. LEDERLE,
Superintendent.

Accepted and referred to the Committee on the House of Correction.

FIRE LIMITS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Fire Limits to whom was referred the petition of Dr. W. Burrows, for permission to extend a shed in rear of his house, No. 320 Michigan avenue, and to make certain other slight improvements, respectfully report that said shed is but 14 feet wide and 9 feet in height, and when extended as proposed will not come within 30 or 40 feet of other buildings. The fire risk will not be increased by the extension. The other improvements contemplated are the converting of an ordinary window into a bay window, etc., which will not increase the risk. Your com-

mittee recommend that the prayer of the petitioner be granted.

Respectfully submitted,
M. P. CHRISTIAN,
A. O'KEEFE,
D. DULLEA.

Accepted and adopted.

PARKS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Parks, to whom was referred the petition of H. M. Dean and others, for the removal of the fence around the west Park would respectfully report that as this park is considerably improved, and that there is no danger of damage to young trees, we respectfully report in favor of removing the fence, and beg leave to offer the following resolution.

Respectfully submitted,
WM. LICHTENBERG,
JAMES DALY,
ALBERT BOTSFORD.

COMMUNICATIONS FROM THE MAYOR.

To the Honorable the Common Council:

MAYOR'S OFFICE, July 14, 1873.

Gentlemen—I return to your honorable body without my approval that part of your proceedings on the 11th inst. directing the Sewer Commissioners to contract with Messrs. Mahony & Dean for the sewer in Eighteenth street, from Baker street to Michigan avenue, for the reason that the whole proceedings, from the first bid received to the last, seemed to be irregular, and the Sewer Commissioners who give their time gratuitously to the city, and are ever ready, at whatever sacrifice to themselves, to attend to their duty, complain that they cannot conscientiously enter into a contract which by the city is to lose some $12,000, when responsible parties are willing to do the same work at a price less that amount. I therefore ask your honorable body to reconsider this matter, rather than lose the services of the members of the Sewer Commission.

Very respectfully,
H. MOFFAT,
Mayor.

Accepted, and on motion of Ald. Woolley, the vote by which the resolution was passed, was reconsidered as follows:

Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Ruehle, Stange, Welch, Woolley, and the President—18.

Nays—None.

The question then being "Shall the resolution now pass, notwithstanding the objections of the Mayor," the same did not prevail, two-thirds of all the aldermen elect not voting therefor, as follows:

Yeas—Ald. Broeg, Daly, Dullea, Garrison, Grelling, Hinchman, Hough, O'Keefe, Stange, Welch, Woolley, and the President—13.

Nays—Ald. Botsford, Christian, Flower, Lichtenberg, Parsons and Ruehle—6.

To the Honorable the Common Council:

Gentlemen—In reference to a resolution adopted by your honorable body on the 12th inst., calling my attention to the miserable manner in which the wood pavement was repaired on several streets, I would respectfully state that on the southeast corner of Second and Woodbridge streets the work

was performed by the Fire Commissioners, and I have notified them to properly repair it. On the south side of Michigan avenue, near the corner of Thirteenth-and-a-half street, it was repaired by Mr. D. S. T. Weller, and the work will be properly performed before it is accepted by me. In reference to the pavement in front of the Western Hotel, the Gas Company has not as yet completed it, but will do so as soon as possible.

Respectfully submitted,
HENRY KNOWLES,
Street Commissioner, Western District.

Accepted and placed on file.

FROM THE CLERK OF THE RECORDER'S COURT.

To the Honorable the Common Council:

Gentlemen—I respectfully report to your honorable body that the jury heretofore impaneled in the matter of opening an alley in the block bounded by Fort, Congress, Riopelle and Orleans streets, have filed their report, and that said report was confirmed by the Recorder's Court of the city of Detroit, on Wednesday, the 9th day of July, A. D. 1873, and that I have on this 15th day of July filed, in the office of the City Clerk, a certified copy of said report, and of the order of the Court confirming the same.

Hogguer for permission to erect a frame shed in the rear of 395 Michigan avenue; of John Esser, for permission to extend a shed on Mechanic street; and of Mrs. Hunt for permission to erect a two-story frame building on Madison avenue, would respectfully report that a careful examination of each of the above premises above mentioned has been made, and that the prayers of the aforesaid petitioners cannot in any instance be granted without increasing the fire risk, would therefore report adverse to the same.

By order of the board,
Very respectfully, etc.,
FRED. H. SEYMOUR,
Secretary

Accepted and placed on file.

FROM THE BOARD OF SEWER COMMISSIONERS.

To the Honorable the Common Council:

Gentlemen—The Board of Sewer Commissioners, to whom was referred the petition of L. F. Whitman and five other residents on Twenteith and Twenty-first streets, between Fort and Marquette streets, asking the Council to reconsider the vote instructing the Sewer Commissioners to contract for the construction of sewer in the alley between those streets, and to advertise for proposals for said work, having taken the matter into consideration would report in favor of the prayer of the petitioners.

Respectfully submitted,
WALTER H. COOTS,
HARVEY KING,
A. E. BISSELL.

Accepted, and leave being granted, Ald. Ruehle offered the following:

Resolved, That the Sewer Commissioners be, and they are hereby directed to advertise for proposals for the construction of a brick lateral sewer in the alley between Marquette, Lafayette, Twentieth and Twenty-first streets, and the City Surveyor is hereby directed to make out the necessary assessment for the same.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—The Board of Sewer Commissioners, to whom was directed the following resolution, bearing date of July 11, 1873: "Resolved, That the Board of Sewer Commissioners be, and they are hereby directed to contract with Mahony & Dean for the building of the Eighteenth street sewer, from Baker street to the south side of Michigan avenue, in accordance with their proposal, they being the lowest responsible bidders" would beg leave to communicate to your honorable body that the board, after due consideration and examination of the various bids received for the building of said sewer, are of the unanimous opinion that the bid of Mahony & Dean is altogether too high, and should be rejected by your honorable body for the following reasons: In the first place, this board, under direction of your honorable body, advertised for proposals for building Eighteenth street sewer No. 3, from Baker street to the south side of Michigan avenue, and No. 4, from the south side of Michigan avenue to Ash street. The bids received were as follows:

Sewer No. 3—Uridge & Bristow, per lineal foot $18 50
J. M. and J. W. Granger, per lineal foot 14 58
Sewer No. 4—Uridge & Bristow, per lineal foot $18 00
J. M. and J. W. Granger, per lineal foot 13 98

The bid of Daniel Shanahan was thrown out through informality in the bond. As shown by the bids Uridge & Bristow were the lowest bidders at $18 50 per lineal foot for No. 3 and were ready to enter into contract at this price, but owing to some cause or other the board were not instructed to contract with the lowest bidders, but were directed to again advertise for proposals, the result being the following bids received:

Sewer No. 3—Daniel Shanahan, per lineal foot $18 00
Uridge & Bristow, per lineal foot 18 50
Sewer No. 4—Daniel Shanahan, per lineal foot $18 25
Uridge & Bristow, per lineal foot 18 00

On this bid the board were directed to contract with the lowest responsible bidder for the above named sewers. Uridge & Bristow in good faith contracted with the city to build sewer No. 4, from the south side of Michigan avenue to Ash street, which work has been commenced and is being carried on in good order. Daniel Shanahan, the lowest bidder on No. 3 sewer, from Baker street to the south side of Michigan avenue, both him and his sureties, declined to enter into contract for building said sewer. We advised your honorable body of the failure of the parties to contract, and asked for instructions to readvertise again for bids for said sewer, which was granted. The only bid received was from Mahony & Dean at $18 50 per lineal foot, which we believe is altogether too high.

If Uridge & Bristow can build No. 4 sewer at $18 per foot, and were ready and willing to enter into contract with the city in accordance with their bids of May 20th and June 10th to build No 3 at $18 50 per foot, why should we now be compelled to pay Mahony and Dean $18 50 per foot, a difference of over $10,000. The sewer is the same size and about the same depth as No. 4. The ground through which the sewer in question is to pass, is to all appearance, more favorable to the contractor than No. 4 sewer. Therefore this board most respectfully ask your honorable body to reconsider your action in the adoption of the above resolution, reject the bid, and direct us to readvertise for said sewer.

Respectfully submitted,
WALTER H. COOTS,
HARVEY KING,
A. E BISSELL.

Accepted and placed on file.

SUSPENSION OF THE RULES.

Ald. Ruehle moved that the rules be suspended for the purpose of taking from the table the resolution presented on the 8th inst., in connection with the majority report of the Committee on Sewers, relative to the construction of a public sewer in Eighteenth street.

Carried.

The following is the resolution:

Resolved, That the Sewer Commissioners be, and they are hereby directed to advertise for proposals for building a public sewer in Eighteenth street, from Baker street to Michigan avenue.

Adopted as follows:

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—The Board of Sewer Commissioners, to whom was referred the resolution of Ald. Daly requesting the Sewer Commissioners to examine the wooden sewer in Eleventh street, from Fort to Woodbridge street, would respectfully report that having examined the same, we find that the sewer is much too small to carry off the large quantity of water coming into it from the Fort street and Twelfth street sewers. The timber is very much decayed and needs rebuilding, but as no appropriation was made for it this season it will have to remain as it is until next year.

Also, the resolution of Ald. O'Keefe directing the Sewer Commissioners to examine the locality south of Franklin street, between Dequindre and Chene streets, and report the most practicable way to drain said locality, would report that having examined the premises we would recommend that a lateral sewer be built in Guoin street, from Orleans to Dequindre street, and from thence in the alley between Franklin and Guoin streets to St. Aubin avenue, and in Guoin street from Chene street to St. Aubin avenue. But as Guoin street is, the greater part of it, private property, it will requre some action of your honorable body to obtain the right of way before a sewer can be built. Also, on the complaint of Francis X. Leyden, asking to have Labrosse street sewer repaired where it caved in two years ago, we would report that we find the sewer has not caved in, as stated by the complainant, but is in good condition. The cause of the back water in the cellars is from heavy rains, as the Seventh street sewer between Labrosse and Fort streets is not large enough to take the amount of water that runs into it.

Respectfully submitted,
WALTER H. COOTS,
HARVEY KING,
A. E. BISSELL.

Accepted and placed on file.

FROM THE CITY CLERK.

That he presented the proceedings of the last Council to the Mayor on the 12th inst., and they were returned approved on the 14th inst., except as above noted.

Also, that the Mayor has approved an ordinance regulating the getting on and off of passengers from street cars.

Accepted and placed on file.

Detroit, July 10, A. D. 1873. 91-96

AN ORDINANCE Authorizing the "St. Aubin Avenue Street Railway" to construct and operate its railway.

It is hereby ordained by the Common Council of the City of Detroit:

SECTION 1. An ordinance authorizing the "St. Aubin Avenue Street Railway Co." a corporation organized under the laws of the State of Michigan in regard to tram railway companies, to construct and operate its railway from Gratiot street to the northerly limits of the city, on St. Aubin avenue. A diagram of the route of said railway, within two months of the passage hereof, shall be filed with the City Clerk and Surveyor. *Provided*, That should any part of the territory north of the city limits and through which the track of said road shall be laid, be added to the corporation, then the rights hereby granted shall include and cover so much of the said track as shall be in such territory, and be subject to all the provisos and conditions of this ordinance

SEC. 2. Said company is authorized to lay, use and maintain a single track, with necessary and convenient turn-outs, side tracks and switches in and along the course of said avenue mentioned in the preceding section, and to operate thereon street railway cars during the term hereinafter prescribed, subject to all the conditions and restrictions of this ordinance.

Such track shall be laid with the inside of each rail two feet four and one-fourth inches from the center of the street. Said rail shall be of the same style and shape as those now in use by the city street railways, and shall be laid four feet eight and one-half inches apart, with the upper surface of the rail flush with the surface of the street, and in such a manner as not to interfere with ordinary travel, and particularly of wheeled vehicles, and shall conform to the grade of the streets as existing or hereafter altered.

SEC. 3. If it shall become necessary to relay said rails, the same shall be done at the expense of the grantee, and in all streets or parts of streets which are not paved, the rails shall be laid in such manner as shall least interfere with the public travel thereon, and as shall be authorized and approved by the Common Council. The grantee and its assigns shall keep the surface of the streets, from curb to curb, in good order and repair, and all snow, ice, dirt and filth cleaned and removed from such portion of the streets at the expense of the grantee, in such manner as not to obstruct travel in any part of the street. And said company shall fully idemnify and save harmless the city from any and all claims and damages for which it might be made or become liable to pay by reason of the construction, making or operating of said railway, or the giving and allowing of the license, right and privileges hereby granted.

SEC. 4. Said railway shall be laid down subject to the right of the city, or of any gas company, or the Water or Sewer Commissioners, to lay down, take up, change or remove any works of any kind on or beneath the surface of the streets without any claim for damages on the part of said railway.

SEC 5. The cars to be used on said railway shall be run and drawn by animals only, at a speed not exceeding six miles an hour, and as often as the Common Council shall by resolution prescribe. *Provided*, The cars and carriages used by said grantee shall be of the best style in use on street railways in the city of Detroit, and they shall not be used for any other purpose than to transport passengers and their ordinary baggage. *Provided*, That other cars may be used for cleaning said railway track from obstructions by snow or otherwise.

SEC. 6 The trains on said railway shall at all times be entitled to the track, and vehicles on the track shall turn out when any car comes up, so as to leave the track unobstructed, and the driver of any vehicle refusing so to do shall be liable to a fine as provided in section 16 of this ordinance.

SEC 7. Cars drawn in the same direction shall not approach each other within a distance of 100 feet, except in cases of accident, or at stations, or for the purpose of connecting cars together. All cars used upon said railroad after sunset shall be provided with signal lights, red in front and green in rear.

SEC. 8. No car, or the horses thereto attached, shall be allowed to stop on a crosswalk or in front of any intersecting street, except to avoid collisions and to prevent danger to persons or property in the street; and drivers shall not allow any person to enter or leave the cars while in motion. Nor shall any car be allowed to remain or stop at the intersection of any street so as to obstruct the free and ordinary use of it. When any car is required to be stopped at the intersection of any street to receive or leave passengers it shall be so stopped as to leave the rear platform slightly over the crossing.

SEC. 9. The grantee and its assigns shall employ careful, sober and prudent agents and drivers to take charge of the cars while on the road, and it shall be the duty of all such agents and drivers to keep vigilant watch for all trains, carriages and persons on foot, especially children, either upon the track or moving toward it. At the first appearance of danger to such teams, carriages, footmen, children or other obstructions, the cars shall be stopped in the shortest time and space possible,

and notice-bells shall be attached to all horses drawing such cars. Drivers shall announce to the passengers the names of the principal squares and streets as the cars reach them.

SEC. 10. The grantee is authorized to lay through the center of said avenue a substantial plank road or walk, of not less than six feet in width, well supported on stringers of sufficient strength, with a proper foundation, on which may be laid its track. Such road or walk shall also be so laid that teams may travel safely thereon and have convenient approach thereto. If hereafter the pavement on said streets, or any street occupied by said company, shall be extended, or any such street shall be ordered repaved, the said grantee shall contemporaneously with the paving or repaving of said streets, at its own expense, excavate, grade, and pave or repave, with the same material, or with material and in a manner satisfactory to the Common Council, all the portion of the street or streets which lies within their track or any switches or turn-outs placed by them, and two feet nine inches on either side thereof, such expenses to include the cost of paving, repaving, grading, excavating, removing of earth, and all expenses necessary for paving or repaving the street to the extent above specified, and at all times keep or cause to be kept in good order or repair such pavement within said track and distance on either side thereof.

SEC. 11. Said railway shall provide and keep in repair at all times such substantial and permanent approaches to its track at all street crossings on all streets not paved, that teams, vehicles and persons on foot will be enabled to cross the track conveniently at all times.

SEC. 12. Passengers conveyed upon said railway in said city shall be charged no more than five cents for any distance. The said grantee and its assign shall pay to the Treasurer of the city of Detroit annually $25 on each and every two-horse car; and $12 50 on each and every one-horse car owned by said grantee or assign, excepting only those cars used expressly for constructing, repairing and cleaning the track of said road, to be collected as a license fee for the use of the city, after said track shall be laid the length of one mile.

And the secretary of said grantees shall, on the first Monday of July of each and every year during the life of this ordinance, make and deliver to the Treasurer of the city of Detroit a statement of the gross earnings of said St. Aubin Avenue Railway, the same to be signed and sworn to by said Secretary, and the said grantees and their assigns shall pay to the Treasurer of the city of Detroit annually a special tax on the gross earnings of said street railway, as follows: The first five years from the acceptance of this ordinance to be free; the second five years one per cent., and for the balance of the life of this ordinance three per cent.

SEC. 13. It is hereby reserved to the Common Council of the city of Detroit the right to make amendments to this grant and ordinance, and such further rules, orders, or regulations as may from time to time be deemed by the Common Council necessary to protect the interest, safety, welfare or accommodation of the city and public in relation to said railway.

SEC. 14. This ordinance shall be void and of no effect unless the grantee shall, within one month from the date of the approval thereof, notify the Common Council in writing of its acceptance of and its agreement to the provisions of this ordinance and shall, within two months thereafter, commence the work of constructing and building said railway, and complete the same as soon as the public necessity requires it, and the Common Council shall be the judge of such necessity.

SEC. 15. The powers and privileges conferred by the provisions of this ordinance shall be limited to 30 years from and after its passage.

SEC. 16. Any wilful violation of, or failure to comply with the provisions of this ordinance by said St. Aubin Avenue Railway, or by any agent, conductor, driver, or any person in the employ of said grantee, or if the driver of any vehicle shall refuse to turn out as required by section 6, the same shall be punished by a fine not to exceed $100 and costs, and in the imposition of any such fine and costs the court may make a further sentence that the offender, except the grantee, be committed to the county jail or to the Detroit House of Correction, until the payment thereof, for any period of time not exceeding six months.

SEC. 17. The grantee shall, if it so elects, have the right to extend its track on said avenue to Detroit River, subject to the consent of and on such conditions as the Common Council shall adopt.

Approved July 11, 1873.

COMMUNICATIONS FROM THE MAYOR.

CITY OF DETROIT.
MAYOR'S OFFICE, July 19, 1873.

To the Honorable the Common Council:

Gentlemen—I return to your honorable body without my approval that part of your proceedings on the 15th inst., ordering some 2,000 feet of stone sidewalk to be put down around the triangular lot on which the new police station-house in the Western District is erected, for the reason:

1. That there is no money in the treasury for such a purpose, and all that can be taken from the General Road Fund toward it is merely the amount required for street intersections.

2. This is the property of the Police Commission, and the said commission was granted its own annual demand of appropriation by the City Board of Estimates for the current year, which the Common Council cannot augment at the expense of another fund.

Very respectfully,
H. MOFFAT,
Mayor.

Accepted, and on motion of Ald. O'Keefe the vote by which the resolution was passed was reconsidered as follows:

Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Flower, Garrison, Grellin, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Ruehle, Stange, Welch, and the President *pro tem.*—17.

Nays—None.

Ald. Hough moved that the communication be laid upon the table for one week.

Ald. Ruehle raised the point of order that under the rules the motion of Ald. Hough could not be entertained by the Council.

The chair overruled the point of order.

Ald. Ruehle appealed from the decision of the chair, and the question being, "Shall the decision of the chair stand as the decision of the Council?" the chair was sustained as follows:

Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg and Welch—12.

Nays—Ald. O'Keefe, Parsons, Ruehle, and Stange—4.

The matter was then laid upon the table for one week.

FROM THE BOARD OF SEWER COMMISSIONERS.

To the Honorable the Common Council:

Gentlemen—The Board of Sewer Commissioners, to whom was referred the resolution of Ald Dullea, requesting the Sewer Commissioners to extend the Fifth street sewer around on both sides of Elton Park, would report that according to the city charter, Act No. 426, sec. 3, "the Common Council cannot build or contract to build any sewer or sewers that the Board of Sewer Commissioners have not recommended in their report in the month of March The extension of Fifth street sewer around Elton Park was not embraced in our report; therefore no appropriation was made for the work. On the petition of Wm. Gargrave and others, asking for an examination of Brush street sewer, we would report that on examining the said sewer from Elizabeth & Gratiot s reet, we found that it was in good condition. The fault of cellars flooding arises from connections being made too low in the sewer, which allows the water at times of heavy rains to back into the cellars.

Respectfully submitted,
WALTER H. COOTS.
HARVEY KING,
A. E. BISSELL.

Accepted and placed on file.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—The Board of Sewer Commissioners to whom were referred the following petitions, viz:

Of D W. Brooks and others, petitioning for a lateral sewer in the alley on the south side of block 34, between John R. street and west line of Brush farm.

Of James H. Cole and others, petitioning for a lateral sewer in Harriet street, between the east line of L. Beaubien farm and Beaubien street.

Of Theo. L. Williams, petitioning for a lateral sewer on the east of lot No. 6, subdivision of outlot No. 179, in the alleys between Alfred, Division, Antoine and Beaubien streets.

Of J Dewer and others, petitioning for a lateral sewer in Woodbridge street between Adair street and McDougall avenue. Having examined the premises and finding that sewers are very much needed in the above described localities, would report in favor of the prayers of the petitioners.

Also the petition of Paul Gies and others, asking for a lateral sewer in the alley between Franklin and Wight streets Joseph Campau avenue and Chene street. On examining the premises we find that a sewer is very much needed, but that the alley is not yet opened, so that we cannot report in favor of the petitioner until your honorable body shall take some action to open said alley.

HARVEY KING,

FROM THE ENGINEER OF THE CITY HALL.

To the Honorable the Common Council:

Gentlemen—I would beg leave to report to your honorable body the condition of the heating apparatus under my charge at the present time; also the amount of coal consumed for the winter of 1872-3. We commenced burning coal September 20, 1872, and ceased May 17, 1873, making in all about eight months, which was about one month longer than the winter of 1871-2. We used, during the past winter, 846 tons of coal, a saving of 30 tons over the previous winter, notwithstanding the greater length and severity of the winter season. By this it will be seen that the improvements made during the summer of 1873 are a success.

I find everything in very good order, with the exception of the fire-places, which want relining with fire-brick.

Respectfully, etc.,
THOMAS HILL,
Engineer City Hall.

Accepted and referred to the Committee on Public Buildings.

FROM THE CITY CLERK.

That he presented the proceedings of the last session of the Council to the Mayor on the 16th inst. and the same were approved on the 18th inst., except as above noted.

Also, that the Mayor has approved an ordinance relative to carriages standing in public streets.

SEWERS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Sewers, to whom was referred the remonstrance of Joseph Kuhn and others, remonstrating against the proposed construction of a lateral sewer in the alley between Croghan, Macomb, Hastings and Rivard streets, having examined the above described locality and finding the box drain, built ten years ago, very much decayed and insufficient for the proper drainage of the premises, would therefore report adversely to the prayer of your petitioners.

Very respectfully,
F. RUEHLE,
C. M. WELCH.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your committee on Sewers, to whom was referred the remonstrance of Henry and Joseph H. Lesher and others, remonstrating against the building of a lateral sewer in the alley between Larned, Congress, Hastings and Rivard streets, would respectfully report that this is a case of long standing. Last year several parties living in said block being without proper drainage wanted a brick lateral sewer while others did not want it built for another year. The same feeling still exists. We find there is an old box drain in the alley leading into the main sewer which is very much decayed and in the center of the block is not deep enough to be of any practicable benefit. This block is valuable property, and many of its owners are desirous of making large improvements as well as having the alley paved; therefore we would report in favor of a brick lateral sewer in said alley.

Respectfully, etc.,
F. RUEHLE,
C. M. WELCH.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Sewers to whom were referred the remonstrances of Henry Glaser and Conrad Gies, remonstrating against the paying of assessments for the construction of lateral sewer in the alley between Croghan, Macomb, Hastings and Rivard streets, having examined the premises and finding that the south half of Lot No. 120, the property of Henry Glaser, is properly drained into Hastings street sewer, and that the property of Conrad Gies is well and properly drained into Rivard street sewer, would report in favor of your petitioners being relieved of one half of their assessments.

Respectfully submitted.
F. RUEHLE,
C. M. WELCH.

Accepted and adopted as follows:

Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough Lichtenberg, O'Keefe, Parsons, Preston, Ruehle, Welch, Woolley, and the President—18.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Sewers, to whom was referred the resolution of May 2d, directing the Board of Sewer Commissioners to advertise for proposals for the building of a brick lateral sewer in the alley between Fort, Lafayette, Riopelle and Orleans streets, have examined the premises and find that all the lots on Fort street are well drained into a private sewer, and those on Lafayette street are drained into a private drain

eading into Riopelle and Orleans street sewers, with the exception of three lots which can be drained free of charge into those sewers already built. Your Committee would, therefore, report adverse to building a brick lateral sewer at the present time.

Respectfully submitted,
F. RUEHLE,
C. M. WELCH.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Sewers to whom was referred the remonstrance of James Johnson and others remonstrating against the proposed construction of a lateral sewer in the alley between Woodbridge, Franklin and Dubois streets and St. Aubin avenue, on examining the above locality and finding that as a number of the lots are already well drained by a private sewer, and that the St. Aubin avenue sewer furnishes drainage for a number more, a lateral sewer in the alley is not necessary the present time, therefore we would report in favor of the remonstrance.

Respectfully submitted,
F. RUEHLE,
C. M. WELCH.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Sewers, to whom was referred the petitions of Mr. Herzberg and Rosina Bock, asking to be relieved from assessments for the construction of a lateral sewer in Beacon street, between Beaubien and Antoine streets, have examined the premises, and finding that the property of Mr. Herzberg is not properly drained, would therefore report adversely to the prayer of said petitioner; also, on examination, finding that lot No. 20, the property of Rosina Bock, was well drained by a private sewer into the Antoine street sewer, would report in favor of the prayer of said petitioner, and recommend that the Board of Sewer Commissioners cause the said sewer to be built to the west line of said lot No. 20, from Beaubien street.

Respectfully submitted,
F. RUEHLE,
C. M. WELCH.

Accepted and adopted as follows:

Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Preston, Ruehle, Welch, Woolley, and the President—18.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Sewers, to whom was referred the petition of Valentine Hilsendegen, asking to be relieved from assessment for the construction of a lateral sewer in the alley between Larned and Congress streets, McDougall and Joseph Campau avenues, have examined into the matter, and finding that the petitioner has been to a heavy expense to build a serviceable drain through Larned street to McDougall avenue, would report in favor of his paying only one-quarter of the assessment on lots Nos. 8, 9, 10, 11 and 12.

Respectfully submitted,
F. RUEHLE,
C. M. WELCH.

Accepted and adopted as follows:

TAXES.

To the Honorable the Common Council:

Gentlemen—Your committee to whom was referred the petition of Dr. Drake for abatement of tax, would respectfully submit the following resolution.

P. PARSONS.

Resolved, That the Controller be, and he is hereby directed to draw his warrant on the Contingent Fund for the cost of sale of lot 86, as asked for in the petition of E. H. Drake when said Drake pays the original taxes laid on said lot, and that the sale be canceled.

Accepted and adopted as follows:

Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Preston, Ruehle, Welch, Woolley, and the President—18.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Taxes, to whom was referred the petition of G. G. Jansen, have examined the same and can see no reason for abating the interest on taxes due and unpaid, and therefore report adverse to the prayer of the petitioner.

Respectfully submitted,
P. PARSONS,
JAS. DALY,
D. PRESTON.

Accepted and adopted.

STREET OPENINGS.

To the Honorable the Common Council:

Gentlemen—The Committee on Street Openings, to whom was referred the petition of Samuel Truedell, Esq., in the matter of opening Lafayette avenue, find upon examination that Mr. Truedell recorded in May, 186-, Howard and Lafayette streets, and lots as far north as the Michigan Central Railroad.

The distance as represented on his map is 282 feet from Fort to Lafayette street, whereas there is only 273 feet by extending Lafayette and Howard streets straight as they have been.

Mr. Truedell having sold, that portion of his property lying between Lafayette and Howard streets as 282 feet in length, and still owning that portion south of Lafayette street, the difference will have to be taken out of portion to have Lafayette street 80 feet wide and extended straight.

But your committee, taking into consideration the fact that Mr. Truedell will have to move back his fence and sidewalk, respectfully recommend that he be allowed $100, as compensation in opening Lafayette avenue.

Very respectfully submitted,
C. M. WELCH,
M. P. CHRISTIAN,
D. DULLEA.

Accepted and adopted as follows:

Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Preston, Ruehle, Welch, Woolley, and the President—18.

Nays—None.

STREETS AND ORDINANCES.

To the Honorable the Common Council:

Gentlemen—The undersigned, Committee on Streets and Ordinances, to whom was referred the petition of J. W. Kermott and others, relating to the widening of the pavement on Cass avenue by the Central Market, Cass Avenue and Third Street Railway, respectfully report that the granting the right to construct such a railway without requiring any conditions for the use of the pavement laid on the route of said railway, we think was taking from the citizens who were at the expense of such pavement valuable rights, and especially as such pavement and the roadway is narrow even for ordinary use, and the laying a track on said avenue

will render it very inconvenient, if not in fact materially impede the use of the street. If the avenue was not already paved this railway would be compelled to pave and grade its track and two feet four inches on either side, and there is no reason why the company should not make some compensation to the citizens for the money they have expended, and which the company have almost the entire use of.

We therefore recommend that the grant to said company be amended by requiring it as its track is laid on Cass avenue, to widen the roadway and grade and pave of the same material at least 2½ feet on each side of the present pavement, from Grand River avenue to Ledyard street, and that the City Attorney be directed to present an ordinance to that effect.

G. GRELLING,
GEO. W. HOUGH.
JAMES DALY,
C. M. WELCH.

Accepted and adopted.

SPECIAL.

The Special Committee appointed for the purpose of visiting Chicago, submitted a report of the result of their investigations in that city, and the same, upon motion of Ald Parsons was referred back to the committee with instructions to present a complete report to the Council upon the subject, and ordered not printed in the proceedings, by the following vote:

Yeas—Ald. Christian, Dullea, Flower, Hinchman, Hough, O'Keefe, Parsons, Preston, Welch, and the President—10.

Nays—Ald. Botsford, Broe, Daly, Garrison, Grelling, Lichtenberg, Ruehle, and Woolley—8.

SUSPENSION OF THE RULES.

On motion of Ald Parsons, the rules were suspended for the purpose of presenting the following preamble and resolution:

Whereas, This Council has heard with sincere regret of the death of the wife of our friend and associate, Alderman Shanahan, therefore,

COMMUNICATIONS FROM THE MAYOR.

CITY OF DETROIT,
MAYOR'S OFFICE, July 28, 1873.

To the Honorable the Common Council:

Gentlemen—I return to your honorable body, without my approval, all that part of your proceedings on the 25th inst., directing the Controller to contract with J. B. Walton & Company for the repaving of Jefferson avenue, with pine blocks, from Shelby to Beaubien street, from Beaubien street to the railroad bridge, and from the railroad bridge to Chene street, for the following reasons: That to pave the whole street with wood is contrary to the expressed wishes of the owners of property abutting thereon, excepting as their committee may entertain the idea that wood being all there is to be got they must acquiesce.

Jefferson avenue, as a public thoroughfare, is conceded by citizens and strangers to be one of the finest streets in North America, and as the city has already been enormously swindled by having a worthless covering applied to part of the paving of said avenue, it becomes our paramount duty to seriously reflect upon the ultimate consequences before proceeding to pave it a second time by a subterfuge.

The committee appointed at a meeting of citizens

Digitized by Google

interested proceeded to Buffalo and Cleveland to gain information about the matter of paving streets, and upon their return recommended to the Council a certain kind of curbstone and gutter made of Medina stone, and also recommended that seven feet on each side of the said street, including the gutter, be laid with the same material, all in accordance with the Buffalo specifications.

This was the will of the property owners, who have to pay the bill, all due deference to their wishes being fairly discussed but seemingly not acted upon by the Council, and the chairman of the said committee, after being subjected to many delays and contradictions during one-half of the season, now states that he was glad to make any compromise in order to see the street repaved sometime during his natural life

The present pavement on Jefferson avenue has been laid 20 years, has cost nothing for repairs, and is at the present time smoother than most of our wooden pavements which have been laid only from six to eight years. The property owners, however, have expressed their desire and willingness to renew the said paving in the most durable manner, with the exception of two driving ways to be made of wood, which they preferred as a luxury, and which can be renewed at any time without interfering in the least with the permanent curbs, gutters and side pavements, if the latter are constructed as aboved stated.

This is the will of the property-owners on Jefferson avenue, explicitly and authoritatively expressed through their committee, and we, as servants to the public, ought to see to it that their behests are obeyed in the manner and at the time demanded.

Very respectfully,

H. MOFFAT,

Mayor.

Accepted, and on motion of Ald. Woolley the vote by which the resolutions were adopted was reconsidered as follows:

Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Flower, Garrison, Greiling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Ruehle, Stange, Welch, Woolley, and the President—13.

Nays—None.

The question then being, "Shall the resolutions now pass, notwithstanding the objections of the Mayor?" so much as relates to the repaving of Jefferson avenue, from Shelby street to Beaubien street, prevailed by the following vote:

Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Garrison, Greiling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Stange, Welch, Woolley, and the President—16.

Nays—Flower and Ruehle—2.

The resolution for the repaving of Jefferson avenue from Beaubien street to the railroad bridge prevailed by the following vote:

Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Garrison, Greiling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Stange, Welch, Woolley, and the President—16.

Nays—Ald. Flower and Ruehle—2.

FROM THE BOARD OF SEWER COMMISSIONERS.

To the Honorable the Common Council:

Gentlemen—At the regular session of the Common Council, held on the 18th of June, the Board of Sewer Commissioners were directed to advertise for proposals for the building of a brick lateral sewer in the alley between Mullett, Clinton and Dequindre streets and St. Aubin avenue, in accordance with which direction this board advertised for and received proposals and let the contract to the lowest bidder. By a communication from the agent of the owner of outlot 23, south St. Aubin farm, we learn that the alley running east from Dequindre street has never been legally opened to St. Aubin avenue, and that permission to build the sewer through this private property will not be granted. Therefore we ask your honorable body that such action may be taken as you shall deem necessary to cause said alley to be opened before we order the contractor to commence on the building of the sewer.

Respectfully submitted,
WALTER H COOTS,
HARVEY KING,
A. E. BISSELL.

Accepted, and leave being granted, Ald. O'Keefe offered the following:

Resolved, That the City Attorney be, and he is hereby directed to report the proper resolution for opening an alley in the block bounded by Clinton and Mullett streets, St Aubin avenue and Dequindre street.

FROM THE BOARD OF FIRE COMMISSIONERS.

To the Honorable the Common Council:

Gentlemen—The Fire Commissioners, to whom was referred the remonstrance of John Esser and James H. Cole against the erection of a frame building or addition by Martin Maire, on Brush street, within the fire limits, have caused the same to be examined, and respectfully report the remonstrance to be a well grounded one, and that the said addition materially increases the fire risk. It is, therefore, recommended that the erection of the same be stopped.

In the matter of J. McGillicuddy et al., remonstrating against the removal of a frame building from Harriet street to Brush street, within the city limits, would also respectfully report that the same has been examined, which proves the remonstrance aforesaid to be warranted, as the building, stationed where contemplated, would enhance the fire risk in that locality. It is, therefore, recommended that the moving of said building be stopped.

By order of the Board.

Respectfully submitted,
FRED A. SEYMOUR,
Secretary.

Accepted and placed on file.

FROM THE CITY CLERK.

STREETS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Streets, to whom was referred the communication of W. Thilmany & Co., and the proposal of J. B. Walton & Co., in reference to treating and preserving wood for paving, have had the same under consideration, and beg leave to report that the process referred to is well recommended by S. P. Duffield, of this place, and by others who have examined it, and that there are large works in Cleveland for the purpose, and that most, if not all, the wood used for paving in that place is treated by this process; that we have no doubt that the wood will resist decay much longer than it otherwise would. But in view of the price asked ($12 per 1,000) which must largely increase the cost of paving, as it is nearly the price at which lumber can be purchased, the lateness of the season, and the length of time necessary for the erection of the necessary work, and no specification being prepared, we do not think it prudent or advisable to adopt the plan this season.

Respectfully submitted,
C. M. WELCH,
G. GRELLING.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

COMMUNICATIONS FROM THE MAYOR.

CITY OF DETROIT,
MAYOR'S OFFICE, August 1, 1873.

To the Honorable the Common Council:

Gentlemen—I return to your honorable body, without my approval, all that part of your proceedings on the 29th ult. directing the Controller to contract with John R. Newberry and associates for a lease of the market grounds on Michigan Grand avenue, for the reason that the price to be paid for the lease is not an equivalent in value, the property not being made taxable; hence the present bid for this lease is by all odds less beneficial than a former proposition before the Council to pay $10,000 per annum and taxes, the lessees to own the building. I am of the opinion that if our citizens generally had known the exact terms of this lease that higher offers would have been made, and if not, the city still had the resource left of building her own public market.

The said lease also permits the ground to be used for "a general public market" broad enough in its scope to turn it into a monopoly of any branch of trade whatever, as, for instance, it could, under this lease, be turned into a bazaar for the sale of all kinds of dry goods and fancy work, or a cattle market, or for wholesale warehouses, whereas the requirements of our citizens is a market for the sale of edibles for immediate consumption only.

What, by the proposed lease, does the city get for such an unprecedented privilege? $5,000 per annum and a wornout and dilapidated building at the end of 30 years, worth, at the expiration of that time, not more than one quarter or one-eighth part of the first cost; and the amount of the city taxes alone on such a commercial enterprise during 30 years would build a new market suitable to the then wants of the city of Detroit, no matter how its goodly proportions may have increased.

It has been urged before your honorable body that by refusing to make this lease the market will be removed or done away with altogether; but that matter can be safely trusted to the people, who will protect their own rights if given an opportunity to do so; whereas, if we grant this lease, we not only throw one of their cherished and dearest rights into the hands of a monopoly, but actually allow the taxpayers to be swindled to the amount of at least three hundred thousand dollars.

There are other minor objections to this lease which it is not necessary to mention in view of the glaring fact that we are about to lease, free of taxation for a term of thirty years, 22,000 square feet of ground in the very heart of the city, with all the privileges of occupying the streets surrounding and intersecting the same, for the paltry sum of five thousand dollars. Such unwarranted discrimination between citizens doing business in our midst, I trust for the credit of our fair city, that your honorable body will not entertain a moment longer.

Very respectfully,
H. MOFFAT.
Mayor.

Accepted, and on motion of Ald. Woolley, the vote by which the resolution was adopted was reconsidered as follows:

Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Ruehle, Shahahan, Stange, Woolley and the President—17.

Nays—None.

On motion of Ald. Parsons, the matter was laid upon the table until the next session of the Council.

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE CITY ATTORNEY.

To the Honorable the Common Council:

Gentlemen—I have the honor to submit the amendatory ordinances called for by resolutions adopted at your last session.

Very respectfully,
F. G. RUSSELL,
City Attorney.

Accepted, and on motion of Ald. Hough, the ordinances were read twice by their titles, as follows: "An ordinance extending the fire limits on Michigan avenue to Twenty-fourth street;" also, "an ordinance to amend section 7 of chapter 90 of the Revised Ordinances of 1871;" also, "an ordinance to amend section 4 of chapter 93 of the Revised Ordinances of 1871."

Laid on the table, and ordered printed by the following vote:

Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Garrison, Grelling, Hinchman, Hough, Langley, Lichtenberg, O'Keefe, Parsons, Ruehle, Shanahan, Stange, and the President *pro tem.*—17.

Nays—None.

FROM THE STREET COMMISSIONER, W. D.

To the Honorable the Common Council:

Gentlemen—In compliance with a resolution adopted by your honorable body on the 29th ult., directing me to report the numbers of the lots on the east side of Sixteenth street, between Michigan avenue and the Michigan Central Railroad track, in front of which new sidewalks are needed, I have the honor to state that Nos 12 and 13, between Dalzell street and the railroad track, and Nos 20, 21, 22 and 15, between Michigan avenue and Dalzell street, require new walks. I would also take the liberty to state that the walks in front of lots Nos. 5, 6, 12, 13, 14 and 16, between the last-named streets, require repairing.

Very respectfully,
HENRY KNOWLES,
Street Commissioner, Western District.

Accepted and the Commissioner directed to give the proper notice.

FROM THE CITY CLERK.

That he presented the proceedings of the last session of the Council to the Mayor on the 30th ult. and they were returned approved on the 1st inst., except as above noted.

Accepted and placed on file.

Gentlemen—The report of the jury in the matter of extending Bagg street to Grand River avenue has been filed and opened in court. From this report it appears that the city is assessed on Cass Park as its proportion of benefits on account of such extension the sum of $1,000. I find from inquiry at the Treasurer's Office, that there is not now, and will not this year be realized from the collection of taxes a sufficient sum in the Street Opening Fund to meet such an assessment, over and above obligations already contracted. In this connection I call your attention to section 18, chapter 8, of the charter, and await your further instructions.

Very respectfully,
F. G. RUSSELL,
City Attorney.

Accepted, and Ald. Woolley moved to refer the same to the Committee on Ways and Means and the City Counselor.

Ald. Hough moved to amend by laying the same upon the table.

Lost.

The motion of Ald. Woolley prevailed.

FROM THE CITY CLERK.

That he presented the proceedings of the last Council to the Mayor on the 2d inst., and they were approved on the same day.

Also, that the Mayor has approved an ordinance extending the fire limits on Fort street west to the city limits.

Accepted and placed on file.

Laid on the table and ordered printed, as follows:

FROM THE BOARD OF PARK COMMISSIONERS.

To the Honorable the Common Council:

Gentlemen—The Board of Park Commissioners appointed under the act of the Legislature of this State, approved April 15, 1871, in the discharge of the duties imposed upon them, made a selection for the site of the public park for the city of Detroit which selection, with the reasons therefor, was reported to your honorable body in November, 1871, and to which we beg leave to refer.

They also made conditional contracts for the purchase of a portion of the property thus selected. Such selection thus made and reported was never ratified according to the conditions and requirements of the act under which it was made, and the conditional contracts became of no force.

Under an act amending the act of 1871, approved March 14, 1873, the Board of Park Commissioners were fully authorized to select and acquire by pur-

chase and otherwise, lands needful for the purpose of a public park or boulevard, or both, not exceeding 500 acres in amount, and the original cost of which should not exceed $800,000; and they were required, when they had made such selection, to make such location known to your honorable body, and to lay before you a statement in writing of the cost of the lands acquired by purchase, and an estimate of the cost of the lands necessary to be acquired which the board had been unable to purchase; and this with a view and for the purpose that your honorable body should provide money therefor, not exceeding the sum of $800,000, by the issue and sale of the bonds of the city of Detroit, as provided in said amendatory act.

The board have now the honor to report to your honorable body that soon after the passage of the amendatory act, they met and carefully considered the question of the location of the public park, and by the unanimous vote of the board, they adhered to the selection heretofore made and reported, and they have accordingly located the site of a public park on Jefferson avenue, in the town of Hamtramck, three miles from the City Hall, and containing about 450 acres. The front on Jefferson avenue is about three-fifths of a mile.

The site selected lies principally on the north side of Jefferson avenue, and that portion is bounded as follows: On the west by Van Dyke avenue; on the north by Mack street; on the east by the Robert Beaubien farm, and on the south by Jefferson avenue, and contains about 430 acres.

The portion on the south side of Jefferson avenue is bounded on the west by land owned by John Owen, James Burns and others; on the north by Jefferson avenue; on the east by the Robert Beaubien farm, and on the south by the channel of the Detroit River. A plan of such selection is herewith submitted.

They immediately commenced making contracts for the purchase of the lands thus selected, as far as such contracts could be judiciously made.

The former conditional contracts were made upon most favorable terms, and at prices in many instances far below the market value of lands thus situated. These contracts were made nearly two years ago, and since that time the unparalleled growth and prosperity of our city, and the increasing taste for suburban residences have caused a very large advance in the prices of real estate generally, and especially of that of a suburban character, and we could not, of course, expect to renew all those contracts at the original prices. We have, however, succeeded beyond our expectations in making contracts for the purchase of portions of the lands thus selected. We have purchased 375 acres of the 450 selected, including all that lying between Jefferson avenue and the river, at the gross sum of $229,140 14-100, payable on the first day of January, 1874, with interest from the time of the several purchases. These purchases also include several buildings of very considerable value, which will be of great use as residences for employes.

From a somewhat intimate knowledge of the value of suburban property, we are entirely satisfied that the lands thus purchased for the city have been purchased at a much lower rate than they could have been purchased for any private purposes, and much below the present market value thereof. Indeed we have been offered by responsible parties an advance of $50,000 upon the purchases thus made, but, of course, no such proposition could be entertained: the land having been purchased for a public park.

There remains to be acquired otherwise than by purchase nearly 75 acres of land. As to some of the lands not thus purchased, we could get no proposition as to the purchase price therefor, and as to others none that we deemed it advisable to accept. We estimate that the acquiring of this land not thus purchased will cost nearly the sum of $70,000, including the cost of the proper proceedings. We apprehend that there can be but little diversity of intelligent disinterested opinion, as to the wisdom of the selection thus made.

We have now here in the vicinity of Detroit the rugged ledges, the rocky caverns, the ravines and the natural ponds, which distinguish Central Park in New York, or the commanding and beautiful elevations, that mark Prospect Park in Brooklyn, or the picturesque combination of rock girt precipices, sloping woodland, beautiful lawns, babbling streams and flashing cascades which characterize Fairmount Park of Philadelphia; but this location has a beauty and charm of its own, and that of its kind is not surpassed anywhere.

It rises gently from the river's edge to a sufficient height to give a good outlook, and secure the most perfect drainage. The surface is gently undulating, while the soil is admirably adapted for the purpose of park improvements.

A portion of the land is already in a good state of cultivation, while other portions are covered with a fine second growth of trees, many of which are beautiful in form and rich in coloring, and will be of inestimable value in the future of the park.

On that portion lying between Jefferson avenue and the river, there are indentations and low places, which add greatly to the facilities for improvement. At a comparatively small expense lakes and ponds for skating and boating can be constructed. So, without any large expenditure of money, it will be very easy to provide ample drives, graveled walks, shady avenues, delightful groves, beautiful fountains and pleasant lakes; and the whole made still more attractive by such forms of vegetable and animal life as are appropriate to such a place.

In addition to all this, there is one peculiar charm of this locality that cannot be overlooked: namely, the Detroit River and the outlook upon Lake St. Clair.

From the time that Father Hennepin, nearly two centuries since, declared that the scenery on the banks of this "charming strait" presented "one of the finest prospects in the world," and from the period when a little later Father Charlevoix declared this to be "the finest part of all Canada," and "equal to the most romantic wishes," the scenery on the banks of the Detroit River has been admired by all travelers, and its beauty has never ceased to charm the eye and gratify the taste.

There is perhaps no point upon the river presenting a view at once so broad, so varied, so instinct with life and full of beauty and interest as that from the grounds selected for this park. In front we have the river channel, Belle Isle with its forests and opening vistas, with the Canadian shore in full view in the distance. On the northeast Lake St. Clair, with its expanse of water, its jutting points and green islands present a view of extraordinary yet quiet beauty, while the great commerce of the Northwest passing in full view by steamer and sail, gives a life to the scene that did not characterize it when it first met the view of the early explorers. The river and the lake are invaluable too, because from their surface come invigorating breezes, and because they furnish means of access from all points, at once inexpensive, healthy and delightful.

The access to the park from all parts of the city by means of broad thorough ares already in existence, or that will soon be so, and by interlacing street railways, as well as by the river will be at once easy and cheap. No location which could be obtained can combine so many advantages as this, and if not secured now, much of it will soon be sold and improved for other purposes, and could only be obtained at a price so great as to place it beyond our reach. Nor is there any other place upon the river appropriate to the purpose which can be secured.

Of the importance of a large and beautiful public park to our city, there can be no question. If Detroit would maintain its pre-eminence among all the cities of the West as a place of healthful and delightful residence, it must not fall behind its sister cities in the matter of a public park. Its advantages as a commercial and manufacturing center are already fully recognized, and everything that adds to its attractions as a home, draws also to it genius, taste, capital, labor and enterprise, and indisputably adds very largely to its business and wealth.

A careful examination of the statistics in relation to the effect of parks upon the increase of business and the value of property, demonstrates that within reasonable limits they are thoroughly an eco-

nomic measure, the creators of wealth, and that they add far more to the wealth of a city which constructs them, than their cost. The original cost of the park selected will, so far as we have been able to ascertain, be much less than the original cost of any park of the kind which has recently been located.

While we may look forward with sanguine anticipations to its being made one of the most beautiful and attractive parks in the land, the large expenditure necessary to its elaborate embellishment and perfection should be deferred until our increase in population and wealth fully justifies it. In the meantime it can be made with a moderate expenditure from year to year, available and attractive for public use, as a delightful resort for purposes of recreation, invigoration and amusement.

But it is not merely or principally as an economical measure, in the narrow sense of that term, that a park becomes of almost vital necessity to our city. There is, on the part of the inhabitants of a great city, and especially upon those living in the compact parts of the city, both an imperative need of, and an intense longing for an occasional change of scene. The sun and air of the open country, the fresh breezes untainted by city odors, the green fields, woody landscapes, water views and rural retreats are not only a joy and a delight, but are almost a necessity, if vigor and health and cheerfulness are to be preserved. Such changes are essential to the well-being of both mind and body, and are especially so for children. They very largely reduce the bills of mortality. The wealthy few can and do command these joys and benefits by leaving home, and hence, in part, the annual migration from the city to the country, to the mountains, the sea coast and the watering places. It has been estimated, and we think correctly, that the expense of this migration from the city for the present year far exceeds the whole cost of this park.

But to the large mass of our population, immersed in business, engaged in toil, or confined by poverty, such a migration is utterly impossible. A large park in the immediate vicinity can alone adequately furnish that which is needed. It gives the change so requisite, and furnishes ample space for athletic recreation in the open sunlight and fresh air, and induces to the needed exercise. It gives a place of quiet rest and recreation to the overworked and to the invalid under favoring circumstances, amid pleasant scenes, beneath shady groves, in the midst of flowery lawns, and fanned by invigorating breezes. It furnishes attractive, healthful and ample play grounds for the children of the city, free from vicious or degrading associations; thus at once promoting vigorous health, pure morals and genuine childish joy and happiness, as well as cultivating a taste for the true and beautiful.

Parks are said to be the gardens of the people, but they are much more. The felt need of such places for recreation, for relief from the confinement and toils of the city, is shown by the crowds, which especially on holidays and Sundays, rush to all suburban retreats, some of which are uninviting and unwholesome: some expensive and some degrading and promotive of intemperance and vice. It is shown also by the crowds that fill the boats upon our beautiful river, and by the multitude of excursionists hunting, and sometimes in vain, for places where picnics may be held. A public park would meet these needs of the great mass of our people, would promote health and enjoyment, would elevate and purify their taste and be in every way a power for good. The need of a park in our city is also fully shown by the entire unanimity of feeling in its favor when the subject was first fully brought before our citizens. There being conflicting interests, the location of a park naturally created some difference of opinion, but this difference, together with that which has arisen as to the manner of accomplishing it, is in its very nature temporary and will not stand in the way of making the park now located, what it should be, the pride and ornament of our city and a blessing to our whole people.

That parks are specially the home of the people is shown by indisputable facts gathered from most carefully prepared statistics.

Without going at length into this question, we take the liberty of stating a few of these statistics in relation to the Central Park in New York, gathered from the report of 1873.

During the year 1871 over 10,600,000 of people visited Central Park. Of these 40 per cent were women and girls, and during the summer time, when the schools were not in session, 40 per cent of all the visitors were children. During what are called "Concert Days," when especial attractions exist, the foot visitors alone averaged more than 30,000 per day, far exceeding the number of visitors by carriages. Of the nearly 8,000,000 that visited the Park on Sunday, the proportion of foot visitors varied from 60 to 80 per cent.

Prospect Park, Brooklyn, was visited in 1870 by 868,956 pedestrians.

The statistics of other parks show similar results, and demonstrate that these improvements are not only available to, but are availed of, by the mass of the people who do not keep and cannot hire carriages, and especially by women and children.

In Fairmount Park there were over 3,000 picnics in 1871.

While, therefore, a large and beautiful park is a source of great pleasure and recreation to all the inhabitants of a city, and tends to attract to it people of all classes, yet it is more essential to the enjoyment of the people in moderate circumstances than it is to the wealthy. The furnishing of such a park is a contribution that properly may well pay to toil for the mutual advantage of both.

The board have felt no doubt but that it was their clear duty to exercise the power conferred on them by law to locate the park, and, as far as possible, purchase the lands therefor in the name and upon the pledged faith of the city. They have, however, been careful to exercise their power with fidelity, with an eye single to the public welfare and with the utmost economy.

Their great anxiety has been to secure to the city what they believe to be an invaluable site for a park before it had become so devoted to other uses or so advanced in price as to be beyond the reach of the public.

They do not suppose that any large expenditure in the improvement of the grounds will be immediately necessary or desirable. It can be made available for public use and resort at a moderate expense. A great and beautiful park is measurably a growth, and this can be safely left to grow with the growth of our beloved city, of which we trust it will become the great beauty and pride. The public sentiment and the co-operation of the Common Council will always furnish the board with a safeguard to the needs and consequently to a just measure of future expenditures.

To pay for the land which has thus been acquired, as well as that which remains to be acquired, the law provides that bonds shall be issued by the Common Council.

The undersigned therefore now submit the matter to your honorable body and respectfully request that you will authorize the issue of bonds to an amount not exceeding $900,000, as provided by law. We hope that the whole cost will fall somewhat below that sum. The actual cost will be duly reported to the Council, and no bonds will be used beyond that limit.

R. P. Toms, Esq., one of the members of the board, is at present abroad, and therefore cannot sign this report, but we are authorized to say that he fully concurs in its conclusion.

To the Honorable the Common Council:

Gentlemen—The Superior Court of Detroit has granted an injunction prohibiting the execution of a lease of the Central Market grounds as contemplated in the recent action of your honorable body.

The papers were served upon the Controller and by him delivered to me this day.

Very respectfully,
F. G. RUSSELL,
City Attorney.

Accepted and placed on file.

On motion of Ald Parsons, the previous action was subsequently reconsidered, and the communication was referred to the City Counselor with instructions to take the necessary measures to confirm the contract above referred to.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—I herewith submit an ordinance dividing the Eighth Ward into two election districts, and an ordinance extending the fire limits on the north side of Woodbridge street, as required by resolutions adopted at your last session.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—In relation to the report of the Superintendent of Police regarding obstructions in Lafayette avenue as opened by jury last year, I submit the following: All the parties from whom land was taken and to whom damages were awarded have received their money from the city, excepting Randolph, Smith & Co. and Mr. Hubbard, who could not be found. In the plat of the City Surveyor furnished me for the purpose of opening said avenue, the avenue was shown to be open 80 feet in width opposite Samuel Trudell's lots, and consequently the jury did not find it necessary to take any land from him. Mr. Trudell insists that his actual front line is several feet south of the line indicated in the said plat of the Surveyor. If Mr. T. is correct, and his fence is not in the avenue, the city cannot compel him to remove it. Where the actual line of the avenue is at this point, is a fact, I take it, to be determined by the City Surveyor.

In the cases where obstructions exist beyond question I see no reason why the Street Commissioner may not remove them upon the failure so to do of the owners of the land opposite which such obstructions exist.

Where a fence or building becomes an obstruction in a street, not by any act of the owner, but

through proceedings under the law on the part of the city in opening, widening or extending streets, I doubt whether the city has the power to compel the owner to move such fence or building out of the street, unless such owner has clearly agreed to do so.

Very respectfully,
F. G. RUSSELL,
City Attorney.

Accepted and placed on file.

Ald. Daly moved that the rules be suspended for the purpose of reconsidering the vote by which the resolution for the paving of Twelfth street was adopted.

Lost as follows:

Yeas—Ald. Botsford, Daly, Flower, Hinchman, Lichtenberg, Parsons, and the President *pro tem.*—7

Nays—Ald. Broeg, Christian, Dullea, Grelling, Hough, O'Keefe, Ruehle, Stange, and Welch—9.

The Council then resumed the regular order of business.

FROM THE CITY COUNSELOR.

To the Honorable the Common Council:

Gentlemen—The undersigned, to whom was referred the report made on the 13th inst. by the Committee on the House of Correction, respectfully report that it is his opinion that the improvements and repairs required for the House of Correction can be paid for from the proceeds of bonds to be issued under the several statutes authorizing such bonds for the purposes of the Public Building Fund.

Respectfully submitted,

To the Honorable the Common Council:

Gentlemen—The undersigned Committee on Streets, to whom was referred the petition of property owners for the paving of Woodward avenue, from Charlotte avenue to Brady street, have considered the matter, and recommend that the prayer of the petitioner be granted, and submit the annexed resolution.

Very respectfully,
C. M. WELCH,
G. GRELLING.

Resolved, That the west 15½ feet of Woodward avenue adjoining the railway track be, and the same is hereby ordered to be graded and paved from the north line of Charlotte avenue to the south line of Brady street, and that said street within said limits be paved with wood, 15½ feet in width, according to specifications adopted by the Common Council, and it is hereby declared that this action is taken under that clause of the charter authorizing the Council to appropriate $300,000 annually for paving without the petition of property owners.

Resolved, That for the purpose of assessment for defraying and paying the cost of grading, paving and setting curb on Woodward avenue, from the north line of Charlotte avenue to the south line of Brady street, the lots and parcels of real estate situated on said Woodward avenue, embraced within said limits and fronting the portion of said street ordered to be improved by said grading and paving, shall be, and the same is hereby constituted and declared to be one local assessment district.

Resolved, That the City Surveyor be, and is hereby ordered and directed to estimate, and determine, and report such determination to the City Controller, showing:

1. The quantity of all grading, paving and other work on said Woodward avenue within the limits ordered to be graded and paved, excepting those portions of the intersection of cross-streets and alleys.

2. The quantity of all grading and paving of each portion of said Woodward avenue, included and embraced within the lines of intersection of the

cross-streets and alleys with said Woodward avenue.

3. The quantity of all crosswalks at each intersection of said Woodward avenue, with the cross-streets and alleys.

Resolved, That payment for the construction of said pavement and assessment to secure the same shall be according to the provisions of the amendment to the city charter, approved April 17, 1871, permitting the issue of bonds to an amount not exceeding three-quarters of the cost of paving said street as estimated and assessed.

Resolved, That whenever the Controller shall receive the report of the City Surveyor showing the quantity of the grading, paving and crosswalks, and other work required on said Woodward avenue, he shall, and is hereby ordered and directed to advertise for 15 days for proposals for grading, paving and crosswalks on said street, in accordance with the provisions of the charter and ordinances of the city of Detroit.

Accepted, objected to and laid over under the rules.

SEWERS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Sewers, to whom was referred the petition of Richard H. Fyfe and one other, asking to be relieved from the assessments on lots 73, 74, 75 and 76, for the construction of a lateral sewer in the alley between Warren, Hancock, Woodward and Cass avenues, have had the matter under their consideration, and find that we reported to your honorable body on May 16 in favor of their being relieved of one fourth of the assessments on lots 74, 75 and 76, which report was adopted. Therefore we would report adversely to any further consideration of the prayers of your petitioners for relief from assessments on those lots and on lot 73, the assessment rolls of which have been confirmed.

Respectfully submitted,
F. RUEHLE,
C. M. WELCH.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Sewers, to whom was referred the petition of Mrs. Isabella G. D. Stewart, President of the Home of the Friendless, and 21 other ladies, asking to be relieved of the assessment on lots 81 to 88 inclusive, for the construction of a sewer in the alley between Cass, Woodward, Warren, and Hancock avenues, have had the matter under consideration and feel that it is not in our power to relieve them. On examining the city charter we find that the Common Council has no power to grant relief from special assessments for the construction of lateral sewers except when the lots are sufficiently drained. This is not the case with this property. They very much need, and are now using this sewer, and to relieve them from paying their share of the cost would be doing the other parties injustice, by greatly increasing their share of the cost of constructing said sewer, as there, is no other way provided but by assessment on the lots adjoining said alley. Your committee must therefore report adversely to the prayer of your petitioners.

Respectfully submitted,
F. RUEHLE,
C. M. WELCH.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Sewers, to whom were referred the petition of James E. Kimball asking to be relieved of the assessments on lot No. 1 and the south 32½ feet of lot No. 2; and also of A. B. Sears for relief from assessment on the north part of lot No. 2, for the construction of a lateral sewer in the alley between Parsons and Campbell streets, Woodward and Cass avenues, would report in favor of your petitioners being relieved of one-half of the assessment on lot No. 2.

Respectfully submitted,
F. RUEHLE,
C. M. WELCH.

Accepted and adopted as follows:

Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Flower, Grelling, Hinchman, Hough, O'Keefe, Parsons, Ruehle, Stange, Welch, and the President *pro tem.*—16.

To the Honorable the Common Council:

Gentlemen—Your Committee on Sewers, to whom was referred the petition of Mary Ann Damm, asking to be relieved from the assessment on lots 113 and 114 for the construction of a lateral sewer in the alley between Croghan, Macomb, Hastings and Rivard streets, have examined the premises, and finding that lot No. 113 is already partially drained by a crock drain put in at her own expense, would report in favor of your petitioner being relieved of one quarter of the assessment on said lot No. 113.

Respectfully submitted,
F. RUEHLE,
C. M. WELCH.

Accepted and adopted as follows:

Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Flower, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Ruehle, Stange, Welch, and the President *pro tem.*—16.

To the Honorable the Common Council:

Gentlemen—Your Committee on Sewers, to whom was referred the remonstrance of George P. Teagan and others, remonstrating against the construction of the lateral sewer in the alleys between Cedar, Fulton, Fourth and Third streets, have examined the premises and find that they are very much in need of better drainage, and that for the purpose of providing an outlet for these lateral sewers the public sewer in Fourth street was, last year, extended to its present terminus. We would, therefore, report adversely to the remonstrance.

Respectfully, etc.,
F. RUEHLE,
C. M. WELCH.

Accepted and adopted.

To the Honorable the Common Council:

Respectfully submitted.

F. RUEHLE,
C. M. WELCH.

To the Honorable the Common Council:

Gentlemen—Your Committee on Sewers, to whom was referred the petition of Israel J. Benteau, asking that the receiving basin recently removed from the southwest corner of Fort and Hastings streets may be replaced, have examined the above described locality, and find that according to the established grade of the streets, all surface drainage must run from Hastings to Antoine street, and from Fort to Congress street, making a receiving basin on said corner unnecessary. We therefore report adversely to the prayer of your petitioner, and beg leave to offer the following resolution.

Respectfully submitted,
F. RUEHLE,
C. M. WELCH.

Resolved, That the Street Commissioner of the Eastern District be, and he is hereby directed to cause the ditch on the west side of Hastings street, between Fort and Congress streets, to be opened to carry off the water from the above named corner to Congress street.

FROM THE COUNSELOR.

To the Honorable the Common Council:

Gentlemen—The undersigned, to whom was referred the communication of Mr. H. M. Stow, claiming that the laying of what is called the Chicago free pavement is an infringement of his patent, respectfully reports that I have examined the patent, and it is my opinion that any patent purporting to cover such pavement is invalid, and that this pavement is not the subject of patent.

Very respectfully submitted,
D. C. HOLBROOK,
City Counselor.

Accepted and placed on file.

FROM THE ASSESSOR.

To the Honorable the Common Council:

Gentlemen—I herewith transmit to your honorable body assessment roll No. 144 for grading and paving Pitcher street, from Cass avenue to Third street.

The usual notice required by law has been given to the parties in interest, as will appear by the annexed notice and affidavit of publication. No person has appeared to object to said roll, or to ask any correction thereof. I have therefore signed the same, and now report it to you.

Very respectfully,
H. H. LeROY,
City Assessor.

Accepted, and leave being granted, Ald. Welch offered the following:

Resolved, That assessment roll No. 144, for paving and grading Pitcher street, from Cass avenue to Third street, is hereby approved and confirmed, that the description of premises and the names of persons contained therein are received as correct, and that the sums which the said assessment roll states to be the correct ones which each individual or set of individuals should be assessed at and pay be the assessment and be collected from the several persons liable to pay the same according to law.

FROM THE BOARD OF SEWER COMMISSIONERS.

To the Honorable the Common Council:

Gentlemen—The Board of Sewer Commissioners, to whom was referred the resolution of Ald. Lich-

tenoerg, adopted by your honorable body August 5, in reference to a proposed receiving basin on the southwest corner of Fort and Hastings streets, have examined the above described locality, and find that according to the estab lished grade of the streets all surface drainings must run from Hastings to Antoine street, and from Fort to Congress streets, making a receiving basin on said corner unnecessary. We therefore report adversely to the tenor of the resolution.

Respectfully submitted,
WALTER H. COOTS,
HARVEY KING,
A. E. BISSELL.

Accepted and placed on file.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—The Board of Sewer Commissioners, to whom was referred the petition of C. E. Leede and others, asking that the McDougall avenue public sewer might be extended north of its present terminus at Lafayette street, have had this matter under their consideration. The proposals received May 19 for this sewer were considered too high by the board and were therefore rejected. Since then, the board has seen no time when they thought an advertisement for proposals would be answered by enough contractors to cause any competition, as the contractors have had an unusual amount of work this year. We believe that a contract can be made next year at a much lower figure than could be obtained at this time under these circumstances. In answer to the complaint that the Elmwood avenue pavement is being damaged by water soaking through and under it, we would say that thorough drainage for this avenue will be secured by the sewers in Congress and Lafayette streets which will be soon completed.

As the necessity for the extension of this sewer is not yet very great, we must report adversely to the prayer of your petitioners.

Respectfully submitted,
WALTER H. COOTS,
HARVEY KING.
A. E. BISSELL,

Accepted and placed on file.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—The Board of Sewer Commissioners to whom was referred the petition of E. Chope and others asking that the construction of the lateral sewer in Woodbridge street, between McDougall avenue and Adair street might be postponed for one year, did, on the 22d of July, after a careful examination of the premises, recommend to your honorable body the construction of this sewer. The occupants of lots on Frank.in street are having a sewer built in their alley and would not like to be annoyed with the drainage from the lots on Woodbridge street as they would be should this sewer be postponed. Proposals for this work have been advertised for and received and as we do not see any good reason for changing our former decision we must therefore report adversely to the prayer of your petitioner.

Respectfully submitted,
WALTER H. COOTS,
HARVEY KING,
A. E BISSELL.

Accepted and placed on file.

FROM THE CITY SURVEYOR.

Resolved, That the City Surveyor be, and is hereby ordered and directed to estimate, and determine, and report such determination to the City Controller, showing:

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Streets, to whom was referred the communication of H. S. Wilson, August 1, in reference to the Alexander Miller Improved Wood Pavement, treated by the Ceely & Pelten process of carbolizing wood, respectfully report that they have examined the same as well as circumstances would permit. They think the form of pavement is well calculated for durability, and the carbolizing process is well recommended by some of the most scientific men of the country, and is largely used by the United States Government, it being the same process that was used in the preservation of wood used upon the St. Clair Flats Canal

We also understand that large quantities of this pavement is being put down in the cities of Pittsburg, Brooklyn, Washington and other cities, and that works are erected for the treating process in those cities, where the same may be seen in operation.

They would therefore ask the adoption of the following resolution.

C. M. WELCH,
G. GRELLING,
D. SHANAHAN.

Resolved, That a special committee of three be appointed to inquire further into the merits of the Alexander Miller Improved Wood Pavement, and to personally inspect the manner of laying the same, and the manner of treating the wood in other cities, without expense to the city.

Accepted, and the chair appointed as such special committee, Ald. Welch, Botsford and Hough.

Ald. Welch was excused from further attendance.

J. DALY.

REPORTS OF COMMITTEES.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—The undersigned, to whom was referred the petition of H. B. Brubaker and others against the paving of Eighteenth street this year, would respectfully report that the fire department have expended a large amount of money in the purchase of an engine and erection of an engine-house for the protection of property in that part of the city. The engine-house is located on Eighteenth street, near Howard street. If Eighteenth street is not paved or planked the engine will be useless a great part of the year (on account of recent excavations). The citizens are willing to have the street planked, but object to its being paved as they do not believe a good job can be made of it this year.

COMMUNICATION FROM THE MAYOR.

CITY OF DETROIT,
MAYOR'S OFFICE, August 22, 1873.

To the Honorable the Common Council:

Gentlemen—I return to your honorable body without my approval that part of your proceedings on the 19th inst., ordering a contract to be made for paving Clifford street from Washington avenue to Sproat street, for the reason that the kind of pavement ordered seems to be different from that petitioned for by a large majority of the property owners on the said street; and for the further reason that, as the General Road Fund is nearly exhausted, there may be no money in the treasury to pay for the intersections of streets and alleys.

Very respectfully,
H. MOFFAT,
Mayor.

Accepted, and on motion of Ald. Woolley the vote by which the resolution was passed was reconsidered as follows:

Yeas—Ald. Botsford, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Ruehle, Shanahan, Stange, Welch, Woolley, and the President—17.

Nays—None.

The question then being upon the passage of the resolution, notwithstanding the objections of the Mayor, the same did not prevail, two-thirds of all the Aldermen elect not voting therefor, as follows:

Yeas—Ald. Botsford, Christian, Dullea, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Stange, Welch, Woolley, and the President—13.

Nays—Ald. Daly, Flower, Ruehle, and Shanahan—4.

City Attorney.

Laid on the table, and ordered printed as follows:

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—The jury impaneled in the matter of opening an alley in the Seventh Ward, in the block bounded by Sherman, Catharine, Russell and Rivard streets, after an inspection of the premises, have reported against the necessity of making the improvement. The reason assigned is that the opening called for by the Surveyor's description involved the taking of a portion of the Arbeiter Hall, so-called, and the consequent payment of a larger sum of money by the people in said block than their necessities require. The jury recommended the opening or widening of the alley in said block, provided it could be done (as it may readily and with small expense be) without interfering with said hall.

Very respectfully,
F. G. RUSSELL,
City Attorney.

Accepted and placed on file.

CLAIMS AND ACCOUNTS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Claims and Accounts, to whom was referred the Controller's list of approved accounts, have examined the same and find them correct, and would recommend their payment, "except voucher No 58, for which we find a resolution adopted June 30, 1873, by this Council," instructing the Sewer Commissioners to retain $73 05 from the contractor of the Ninth avenue sewer, and place it to the credit of the General Road Fund. We would, therefore, recommend that the Controller draw his warrant for that amount ($73 05) on voucher No. 58, and place the same to the credit of the General Road Fund, as the Sewer Commissioners have failed to do so, and pay the balance of the said voucher.

STREET OPENINGS.

To the Honorable the Common Council:

Gentlemen—The undersigned, to whom was referred the petition of Frederick London and others, remonstrating against the opening of Wilkins street as proposed by resolution adopted by your honorable body, report that they know of no reason why the Detroit and Milwaukee Railroad Company should not pay an assessment for benefits, if the jury determine that the proposed opening is an improvement to the property of said company. In the opinion of the committee the damages on account of such opening will be light, and payment of them by the owners of property in the assessment district established will not be found to be burdensome.

We therefore respectfully report against the prayer of the petitioners.

FROM THE STREET COMMISSIONER, W. D.

To the Honorable the Common Council:

Gentlemen—I beg permission to call the attention of your honorable body to the fact, that there is a pool of stagnant water on Thirteenth street, at the intersection of the Michigan Central Railway track, caused by one of the property owners filling his lot with earth on the west side of the street, and which will cause the water to overflow the lots north of the one above referred to, consequently driving the families out of their houses. Some immediate action should be taken in regard to this matter.

All of which is respectfully submitted.

H. KNOWLERS,
Street Commission, W. D.

Accepted, and referred to the Committee on Health and City Attorney.

FROM THE CLERK OF THE RECORDER'S COURT.

To the Honorable the Common Council:

Gentlemen—I respectfully report to your honorable body, that the jury heretofore impanelled in the matter of opening Fifth street, from Marcy street to Noble street, have filed their report in said matter, and that the same report was confirmed by the Recorder's Court of the city of Detroit, on Friday, the 23d day of August, A. D. 1878, and that I have on this day filed in the office of the City Clerk, a certified copy of said report, and of the order of said court confirming the same.

FROM THE BOARD OF WATER COMMISSIONERS.

To the Honorable the Common Council:

Gentlemen—I notice in the report of the proceedings of your honorable body on the 26th inst., that the following resolution was unanimously adopted:

Resolved, That the Grade Commissioners and the City Surveyor be, and are hereby requested to lower the grade on Twelfth street, near the intersection of Porter street, so as to meet the views of property holders as much as possible, without detriment to the public good.

A six-inch water main has just been laid in Twelfth street in accordance with the grade as established by the Grade Commissioners and approved by the Common Council. If the grade is lowered, as the above resolution requests, it will be necessary to take up and lower the said pipe, the expense of which will be considerable, which the Water Board ought not to be obliged to pay. I would therefore respectfully ask that your honorable body would reconsider your action in the matter.

I remain, yours respectfully,

D. FARRAND HENRY,
Chief Engineer.

Accepted and placed on file.

SUSPENSION OF THE RULES.

On motion of Ald. Hinchman the rules were suspended for the purpose of reconsidering the vote by which the resolution was adopted at the last session, relative to the changing of the grade on Twelfth street, near Porter street.

REPORTS OF COMMITTEES.

WAYS AND MEANS.

To the Honorable the Common Council:

Gentlemen—Your Committee of Ways and Means, to whom were referred the reports of the various city officers for the week ending August 23, report that they have carefully examined the same, and believing them correct, recommend their approval.

Respectfully submitted.

G. F. HINCHMAN,
C. M. GARRISON.

Accepted and adopted.

JUDICIARY.

To the Honorable the Common Council:

Gentlemen—Your Committee on Judiciary, to whom was referred the petition of Mrs. Frank Stickmeyer, asking remuneration for damages on account of opening an alley in the Sixth Ward, respectfully submit the following report:

It appears that several years since, and before an alley was platted or opened in the block where the petitioner resides, she, as well as others, leased for a term of years, a lot of Chas. Moran; that subsequently the said Moran platted an alley in said block across the lot of the petitioner, and that the plat was duly put upon record. Recently an alley has been opened by a jury to the alley platted by said Moran, and without taking any land or the use thereof from said petitioner. The lease of the petitioner has not yet expired, and your committee are of the opinion that the platting of said alley did not take away any of the rights of the petitioner; that she still has the right to the use of all the ground leased to her and cannot be deprived of it except by the regular process of opening an alley or by some arrangement with the lessor. The city can not give the petitioner redress under the constitution, and the committee can simply recommend that in case the said lessor refuses to make an amicable arrangement with the said petitioner that the alley be opened by a jury in the usual way, the expense thereof to be paid by the parties benefited.

G. H. HINCHMAN,
F. RUEHLE.

Accepted and adopted.

CLAIMS AND ACCOUNTS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Claims and Accounts, to whom was referred the Controller's list of approved accounts, have examined the same and find them correct, and would recommend their payment, except voucher No. 375, and that your committee would recommend that the Controller pay the regular pay-roll as specified in the said voucher, and the balance of said voucher ($296 50-100), being a large amount charged the city for over-time, your committee cannot recommend its payment.

JAMES FLOWER,
F. RUEHLE.

Accepted and adopted as follows:

Yeas—Ald. Broeg, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Lichtenberg, O'Keefe, Rueble, Shanahan, Stange, Woolley, and the President—15.

To the Honorable the Common Council:

Gentlemen—Your Committee on Taxes, to to whom was referred the petition of B. Vernor,

asking to be refunded the sum of $47 63-100, which he claims was erroneously assessed to and paid by him, on August 12, 1873, on 50 shares of Second National Bank stock, would respectfully report, upon investigation, we find the taxes had been paid on said stock by the bank, unknown by Mr. Vernor, and as it was paid by him the second time, it is therefore but just that the money should be refunded, and for that purpose we recommend the passage of the following resolution.

Respectfully submitted,

JAMES DALY.

To the Honorable the Common Council:

Gentlemen—I respectfully submit the following communication received by me this day.

E. I. GARFIELD,
Controller.

[COPY.]

DETROIT, September 2, 1873.

To E. I. Garfield, Esq., Controller:

SIR—By the terms of the contract for repairing Lafayette avenue, the surplus material will belong to the contractors. There will be of the blocks and strips what will amount in bulk to 350 to 400 cords of wood. If this can be made available by the city, for the benefit of the poor, they are welcome to it, by removing the same in time for us to commence work of repaving, which will be in about one week from this time.

Yours truly,
THE DETROIT I. AND P. COMPANY.

In connection with the above communication, (leave being granted) Ald. Hinchman presented the following resolution:

Resolved, That the Controller be, and he is hereby instructed to have the rejected blocks and strips on Lafayette avenue, hauled to the Eastern or Western wood yards, the expense of hauling the same to be paid by warrant on the City Treasurer, and charged to the City Poor fund.

Objected to and laid over under the rules.

Gentlemen—The proceedings for the opening of Twenty-first street, from Fort street to Woodbridge street, have been quashed by the Recorder's Court for defectiveness and uncertainty in description of the assessment district.

Very respectfully,
F. G. RUSSELL,
City Attorney.

Accepted, and the Attorney directed to take the necessary steps for the opening of the above street.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—I herewith transmit an ordinance extending the fire limits on Ninth avenue, as required by resolution adopted at your last session.

Very respectfully,
F. G. RUSSELL,
City Attorney.

Accepted, and the ordinance was read twice by its title as follows: "An ordinance extending the fire limits on Ninth avenue to Michigan avenue."

Laid on the table and ordered printed, as follows:

Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg O'Keefe, Ruehle Shanahan, Stange, Welch, Woolley, and the President—18.

Nays—None.

FROM THE COUNSELOR.

To the Honorable the Common Council:

Gentlemen—The undersigned, to whom was referred the resolution of Ald. Parsons, relating to the balance unpaid to the Detroit Ironizing and Paving Company, for paving Atwater street, respectfully reports that the inspector, Mr. Henry Langley, states that a small quantity of stone from Thorald quarry was used; that the same is a good quality of Medina stone, and fully equal to it in all respects. The inspector reports that he has accepted the work, and the Controller, with Mr. Grelling acting as chairman of the committee, reports the contract performed, which fully complies with the ordinance relating thereto. It is my opinion the claim should be paid.

Very respectfully submitted,
D. C. HOLROOK,
City Counselor.

Accepted and placed on file.

SUSPENSION OF THE RULES.

On motion of Ald. Woolley the rules were suspended for the purpose of taking from the table the resolution above referred to.

The resolution was taken from the table and adopted by the following vote:

Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Hinchman, Lichtenberg, O'Keefe, Stange, Woolley, and the President—11.

Nays—Ald. Flower, Garrison, Grelling, Hough, Ruehle, Shanahan, and Welch—7.

FROM THE GRADE COMMISSIONERS.

To the Honorable the Common Council:

Gentlemen—The undersigned, Grade Commissioners, herewith transmit to your honorable body a diagram showing the grade as established by them on Jefferson avenue, from Rivard to Jequindre streets.

Respectfully submitted.
JAS. ANDERSON,
S FOLSOM,
JAMES DUBOIS.

Accepted, and referred to the Aldermen of the Fourth, Seventh and Tenth Wards, to report at the next session of the Council.

FROM THE BOARD OF FIRE COMMISSIONERS.

To the Honorable the Common Council:

Gentlemen—The Board of Fire Commissioners, to whom was referred the resolution adopted by your honorable body, at its session of August 29, viz:

Resolved, That the Board of Fire Commissioners be, and they are hereby requested to have hydrants put down, one on the corner of Beech and Fifth streets, one on the corner of Plum and Fifth streets and one on the corner of Oak and Fifth streets,

Would respectfully report in reply that the localities mentioned, with but few exceptions, are as well protected from fire as any portion of the city, being so covered by hydrants and reservoirs supplied by pipe of large dimensions, that at the first mentioned locality, in the event of a fire six engines could be brought to bear on the same; in the case of the second, seven; and in the third, ten, without streching more than 700 feet of hose, whereas the hose carts ordinarily carry 800 feet. And without trouble the whole available force of the department could be put in service in that neighborhood.

In view of these facts, and that less protected localities are designated for and demand all the hydrants contemplated this fiscal year, the Fire Commission deem it expedient to defer the construction of the request of your honorable body.

By direction of the Board.

Very respectfully, etc.,
FRED. H. SEYMOUR, Secretary.

Accepted and placed on file.

FROM THE BOARD OF WATER COMMISSIONERS.

To the Honorable the Common Council:

The Board of Water Commissioners to whom was referred the petition of Edwin Jerome, for the privilege of erecting a water sprinkling hydrant on alley on Fifth street, between Fort street and Lafayette avenue, respectfully report that they will erect such hydrant at such point as the Common Council may designate, at the expense of the petitioner, in accordance with the usual custom.

Respectfully, etc.,
HENRY STARKEY, Secretary.

Accepted and referred to the Committee on Streets.

FROM THE CITY CLERK.

That he presented the proceedings of the last Council to the Mayor on the 30th ult., and they were approved on the 2d inst.

Accepted and placed on file.

REPORTS OF COMMITTEES.

STREETS.

To the Honorable the Common Council:

The undersigned Committee on Streets, to whom was referred the petition of F. Buhl, asking permission to lay switch or turn-out on Croghan street, between Joseph Campau avenue and McDougall street, have examined the same and report in favor of granting the prayer of the petitioner

C. M. WELCH,
G. GRELLING,
D. SHANAHAN.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

The undersigned Committee on Streets and Grade Commissioners, to whom was referred the resolution for the changing of the grade of Twelfth street, respectfully report that they have had the same under consideration: that they find the grade of said street was regularly and properly established: that since it was so established water pipes have been put down in accordance therewith: that to change the grade would involve great expense without any good reason therefor. They therefore report adverse to the adoption of said resolution.

C. M. WELCH,
G. GRELLING.
D. SHANAHAN,
S. FOLSOM,
Grade Commissioners.

Accepted and adopted.

Ald. Woolley was excused from further attendance.

FIRE LIMITS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Fire Limits, to whom was referred the petition of A. E. Bigelow, for permission to repair, and raise the roof of his lumber shed, on Macomb avenue, respectfully report that they have examined the same, and believing that the fire risk would be increased thereby, recommend that the prayer of the petitioner should not be granted.

Digitized by Google

Your committee have also examined into the matter of the petition of J. Mohrman, for permission to remove a frame building 12 feet east, on the lot corner of Larned and Second streets, and find that said building stands about 12 feet from the line of the lot on Second street, and immediately adjoining other wooden buildings. Mr. Mohrman wishes to move the house to the line of the street, thus separating it from the other buildings, and leaving the 12 feet space between the buildings instead of on the corner. By so doing the fire risk will be decreased. Your committee therefore recommend that the prayer of the petitioner be granted.

Respectfully submitted,

M. P. CHRISTIAN,
A. O'KEEFE,
D. DULLEA,

Accepted and adopted.

HEALTH AND ATTORNEY.

To the Honorable the Common Council:

Gentlemen—The undersigned, to whom was referred the communication of the Street Commissioner of the Western District, relative to a pool of stagnant water in Thirteenth street, at or near its intersection with the Michigan Central Railroad, have investigated the matter and find the facts as stated by the Commissioner.

We are of the opinion that there never existed at or near this point what could strictly be termed a natural water course, and on account of the filling up of lots and streets in that vicinity, we are certain that no one can claim with any show of reason that a natural water course exists there now.

We recommend that the grading and filling up of Thirteenth street be proceeded with and completed to said railroad without delay; that a sewer be constructed in the alley between Thirteenth and Thirteenth-and-a half streets to and along Howard street, so as to connect with a sewer in Fourteenth street.

With these improvements made, and the low lots in that vicinity filled up properly, there can be no excuse for the existence of stagnant pools of water, as all parties, including the railroad company, would have ample drainage facilities.

All of which is respectfully submitted,

G. GRELLING,
D. DULLEA,
F. G. RUSSELL,
City Attorney.

Accepted and adopted.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—Your committee, to whom was referred the petition of Wm. Suckert, for permission to raise his roof and repair his house, No 174 Fort street, east, have had the matter under consideration, and have personally examined the location; also consulted the owner relative to the improvement. We do not think that the contemplated repair of the building will increase any fire risk. We therefore report in favor of granting the prayer of the petitioner.

Very respectfully,

WM. LICHTENBERG,
C. M. GARRISON
Aldermen Fourth Ward.

Accepted and adopted.

Ald. Lichtenberg was excused from further attendance.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—Your special committee appointed to examine and investigate the merits of the "Alexander Millar's Improved Wood Pavement," and the Seely & Petton process of carbolizing wood to prevent decay, beg leave to report that they have visited Pittsburg, Pa., where large and expensive works for the purpose of carbolizing the wood have been erected and are worked by Gen. W. B. Barton, under a license from the Wedge Block Pavement Company, of the city of New York; that Gen. Barton has large and extensive contracts for paving in said city with the above pavement, to the exclusion of all others, it being the almost universal choice of the property owners and city authorities; that your committee have examined the process of cutting and carbolizing the blocks and foundation as placed on the streets, and although some of your committee when appointed were somewhat incredulous as to the possibility of preserving wood so as to prevent decay under the severe conditions to which our pavements are exposed, but after witnessing the process of carbolizing as there practiced, and from the evidence and experience, after years of trial, of some of our most scientific men, we are fully convinced that the preservation of wood is not only practicable, but, by this process, very desirable, especially for street paving, as the carbolizing not only preserves the wood from decay, but makes it more serviceable, and as carbolic acid is one of the most powerful disinfectants, would add much to the health of the city; that in this pavement, from the great care taken in the foundation, the thickness of the boards used, and the particular shape of the block, we are well satisfied that the pavement is very substantial and will wear well, as is also proven by its general condition after several years of constant use; that, although the cost is more than other forms of wood pavement, it will, without doubt, prove the cheapest in the end. In consideration of the above conclusions we would, therefore, recommend that the specifications be adopted, and that the experiment be tried here by paving one street as soon as convenient, that our people and authorities may see it used and have an opportunity of testing its merits, and have the benefits as soon as practicable.

C. M. WELCH,
ALBERT BOTSFORD,
GEO. W. HOUGH.

Accepted and adopted.

In connection with the report, leave being granted, Ald. Welch presented specifications for the above-mentioned pavement.

On motion of Ald. Daly, the specifications were laid upon the table and ordered printed.

SUSPENSION OF THE RULES.

On motion of Ald. Hough the rules were suspended, and the Council took up the order of

THIRD READING OF ORDINANCES.

On motion, the following ordinance was taken from the table and placed upon its third reading: "An ordinance dividing the Tenth Ward of the city of Detroit into two wards, to be known and designated as the Tenth and Thirteenth Wards.

COMMUNICATIONS FROM THE MAYOR.

CITY OF DETROIT.
MAYOR'S OFFICE, September 5, 1882.

To the Honorable the Common Council:

Gentlemen—I return to your honorable body without my approval that part of your proceedings on the 2d inst., whereby ordinance No. 47 was passed partitioning off a new ward from the Tenth Ward of this city, for the following reasons.

1. The inhabitants of the Tenth Ward do not desire the change made, and were in reality taken by surprise at the innovation. The vote last fall of this ward all told, was less than 1,900, and, being made in two precincts, was conducted in the most orderly manner possible.

2. As to territory, there is ample space for another ward whenever the said territory shall be settled by inhabitants, which, not being the case at present, there seems to me to be no necessity for creating a new ward with its concomitant expenses.

3. The second and third sections of this ordinance both contain the same language, viz.: "Clinton avenue extended to Mount Elliott avenue," thereby creating a division line through the two cemeteries, thus menacing the repose of the honored dead, and also by anticipation harassing the sensibilities of the living.

Therefore in view of all these facts, I most earnestly recommend to your honorable body a postponement of the matter for the present, and when the ward fills up to warrant the division, that German street be made the dividing line, which street is already opened through the whole Tenth Ward. This would leave the cemeteries undisturbed, either in reality or by inference, and at least save appearances to the credit of our boasted civilization.

Very respectfully,
H. MOFFAT,
Mayor.

Accepted, and on motion of Ald. Woolley, the vote by which the ordinance was passed was reconsidered as follows:

Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hough, Lichtenberg, O'Keefe, Ruehle, Shanahan, Welch, Woolley, and the President—16.

Nays—None.

Ald. O'Keefe moved to lay the communication upon the table until the next session of the Council.

Carried as follows:

Yeas—Ald. Broeg, Christian, Grelling, Lichtenberg, O'Keefe, Ruehle, Shanahan, Welch, Woolley, and the President—10.

Nays—Ald. Botsford, Daly, Dullea, Flower, Garrison, and Hough—6.

COMMUNICATION FROM THE MAYOR.

CITY OF DETROIT,
MAYOR'S OFFICE, Sept. 11, 1873.

To the Honorable the Common Council:

Gentlemen—In a communication sent to your honorable body, dated the 28th of April last, and acted upon by the Council on the day following, I called your attention to the fact that at least one-twentieth part of the taxable property of this city is owned by railroad companies, which pay no city taxes, and that the benefits derived from the city by the said railroad companies ought to guarantee compulsory measures to be taken in the premises.

The State Legislature has, heretofore, seemingly stood in awe of something in the constitution of this State when appealed to on the subject; and, as there is at the present time a convention in session at the State Capital for the revision of the constitution, I hereby recommend and urge the matter to the careful attention of the honorable City Council, and ask you, as the representatives of this large and heavily taxed city, to bring this matter before said convention with the view to remove the impediment in the constitution if any such exists, and thus prepare the way for our successors in office to apply for redress to the next Legislature.

Very respectfully,

H. MOFFAT,
Mayor.

Accepted, and Ald. Woolley moved that the communication be referred to the special committee previously appointed in the matter.

Ald. Garrison moved to amend by referring the matter to a special committee with instructions to report at the second succeeding session of the Council. Carried, and the chair announced as such special committee Ald. Garrison, Hough and Daly.

FROM THE CITY ATTORNEY.

To the Honorable the Common Council:

Gentlemen, The jury impaneled in the matter of opening Wilkins street have failed to agree and been discharged by the court.

Eleven of the jury were opposed to the opening according to the resolution adopted by your honorable body on account of the large damages to be paid, believing that a street 40 feet wide would answer all purposes and save heavy assessments against premises benefited.

Is it your pleasure that I ask for another jury under the said resolution by you adopted?

Very respectfully,
F. G. RUSSELL.
City Attorney.

Accepted and placed on file.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—The undersigned, to whom was referred the communication of the Street Commissioner of the Western District, relative to the failure of the Board of Water Works to remove an obstruction in Griswold street made by such board, and to replace crosswalks on Abbott street taken up under their direction, respectfully submit the following:

Section eight of the Water Works act, as amended at the last session of the Legislature, provides that the board may "conduct pipes, aqueducts or other works over or under any water course, or under any street, alley, turnpike road, railroad, highway, or other way within or without the city of Detroit: but, in such manner as not to unnecessarily obstruct or impede travel thereon; and they may at all times enter upon and dig up, with like restrictions as to travel, such street, alley, road or way to lay such pipes, or construct such aqueducts and other works beneath the surface thereof, and to maintain and repair or renew the same, returning the street, alley or way to its former condition, so far as may be."

Section 5, chapter 37, of the ordinances, prohibits every person from obstructing any street or alley with anything, except in certain cases. Section 10 of the same chapter requires that every person having made an excavation in any street or alley, or torn up any pavement, sidewalk or cross walk, shall, as speedily as practicable, repair and put the same in as good order and condition as before.

If the facts stated by the Commissioner are true, and some executive officer connected with said board has failed to remove obstructions made, or to repair and replace crosswalks taken up by him, within a reasonable time, I know of no reason why such officer may not be complained against and held responsible for violation of the ordinance the same as any other person.

The people certainly have a right to expect that in all work upon the streets and alleys of the city the same diligence and efficiency upon the part of city officials doing such work will be required as in the case of persons placing obstructions or making excavations for private purposes; and it is to be regretted that any department of the city government, whether a Board of Commissioners or otherwise, should be the subject of complaint on account of failure to comply with the law and to discharge its duties properly.

Very respectfully,
F. G. RUSSELL,
City Attorney.

Accepted and placed on file.

Whereas, In the infinite wisdom of Him who regulates and controls the lives and destinies of men, William Wilmot, a former member of this Council, and a distinguished citizen of this city, has been removed from our midst in the prime of his manhood and usefulness;

Resolved, That we have learned with profound sorrow of the death of Mr Wilmot As a member of this body he was unusually active and efficient in the discharge of all duties imposed upon him, doing his work cheerfully, with an eye single to the interests of his constituents, and always with unquestioned regard for the honor and prosperity of the city; as a citizen he was energetic, of strict integrity and for one so young gave great promise of extended influence and usefulness; as a man he was more than ordinarily generous, courteous and accommodating, and long will the memory of his kind deeds live with those who have known and been associated with him

Resolved, That to the family and relatives of the deceased this Council tender their fullest and warmest sympathies, trusting that their sad bereavement will be softened by the conviction that the deceased passed away having the confidence and kindest wishes of all.

Resolved, That the members of the Council will attend the funeral of the deceased, that the city officers be requested to likewise attend, and that during the hour of service the flag on the City Hall be displayed at half-mast.

Resolved, That a committee of three be appointed by the President to make the necessary arrangements.

Resolved, That the City Clerk transmit a copy of these resolutions to the family of the deceased.

After brief remarks by Ald. Parsons, Woolley, Welch, and Hough, the resolutions were adopted unanimously, the following Aldermen being present:

To the Honorable the Common Council:

Gentlemen—I desire to call the attention of your honorable body to the condition of the Lafayette avenue bridge over the Michigan Central Railroad. The bridge is a single span, composed almost entirely of iron, and rests upon stone abutments. The constant tendency of the iron work to contract and expand weakens the abutment walls. The abutments have just been put in good order by the Railroad Company.

Unless iron rollers are placed under one end of the bridge this same trouble will occur again. It can be done at a very small expense and should have been done when the bridge was first erected.

Respectfully, etc.,
E. I. GARFIELD,
Controller.

FROM THE BOARD OF FIRE COMMISSIONERS.

To the Honorable the Common Council:

Gentlemen—The Fire Commissioners, to whom was referred the petitions, respectively, of J. W. Duross, for permission to erect a barn on the corner of Larned and Orleans streets, of William Quinn, to erect a shed on the corner of Franklin and Beaubien streets, and of D. REPORT OF COMMITTEES.

CLAIMS AND ACCOUNTS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Claims and Accounts would report that they have carefully examined the work done by Jacob Wirtz on Randolph Street Park and find it very miserably done. The contract price for entirely new walks around the whole park would have been $183 62 if done by the contractor, while the charge in voucher 198 attached by the Street Commissioner is $149 72, and only about one-third of the plank are new.

Your committee think the charge exhorbitant, and that the Street Commissioner should have resorted to the city contractor for the walk instead of an outside person, and then held him to a strict accountability for the proper discharge of his duty.

Your committee cannot advise the payment of the full amount of their claim for the reasons noted.

Very respectfully,
P. PARSONS,
JAMES FLOWER,
F. RUEHLE.

Accepted and adopted by the following vote:

Yeas—Ald. Botsford, Broeg, Christian, Daly Dullea, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Ruehle, Shanahan, Stange Welch, and the President *pro tem*—18. Nays—None.

Respectfully, etc,

F. RUEHLE,
C. M. WELCH,
D. SHANAHAN.

To the Honorable the Common Council:

Gentlemen—The Committee of Ways and Means, and the City Counselor, to whom was referred, on the 12th instant, the report of the Board of Park Commissioners, showing the purchase of lands for a park and requesting the issue of the bonds of the City of Detroit to an amount not exceeding $300,000 as provided by law: state that the committee with the City Counsellor have considered the subject matter of such report; and the undersigned a majority of such committee, and the City Counselor respectfully report that they fully concur in the proceedings of the Board of Park Commissioners, and with their report, to which we refer; and without discussing the merits or demerits (if there are any) of the subject. There is, we believe, no discretion to be exercised, as we are satisfied that the contracts entered into by the Board of Park Commissioners are good and valid and ought to be performed; that these contracts constitute a valid debt against this city as fully as though directly entered into by this Council being duly authorized to act in the premises; and the cheerful performance of these contracts on the part of this Council we consider under the law an absolute duty, and no attempt to evade the same should be countenanced by, nor would it become the dignity of this Council to resort to any subterfuge to defeat a fair

attempt to fully comply with the law in all respects.

The undersigned members of the committee being advised by the City Counselor that the act under which the Board of Park Commissioners was created, is fully sustained by the decisions of our Supreme Court on similar acts, and the act having been in effect adopted and accepted by the executive and legislative branches of the city government, there can be no question of the validity of the proceedings of the Board of Park Commissioners; and (the act being constitutional) there is no discretion on the part of this Council to be exercised: our only duty is to comply with the law as we find it, and if hereafter any one shall see fit to raise the question of the constitutionality of the act, the undersigned will cheerfully submit to a final decision declaring it (if so) unconstitutional, but until then we cannot do otherwise than report as above

Very respectfully submitted,
DAVID PRESTON,

COMMUNICATION:

To the Honorable the Common Council:

Gentlemen—On the 12th inst. the report of the Park Commissioners requesting the issue of the bonds of the city to the amount of $800,000, as provided by the amendatory Park bill, was referred to the Committee on Ways and Means and the City Counselor. As a member of the committee I respectfully report that I do not concur in the recommendation contained in the report of the majority of the committee, and of the City Counselor, which has just been submitted to you

I have always been of the opinion that the State Legislature has no power under the constitution to compel the city to issue these bonds, and there is nothing in the majority report which would lead me to a different conclusion. I have the utmost respect for the learning and ability of the City Counselor, and should not dispute his opinion on the legal points involved if I were not advised by lawyers of equal standing at the bar that he is wrong. He says "that the act under which the Board of Park Commissioners was created is fully sustained by the decisions of our Supreme Court on similar acts," but he does not refer to a single case, and I am advised that there is no such case. It is true that the Supreme Court sustained the act creating the Board of Police Commissioners, but by referring to the case of the People on the relation of the Board of Public Works, against Hurlbut—it will be seen that the Police Court was held valid because the State was directly interested in enforcing the laws and preserving the public peace, the same being matters of State and not matters of local importance.

Judge Campbell, in his opinion, makes this distinction particularly clear; and the Supreme Court of Illinois makes the same distinction in the Lincoln Park case (recently published in the *Tribune*), which seems to be a case directly in point. But our own Supreme Court have already gone nearly as far, in the case of The People on the relation of Hubbard against the Township Board of Springwells. The act required the Township Board to issue bonds to pay for the improvement of Fort street west, as extended from the city limits into that township. The Supreme Court held that the State could not engage in a work of internal improvement, and the Township Board could no be required to issue the bonds. Now, if the park would be a work of inter al improvement, of which there can hardly be any question, it needs no legal learning to see that the Park bill is unconstitutional, because it is evident that the State cannot compel the city to do something that the State itself cannot do.

The City Counselor further advised the committee "that the park act has been in effect adopted and accepted by the executive and legislative branch of the city government." This I do not think is true. The Park Act, as originally passed by the Legislature, left it discretionary with the city to say, by a vote of the freemen of the city, whether the action of the Park Commissioners should be confirmed and the bonds issued Before any amendments were made enlarging the powers of the Commissioners the Common Council passed upon a report of the Commissioners, and submitted the same to a freemen's meeting. This was a recognition and adoption of the act as it then stood, and made the Commissioners the agents of the city to locate the park and make provisional contracts, subject to ratification or rejection by the city; but it went no further and was not an adoption of the amendatory Park bill, which was not in existence at that time, or a recognition of the Park Commissioners as agents of the city to absolutely bind the city

The Amendatory Park bill has never been adopted or accepted by the Mayor or Common Council in any way, shape or manner.

The majority of the committee and the City Counselor insist that the act is constitutional, and that there is no discretion on the part of the Council to exercise, but they are evidently unwilling to have the questions tested before the Supreme Court. They certainly know, that if the Common Council by the requisite majority vote to issue the bonds, the city itself will not be in a position where it can test the matter, and I am reliably informed that it is well settled that no private citizen can maintain a suit for such a purpose until the bonds have been issued and taxes are levied upon him to pay the debt thus created.

I would, not have referred to this if it was not apparent that the statement, at the close of the majority report, (that if any one else should see fit to raise the question of the constitutionality of the act, they would cheerfully submit to a final decision), seems to have been inserted with an intent to mislead the Council into issuing the bonds, and thereby putting the city into a position beyond all hope of relief in the courts.

I believe that the Common Council, in justice to

the city and our constituents, should refuse to issue the bonds.

Respectfully submitted,
C. M. GARRISON

Ald. Garrison moved the adoption of the report and resolution.

Ald. Woolley moved to amend by laying the whole matter upon the table.

Carried as follows:

Yeas—Ald. Broeg, Grelling, Hinchman, Lichtenberg, O'Keefe, Parsons, Preston, Stange, Welch, Woolley, and the President—11.

COMMUNICATION FROM THE MAYOR.

CITY OF DETROIT,
MAYOR'S OFFICE, Sept. 23, 1873.

To the Honorable the Common Council:

Gentlemen—I return to your honorable body, without my approval, that part of your proceedings on the 19th inst., authorizing the Board of Water Commissioners to issue $1,000,000 in water bonds, for the following reasons:

1. This highly intelligent community have seen fit to offer some advice in the matter of locating a new water works, or of improving the old or present works, which was apparently heeded by the honorable Council when the report of your Committee of Ways and Means was adopted on the 11th of July last, to the effect that whenever the Water Commissioners should disclose plans which could be approved by the Council, they were ready to vote for the issue of the bonds, and after a lapse of more than two months' time without any concession whatever on the part of the Water Commissioners to the exore sec wishes of the people and of your honorable body, the Council, by this resolution, has granted the demand originally made, thereby shutting off from the people any further opportunity to make suggestions which might lead to and obtain the much-desired information of where shall the city locate the inlet pipe for the water works to be used for the next century.

2 If the front of the proposed new pare be the place determined upon, I beg to state to your honorable body that the predominant filth (when any is found in our water) is the rooty substance of reeds, literally swamp mud, loosened by the action of the waves; and it would seem very desirable to locate elsewhere than so near the black mud of those flats. Another point near the light house has also been suggested, with the certainty that the cost of piping from thence to the city, with all its necessary attendants of damming and dredging through miles of swamp, would go far toward purchasing the whole of Belle Isle, and thus secure to the city for all time the key to the channels of the Detroit River and an unobjectionable site for the water works entirely independent of private interests. There are other propositions, such as extending the present inlet pipes to deeper water and enlarging the pre-ent works at a quarter the cost of any other projected plan, but in either case the purchase of Belle Isle is, in my opinion, of the utmost importance to the wealth and development of this great city. And in view of pure water, which must be obtained up stream, free from all the annoyance of jealousy in the locality.

3. The State of Michigan, from some cause not clearly defined, has of late years assumed to rule her metropolis with a rod of iron. And our Water Commissioners, in their reticence about what is to be done with the $1,000,000 legislatively provided for them, which amount in all probability is only a beginning of what must inevitably follow, seem to act on the presumption that *as goes* the state Legislature so must city officials go, evidently having overlooked the fact that to sift and investigate every matter is a fixed principle of American character, and that to want to know, is among their first aspirations of thought and action, consequently the citizens of Detroit want to know where and how their money is to be expended. And they also want to have the mystery of the Hamtramck swamps thoroughly cleared up before locating a site which is to entail an unknown amount of taxation upon generations to come.

4. However business-like it may seem, and perhaps might be beneficial in the long run to withhold their intentions from the public, the Detroit Water Commissioners, although men of undoubted talent and honor, are not infallible, and if we look to the past we find, with all their integrity and high character for shrewd, intelligent, professional and business met, that they have been subjected to serious embarrassments or mistakes by following the drift of their own knowledge alone, and also by being guided in their action by misplaced confidence in interested adventurers from abroad, therefore the home community has at last grown inquisitive and want to know. So soon then as the plans are unfolded and good advice listened to, so much the sooner shall we arrive at a satisfactory solution to the all-important problem of pure water supply, which, in consideration of the immense growth of this city, must ultimately involve an outlay of five times the amount at present asked for, and our wisdom will be best illustrated by laying a broad foundation.

Very respectfully,

H. MOFFAT,
Mayor

Ald. Woolley moved to lay the communication upon the table.

Carried as follows:

Yeas—Ald. Broeg, Flower, Grelling, Hinchman, Lichtenberg, O'Keefe, Parsons, Preston, Welch, Woolley, and the President—11.

Nays—Ald. Botsford, Christian, Daly, Dullea, Garrison, Hough, Ruehle, and Shanahan 8.

Ald. Flower was excused from further attendance.

Ald. Daly moved that the vote be reconsidered by which the resolution referred to in the above communication was adopted.

The chair ruled the motion out of order.

Ald. Ruehle appealed from the decision of the chair, and the question being "shall the decision of the chair stand as the decision of the Council," the chair was sustained as follows:

Yeas—Ald. Botsford, Broeg, Grelling, Hinchman, Lichtenberg, O'Keefe, Parsons, Preston, Stange, Welch, and Woolley—11.

Nays—Ald. Christian, Daly, Dullea, Garrison, Hough, Ruehle, and Shanahan—7.

Gentlemen—The Committee on Judiciary and City Attorney, to whom was referred the petition of the Dupont Powder Company for permission to store powder in their powder house, near Mount Elliott avenue, until the first day of January, 1874; also a remonstrance signed by 80 citizens, have had the same under consideration, and respectfully report that they deem it inexpedient to grant such permission, for the following reasons:

1. The said Powder Company could erect, within a few weeks, a suitable building for the storage of powder outside the city limits.

2 Large quantities of powder ought not to be stored within the city limits, as there is always a liability to explosion, and consequently danger to life and property.

3. The township authorities of Hamtramck have opened German street from Mount Elliott to Van Dyke avenues (now the Eleventh Ward), and said powder house stands in the line of said German street.

Your committee therefore report against the prayer of the petitioner, and recommend that the Superintendent of Police be directed to notify the Dupont Powder Company to discontinue the stor-

To the Honorable the Common Council:

Gentlemen—The undersigned, to whom was referred the petition and communication of Valentine Hibendeger, contractor for the construction of plank sidewalks in the Eastern District, complaining of the Street Commissioner in said district for interfering with the work and duty of said contractor, respectfully report as follows:

The committee have carefully investigated this matter, and have found that in several instances the said Commissioner has constructed or caused to be constructed plank sidewalks without any authority so to do from the Council; that he has had work done by parties employed by himself that ought to have been done and rightfully belonged to said contractor; that said Commissioner has failed to promptly notify said contractor of sidewalks ordered to be by him constructed, and that he has on diverse occasions, either by failure to give notice or otherwise interfered with and delayed the construction of sidewalks in said district. The committee further report that they have endeavored to ascertain the cause of the delay in the construction of a large number of sidewalks ordered by the Council in several of the wards in said district, and they find in the Controller's possession a large number of assessment rolls for sidewalks in said district in which said Commissioner does not appear to have made any return showing the construction of or failure to construct sidewalks by the owners of lots assessed, or in any manner indicating what walks were to be laid by the contractor.

The committee are satisfied, from all the circumstances, and their examination of the matter, that the Commissioner of said district has not discharged the duties of his office with that diligence, efficiency and evidence of competency which the interests of the public require. The committee, therefore, present, and believe it their duty to recommend, the adoption of the accompanying resolution.

Respectfully submitted,
C. M. WELCH,
G. GRELLING,
D. SHANAHAN.

Resolved, by the Common Council of the city of Detroit, That the office of Street Commissioner of the Eastern District be, and the same is hereby declared to be vacant.

SEWERS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Sewers to whom was referred the petition of Theo. L Campau, asking your honorable body payme t for building Fourteenth street public sewer, it having been completed over one month and the Engineer

of Sewers having failed to measure the work," would beg leave to report that on conferring with the Engineer of Sewers we find that the work has been measured and final estimates made, the latter being withheld until such time as the whole work on said public sewer shall be completed to the entire satisfaction of the Board of Sewer Commissioners; and we therefore ask your honorable body to relieve us from further consideration of this matter.

Respectfully submitted,
F. RUEHLE,
C. M. WELCH.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Sewers, to whom was referred the petition of John Hays, praying to be relieved from an over-assessment for lateral sewer in the alley between Fourteenth, Fifteenth, Dalzelle streets and Michigan avenue, find upon examination that assessments for lateral sewers are made out upon the superficial feet of the lots adjoining and benefited by said sewer, not by alley frontage. We therefore report adversely to the prayer of your petitioner.

Respectfully submitted,
F. RUEHLE.
C. M. WELCH.
D. SHANAHAN.

Accepted and adopted.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—The undersigned, to whom was referred the petition of J. H. and J. W. Grainger and others, sewer contractors, in relation to the payment more directly to them of money collected for the construction of lateral sewers, beg leave to submit the following:

For the purposes of convenience in keeping the books and to save time, the Receiver has been accustomed, when assessments for lateral sewers have been paid in to his office to first deduct, from the payments first made, the entire amount to be paid to the sewer inspector, and then to pay the balance and all assessments subsequently made to the contractors. The committee are satisfied that some injustice results to the contractors by this mode of paying the inspector, and that the contractors do not in fact receive all moneys paid in on assessments for lateral sewers as soon as they are entitled to under their contract. The percentage to be paid the inspector should be collected proportionately out of every individual assessment paid in, and not the entire amount due him for his entire work.

Therefore your committee recommend the adoption of the accompanying resolution:

D. DULLEA,
G. GRELLING,
F. G. RUSSELL,
City Attorney.

Resolved, That the Receiver of Taxes be, and he is hereby instructed to reserve for payment of the sewer inspector from moneys paid into his hands on assessments for the construction of lateral sewers, simply the proportionate amount or percentage on each payment belonging to the inspector, so that the contractors will realize payment as soon as the city does in behalf of such inspector.

Accepted, objected to and laid over under the rules.

Ald. Welch moved to adjourn.

FROM THE STREET COMMISSIONER, EASTERN DISTRICT.

To the Honorable the Common Council:

Gentlemen—A resolution is pending before your honorable body declaring the office of Street Commissioner of the Eastern District vacant.

Being the present incumbent of that office, I deem it my duty to place facts before your honorable body which may convince you that no necessity for the passing of such a resolution exists.

The Committee on Streets, who saw fit to present the resolution, seem not to have taken in consideration the statements made by me before them, but believed Mr. Hilsendegen, my accuser.

The communication presented by Valentine Hilsendegen, to your honorable body, was conceived in malice and based upon his favored idea of having removed one from office who, by virtue of such

Digitized by Google

office was bound to look into and scrutinize the official actions of his, the said Hilsendegen's.

The assertion made by him on one occasion—when he referred to me an account against the city for the erection of a sidewalk bridge, on Fremont street, for my signature, which signature I refused to give on account of finding the bill overcharged—"that he would finish me for that," will bear me out in my presumption.

The facts charged against me are, that I have ordered and laid new sidewalks. This I denied before the Committee on Streets, and I do so deny before your honorable body.

I am charged with having repaired sidewalks. This I do not deny, for I, like all my predecessors, who have done the same, deemed it my duty, in the absence of a contract by the city with any one for doing such work, to repair some of the most needed sidewalks around city property, ordered by your honorable body.

I have employed men to do said repairing at very low and reasonable prices, and never certified to a bill which I deemed exorbitant.

I deny that I ever interfered with the official duties of said Hilsendegen, excepting when I refused to connive with him and sign unwarrantable bills against the city. I deny of having ever failed to give proper notices to him for the construction of sidewalks ordered by the Council.

As to the cause of the delay in the construction of some sidewalks ordered, I beg leave to state that the Committee on Streets, in their report, must have been misled by outside influence to attach the blame upon the Street Commissioner. On a more thorough investigation they would have found that none of the assessment rolls by them found in the hands of the Controller needs the signature of the Street Commissioner, before the sidewalks are built by the Controller, and that because they had not been built, my signature as Street Commissioner could not have been attached.

During the short period I have occupied the position as Street Commissioner of the Eastern District, I have endeavored to faithfully perform the duties of my office, and that I have carried out the same, two-thirds of the inhabitants of my district stand ready to testify.

I am, very respectfully, your obedient servant,

W. BOENNINGHAUSEN,
Street Commissioner, E. D.

In addition to the above I beg leave to further state that sidewalks have been ordered in front of about 1,500 lots in my district during the term of my office, and that I returned a great many of them as having not been built, but the City Surveyor wisely refused to make out the assessment rolls, unless the walks would be constructed by the contractor.

W. BOENNINGHAUSEN,
Street Commissioner.

Ald. Lichtenberg moved to refer the matter to a special committee.

Ald. Hough moved to amend by referring the same to the Committee on Streets.

Ald. Christian moved to lay the communication upon the table until the next session of the Council.

Carried.

FROM THE CITY CLERK.

That he presented the proceedings of the last session of the Council to the Mayor on the 25th inst., and they were returned approved on the 26th inst.

Also, that the Mayor has approved an ordinance changing the name of Third street to Third avenue.

Accepted and placed on file.

Further, that Peter Huyser, Collector of the Fifth Ward, and William Ryan, Collector of the Eighth Ward, have filed their official bonds for the present year.

Referred to the Committee on Ways and Means.

To the Honorable the Common Council:

GENTLEMEN—Your Special Committee to whom was referred His Honor the Mayor's communica-

tion relative to the exemption from taxes of all property owned by railroads in our city—and, also, calling attention to something supposed to be in the State constitution which prohibited our Legislature from granting us relief—would most respectfully report that they are advised that there is nothing in the present constitution which prohibits the Legislature from granting the desired redress, and after a most thorough and careful examination of the subject matter, we find:

There are in the State of Michigan, and within the limits of the city of Detroit, two classes of corporations. Before the constitution of 1850, corporations could only spring into existence by special charters; and general laws providing for the formation of corporations at the will of individuals, were held invalid. By article 15 of the constitution of 1850, it is provided, section 1: "Corporations may be formed under general laws, but shall not be created by special act, except for municipal purposes. All laws passed pursuant to this section may be amended, altered or repealed." In pursuance of this provision of the constitution, various general laws have been passed providing for corporations of different characters, the most important of which, in reference to the present subject, are those authorizing the creation of railroads.

Under this general law we have terminating in this city the Detroit, Monroe and Toledo Railroad Company, leased in perpetuity to the Michigan Southern and Northern Indiana Railroad Company. The rights and liabilities of this company are governed by the law under which it was formed, and not by the charter of the company which became lessee. We have also the Detroit, Lansing and Lake Michigan Railroad Company, the Detroit and Bay City Railroad Company, the Toledo, Canada Southern and Detroit Railway Company, and the Grand Trunk Railway Company. It is settled law that the Legislature has the right to amend the acts under which these corporations were formed, and hence the power of taxation is within the control of the Legislature.

There are two railway companies, whose lines terminate in this city, and owning very large masses of property within the limits of the city now exempted from taxation, the special charters of which were granted previous to 1850. One of these, the Detroit and Milwaukee Railroad Company, grew out of the amalgamations between the Detroit and Pontiac Railroad Company, and the Oakland and Ottawa Railroad Company, forming, after the union, the Detroit and Milwaukee Railway Company, and which after going through several transformations in the courts of law, resulted in the present corporation, the Detroit and Milwaukee Railroad Company. This company, in connection with the Detroit, Monroe and Toledo Railroad Company, owns a very large and valuable property, extending from Brush street to Dequindre street, and embracing a very large front on the river, and much of which, your committee submit, is not by any fair construction of the charters of this company, properly exempt from taxation for municipal purposes.

The act to authorize the sale of the Central Railroad, and to incorporate the Michigan Central Railroad Company, was approved on the 28th of March, 1846. Section 39 of this act provides: "The State reserves the right at any time after 30 years from the passage of this act, by a vote of two-thirds of each branch of the Legislature, to alter, amend, or repeal the same, provided that said company shall be compensated by the State for all damages sustained by reason of such alteration, amendment or repeal." In less than three years this corporation will become subject to Legislation. Its charter constitutes a contract between the State and the corporation, which, until the expiration of 30 years, cannot lawfully be substantially changed or modified, as such alteration would be the violation of the obligation of a contract. Whatever limits are fixed to the power of the State to tax the property of this company, according to a fair and liberal interpretation of the charter, should be carefully observed. But, if the company have acquired property and engaged in pursuits, not within the contemplation of the Legislature when the charter was granted, and not within the reasonable construction of the provisions of the charter, then, so far as these interests are concerned, they should be taxed equally with the property of individuals.

The corporate stock of this company was fixed at $5,000,000, with the privilege of increasing the same to $8,000,000, and it was provided as follows: Section 33 - "The said company shall pay to the State an annual tax of one-half of one per cent. upon the capital stock paid in, including the $2,000,000 of purchase money paid to the State, until the 10th day of February, 1851, and thereafter an annual tax of three-quarters of one per cent. upon its capital stock paid in, including the two millions of purchase money paid to the State, and also upon all loans made to said company for the purpose of constructing said railroad, or purchasing, constructing, chartering or hiring steamboats authorized by this act to be held by said company; which tax shall be paid in the last week in January in each year to the State Treasury; and the property and effects of said company, whether real, personal or mixed, shall, in consideration thereof, be exempted from all and every other tax, charge and exaction by virtue of any law of this State, now or hereafter to be enforced except penalties by this act imposed." Whatever property, either real or personal, the charter of the company authorizes it to acquire, hold and use for the successful prosecution of its business, within the limits, and on the conditions specified in the charter, is exempt from taxation. But if this company has acquired either real or personal estate beyond its legitimate wants, or beyond the limits specified in the charter, then it is very clear that such acquisitions would not be within the protection of the contract.

This company was authorized to construct and maintain a railroad with one or more tracks, between Detroit and some point in the State of Michigan on or near Lake Michigan, and thence to some point on the southern boundary line of the State of Michigan. For the purpose of constructing such railroad, the company had authority and power to lay out, designate and establish their road in width not exceeding 150 feet; and might take, have, and appropriate to their use, all such lands so designated for the line of construction of said road, and for "constructing shops, depots, and other proper and convenient fixtures in connection with, and as appertinent to said railroad may take, have, use and occupy any lands on either side of said railroad, not exceeding (200) two hundred feet in depth from said railroad." They are also authorized "To receive, take and hold all such voluntary grants and donations of land and real estate for the purpose of said railroad, as may or shall be made to said company to aid in the construction, maintenance and accommodation of said railroad."

No power is given and none can be implied to acquire and hold lands within this charter for the erection and management of locomotive works, car works, public houses, elevators and other purposes different from the carriage of goods and passengers, in manner and form as provided in the charter.

Within the limits of Detroit we find erections for these purposes and others carried on directly by railroad companies.

The real estate occupied for these purposes is very large in extent, and of immense value. It is guarded by the police of the city. It has the protection of the Fire Department of the city. It shares in all the advantages which the municipality provides for property that pays its full proportion of taxes; and yet this description of property of the railroad companies does not contribute one cent toward the city taxes. Your committee believe that this claim for exemption is not only inequitable, but is altogether illegal, even under existing laws.

The present constitution, article 14, provides for the appropriation of all specific State taxes. It is worthy of consideration whether the constitution should not be so amended as to allow a portion of these taxes to be applied to municipal purposes where any considerable portion of the property of the corporation lies within the limits of the city or

incorporated village, and has the ben fit of the protection of municipal institutions.

We do not deem it necessary to recommend an alteration of the present State constitution, so far as to subject the property of corporations to taxation for general purposes. The old charters, which are protected upon the ground of their being contracts, would not be affected by such change in the constitution. And, inasmuch as no special charters can be granted under the present constitution; and inasmuch as the general laws, under which alone corporations can be organized, can be changed by the Legislature, the remedy is by application to that body.

We recommend that a committee be appointed, with adequate powers to investigate and report what property, if any, is held by each of the several railroad companies having their terminations in this city, which is liable to taxation in view of the provisions of the laws, general or special, under which these several companies were organized. And also to examine and report what legislation is necessary or desirable, in order to compel these companies to contribute their fair share of municipal taxation.

All of which is respectfully submitted.

C. M GARRISON.
G. W. HOUGH,
JAMES DALY.

Accepted, and leave being granted, Ald. Garrison offered the following:

Resolved, That a special committee be appointed with adequate power to investigate and report what property, if any, is held by each of the several railroad companies having their termination in this city, which is liable to taxation in view of the provisions of the laws, general or special, under which these several companies were organized; and also to examine and report what legislation is necessary, or desirable in order to compel these companies to contribute their fair share of municipal taxation.

SPECIAL.

To the Honorable the Common Council:

GEORGE W. HOUGH,

This dedication supplies all the alley facilities needed in said block, and for the purpose of avoiding further expense in the matter I suggest that it would be proper to direct the discontinuance of further proceedings in the case. I submit the necessary resolution herewith.

Very respectfully,
F. G. RUSSELL,
City Attorney.

FROM THE BOARD OF SEWER COMMISSIONERS.

To the Honorable the Common Council:

Gentlemen—The Board of Sewer Commissioners, to whom were referred the following petitions for lateral sewers, viz:

Of H. Schaale, for sewer in the alley between Fort, Woodbridge, Twenty-first and Twentieth streets

Of Jacob Hude and others, for a sewer in the alley between Baker street and the south line of block three, Loranger farm, Twentieth and Nineteenth streets.

Of Charles Graf and others, for a sewer in the alley between Michigan avenue and Balzelle street, Seventeenth and Sixteenth streets

Of Ira Apger and others, for a sewer in the alley between Grand River avenue, Fifth and Pine streets, having examined the above described localities, and finding sewerage necessary, would report in favor of the prayers of your petitioners.

Also the petitions of Geo. W. Hough and others, for a sewer in the alleys between Ash, Canfield, Seventeenth and Sixteenth streets and of Thomas S Kelley and others, for a sewer in the alleys on the north side of Michigan avenue, between Eighteenth and Sixteenth streets, would report in favor of the prayers of your petitioners being complied with as soon as the proper connections for said lateral sewers shall be completed.

Parsons, Preston, Ruehle, Shanahan, Stange, Welch, Woolley, and the President.—18.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—The Board of Sewer Commissioners to whom were referred the petition of John Bracht and others, for a lateral sewer in the block bounded by Bronson, Marion, Riopelle and Orleans streets, having examined the above described locality and finding sewerage necessary, but that, as yet, no alley had been opened through said block, would report in favor of the prayers of your petitioners, as soon as the alley may be opened. Also, the petition of F Schmidt and others, for a lateral sewer in the alleys between Irving, Charles, Eighth and Seventh streets, having examined the premises and finding that such a sewer was not required for the reason that there is already a good lateral sewer in Eighth street and a public sewer in Seventh street, into which most of the lots on Seventh street are drained, would report adversely to the prayers of your petitioners. Also, the petition of T. R. Cavrall, for a sewer in the alley in the block bounded by Congress, Fort, Russell and Rivard streets, find on examining the premises that the rest of the block is well drained by a box sewer, and that permission has already been obtained for your petitioner to make use of the same mains for his drainage. We therefore report adversely to the prayer of his petition. Also the remonstrance of Wm. Balls and others, remonstrating against the construction of a sewer in the alley between Grand River avenue, Pine and Fifth streets, having examined the premises, and deeming a sewer necessary, would report adversely to the remonstrance.

Respectfully submitted,
WALTER H. COOTS,
HARVEY KING,
AUG E. BISSELL,
Board of Sewer Commissioners.

Accepted and laid upon the table for one week.

FROM THE CITY ASSESSOR.

To the Honorable the Common Council:

Gentlemen—The undersigned asks leave to lay before your honorable body a statement in reference to Third street. It appears that in May last the Council ordered said street paved from Henry street to the north line of Pitcher street, and in June last the Council granted to parties, by ordinance, the right of way for a street railroad, conditioned that the said parties or company should grade and pave the street between the track, and two feet on each side of said track. Now, it appears that the Surveyor's estimate given, on which the assessment is to be made against the adjoining property, to defray the expense of paving, covers the entire width of the street. This seems to give general dissatisfaction to taxpayers on said street, who claim that the railroad company are justly bound to pave a portion of the street, which said company, as I am informed, neglected or refused so to do. In the hope that the matter would be fairly adjusted by the parties in interest, and by their request, I have withheld the roll. In view of these facts, and in behalf of the taxpayers on said street, I therefore ask the Council to make such order in reference to said roll as they deem proper.

Very respectfully,
H. H. LEROY,
City Assessor.

Accepted and referred to the City Counselor and City Attorney.

FROM THE STREET COMMISSIONER, W. D

To the Honorable the Common Council.

Gentlemen—In reference to a petition presented to your honorable body on the 19th inst., from Robert Hubbert, for permission to repair a plank sidewalk on the corner of Michigan avenue and Abbott street, I would respectfully state that I have no power to give permission to persons to repair their walks within the stone limits; I would, however, recommend that the prayer of the petitioner be granted.

Very respectfully,
HENRY KNOWLES,
Street Commissioner, Western District.

Accepted and referred to the Aldermen of the First Ward.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—In reference to a petition presented to your honorable body on the 19th inst., from H. Bates and others, for a sidewalk intersection on the southeast corner of Michigan avenue and First street, I would respectfully state that the intersection has been laid with concrete sometime ago, and has been worn out, and consequently according to the ordinance, requires a new stone intersection.

Very respectfully,
HENRY KNOWLES,
Street Commissioner, Western District.

Accepted and referred to the Aldermen of the First Ward.

JUDICIARY, COUNSELOR AND CONTROLLER.

To the Honorable the Common Council:

Gentlemen—Your Committee on Judiciary, together with the Controller and City Counselor, to whom was referred the communication of the Controller, under date of July 11th, calling the attention of your honorable body to the nearly exhausted condition of the Seventh Ward fund and a comparatively small amount of work performed therefor, respectfully report that the matter has been carefully examined, and finding many discrepancies, and they deeming it the only satisfactory way to obtain facts, had the Overseer, Gottlieb Scerl, besides every man whose name appeared on the unpaid rolls, summoned before the City Attorney and their affidavits taken as to time worked and amount due them, from which your Committee have made a new and corrected roll, hereto attached, which they recommend for payment.

They here will state that they find that the Overseer has had a team employed under another name, viz., A. Kaiser, which, being in violation of the ordinance, has been omitted from the corrected roll, and also that they have caused an account to be made, attached hereto, for amounts drawn by him on previous rolls for team, which also was a violation of ordinance.

Your committee also find on the unpaid and paid rolls the name of F. Boemer, as laborer (who, as per C. Kaiser's affidavit, was driver of his team), therefore not entitled to pay from the city as laborer, compensation for Boemer and also for team having been drawn by said C. Kaiser, there appearing on the roll attached the sum of nine ($9) dollars due C. Kaiser, and he having drawn on previous rolls the sum of $32 25 or and on account of F. Boemer, whose name was improperly placed on the rolls. Your committee present herewith the account current of $32 25 against C. Kaiser under all the foregoing circumstances. To the Honorable the Common Council.

Gentlemen—I herewith submit form of charges against Gottlieb Scerl, Overseer of Highways for the Seventh Ward, as directed by resolution adopted at your last session.

The charges are somewhat general, but as not so much formality is required in investigations of this character as in trials before courts of record, they will probably be sufficient.

Very respectfully,

F. G. RUSSELL,
City Attorney.

Accepted, and Ald. Hinchman moved that the charges be not printed in the official proceedings.

Ald Welch moved that the whole matter be referred to the special committee previously appointed on the same subject

Ald. Hough moved to further amend by referring the same to the Aldermen of the Third Ward.

Lost.

The motion of Ald Welch prevailed as follows:

Yeas—Ald. Christian, Dullea, Flower, Grelling, Lichtenberg, O'Keefe, Parsons, Ruehle, Welch, and the President—10.

Nays—Ald. Botsford, Daly, Hinchman, Hough, Shanahan, and Woolley—6.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—The undersigned, in obedience to the resolution adopted by your honorable body relative to the alley in the Tenth Ward, recently opened between Macomb and Clinton streets, McDougal and Elmwood avenues, respectfully submits the following:

The jury in said opening took property that had been reserved for alley purposes by the Hon. W. B. Wesson in his deeds of the lots now abutting said alley. The jury gave no damages to Mr. Wesson, and they assessed no benefits against him, it appearing that he was not, at the time of filing their report, the owner of any of the lots in said block.

In this block the alley, at the time of impaneling the jury, was open 20 feet wide, about half way; Mr. Wesson, when he sold the lots belonging to him in said block, reserved 10 feet for alley off the rear end of each lot, intending that the alley should be 20 feet wide throughout; the Surveyor's description in the resolution adopted by your honorable body, called for an opening but 15 feet wide, that is to say 10 feet off the rear end of all lots fronting on Macomb street and five off those fronting on Clinton street; the alley should have been opened 20 feet wide, and if it had been probably no question would have arisen upon it.

As all parties interested in said opening failed to make any objections to the report of the jury before its confirmation, it is my opinion that each party assessed in said block must pay his proportion of the damages and costs as determined by the jury and the court.

Very respectfully,

F. G. RUSSELL,
City Attorney.

Accepted and placed on file.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—I herewith submit the necessary resolutions for opening streets and alleys as follows:

1. Alley in the Sixth Ward, in the block bounded by Marion, Bronson, Riopelle and Orleans streets.

In the case of Selden street and Willis avenue it will be necessary to establish the proper assessment districts

I have not been able to proceed further in the matter of opening Mack and Preston streets, for the reason that the assessment districts have not yet been established.

The resolutions ordered for the opening of an alley in the Seventh Ward, in the block bounded by Orleans, Dequindre, Maple and Sherman streets, and for the opening of Canfield and Mt. Elliott avenues, have not been reported, for the reason that the Surveyor has not yet furnished the necessary descriptions.

FROM THE COUNSELLOR AND ATTORNEY.

To the Honorable the Common Council:

The undersigned, to whom was referred the communication of the City Assessor in relation to the assessment for grading and paving Third street, respectfully report:

That on the 16th May last the Council ordered Third street to be paved from Michigan avenue to Grand River street, which is an extension of pavement on that street; proposals were advertised therefore on the 10th of June; they were reported to the Council, and on the 20th the Controller was directed to enter into a contract, which he did on the 25th of June, and the contract was confirmed by the Council on the 1st day of July. This contract was to pave the entire width of the street.

The Central Market, Cass Avenue and Third Street Railway Company ordinance was not accepted by the company until the 1st of July, which was after the contract was entered into, and the rights of the contractor became fixed.

By that ordinance the company has the right, and it is its duty to grade and pave that portion of the street, which lies within its track, and two feet and nine inches on either side thereof; but at the time the contract was entered into the company had not accepted the ordinance, the contract had to be made as it was.

We have no doubt that by the terms of this ordinance the railway is bound to do the grading and paving as above specified, but as the contract now made is to pave the whole, it must be carried out, unless the contractors will consent to waive that part of the work the railway company should do. Should the contractor consent, a new assessment will have to be made for the work outside of that required of the railway, and the railway notified to cause so much of the paving and grading to be done as the ordinance requires; we would therefore recommend that the matter be referred to the Controller to make the necessary arrangement with the contractors to waive so much of the work as belongs to the railway to perform.

Respectfully submitted,

D. C. HOLBROOK,
City Counselor.
F. G. RUSSELL,
City Attorney.

Accepted and referred to the City Controller.

REPORTS OF COMMITTEES.

JUDICIARY AND ATTORNEY.

To the Honorable the Common Council:

Gentlemen—The undersigned, to whom was referred the petition of Ferdinand Specht, for an extention of time to meet payment of the third instalment of an assessment for the construction of pavement opposite lots fronting on Lafayette avenue and Howard street, respectfully submit the following:

1. In the opinion of the committee an ordinance supplementary to chapters 31 and 35, of the Revised Ordinances, approved July 6, 18 1, does not allow of such extension.

2. If the charter and ordinances authorized it, the committee believe that such an allowance would be the establishment of a dangerous precedent.

3. It is the duty of the city, under the contract in paving matters, and under the ordinances to exercise due diligence in the collection of assessments: if such diligence were not exercised the contractors might hold the city duly responsible for the money not collected.

We therefore report adversely upon the petition.

Whereas, All that portion of the Sixth Ward lying east of Brush street and north of Watson street is notoriously deficient in fire hydrants and other sources of water supply in cases of emergency, which deficiency was made manifest in the recent destruction of a valuable dwelling-house, with the fences and sidewalks adjacent, notwithstanding the fire engines were on the spot in time, but unable to render any assistance for want of water facilities; and,

FROM THE CHIEF ENGINEER OF THE FIRE DEPARTMENT.

To the Honorable the Board of Fire Commissioners:

Gentlemen—I very respectfully report to your honorable board that I made complaint against Adolph Levi and Dr. Casper Schulte for violation of the fire ordinance, and since I made complaint against said parties, the Council on last Friday night gave them privilege to violate as much as they wanted, and the Judge of the Recorder's Court suspended sentence on them this morning because the Council granted them their privileges.

Yours, very respectfully etc.
JAMES BATTLE,
Fire Marshal.

Accepted and placed on file

FROM THE BOARD OF FIRE COMMISSIONERS.

To the Honorable the Common Council:

The Fire Commission herewith respectfully presents a report of the Fire Marshall for your consideration. Your honorable body, at your last session, granted permission to Adolph Levi, and Dr. Caspar Shulte to erect and maintain wooden sheds, or build ngs within the fire limits, in places contiguous to large wooden sheds and buildings, where the fire risk is greatly increased, notwithstanding it was not with the approbation of this Commission, and also after the Fire Marshal by the direction of this board had commenced proceedings against those parties before the Recorder's Court. The result of your action (as you will see by his report) was to prevent a removal of such sheds or buildings, and to cause a suspension of all and any proceedings by the Fire Marshal.

This commission, therefore, respectfully petitions and ask your honorable body to promptly reconsider your action granting permission to the said Adolph Levi and Dr. Caspar Schulte to erect and maintain said building or sheds in order that the ordinances of the city may be enforced, and the increased danger of the spread of fire in those localities may be arrested.

This commission again would respectfully represent that no wooden shed and building can be placed or erected in a thickly settled city without great danger of causing an extensive conflagration. We therefore ask and petition that your action will be such as to aid this Board in guarding the city from the danger of extensive fires. And we warn you that this is no imaginary evil, as the history of all cities will demonstrate. We would, in conclusion, respectfully urge your honorable body not to thwart the effort of the Fire Marshal in the discharge of duty incumbent upon him in enforcing a highly important ordinance, necessary for the safety of this city.

For the Fire Commission,
T. H. HINCHMAN,
Chairman of special committee.

Accepted and placed on file.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—The Fire Commissioner to whom was referred the petition of C. Henssebeck for permission to erect a temporary shed, would respectfully report that an examination has demonstrated the fact that said petitioner desires to build a long shed in the rear of his premises for the storage of rags, and as such an erection contemplated for such a purpose would enhance the fire rise, it is respectfully recommended that the prayer of the said petitioner be not granted.

By direction of the Board,
Very respectfully,
FRED. H. SEYMOUR.

Accepted and placed on file.

FROM THE CITY CLERK.

CLAIMS AND ACCOUNTS AND COUNSELOR.

To the Honorable the Common Council:

Gentlemen—The undersigned Committee on Claims and Accounts and City Counselor, to whom was referred on the ——— July last, claim 95, of Patrick Cullaney for grading and sodding done on the Woodward avenue side of East Grand Circus Park, respectfully report that a resolution was unanimously adopted April 18, 1873, directing the Street Commissioner of the Eastern District to cause this work to be done, and the same was done by Mr. Cullaney, at request of such commissioner: that the charge therefore is just and the claim should be paid, and we present herewith a resolution to that effect.

Respectfully submitted,
JAMES FLOWER,
D. C. HOLBROOK,
City Counselor.

Resolved, That the Controller draw his warrant on the ——— fund in favor of Patrick Cullaney for the sum of $ ——, being the amount of said claim.

Objected to and laid over under the rules.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—The undersigned, Committee on Claims and Accounts, to whom was referred, with the City Counselor, the claim of Fred Kœpen, numbered 94, for sod furnished to improve Grand Circus Park, respectfully report the following facts which appear from the testimony taken on the subject:

In the fall of 1872 Ald. Parsons requested Patrick Cullaney to do two or three days' work grading and sodding on the Woodward avenue side of the park, and, if the work suited him, he would get a resolution of the Council passed to complete the job. Mr. Parsons then left the city. During his absence, Ald. Preston passing by, a conversation occurred between him and Cullaney, which he, Cullaney, understood as a direction to go on and finish the job. Cullaney requested Kœpen to procure and draw the sod therefor, which he did in the absence of Mr. Parsons. Kœpen was then in the employment of Mr. Parsons, and used his team and wagon in drawing the sod, but Mr. Parsons gave the time consumed and the use of the team to Kœpen, and he, Parsons, is no way interested in the claim.

The work was done at about one-half the usual price charged for like services.

We do not find that this work was done under any direction or resolution of the Council, or by any officer of the city authorized to order it. Had Ald. Parsons been at home a resolution would probably have been introduced, but in his absence it was done without authority, and Ald. Parsons refused to allow the claim.

Mr. Cullaney, without doubt, acted honestly in the belief that he was properly authorized to proceed with the work, and requested Mr. Kœpen to furnish the sod, which he did at a very reduced price.

The undersigned find that the work was necessary, proper and charge reasonable, and under all

the circumstances recommend the payment of the claim.

JAMES FLOWER.
D. C. HOLBROOK,
City Counselor.

Accepted and laid on the table.

STREETS AND ATTORNEY.

To the Honorable the Common Council:

Gentlemen—The undersigned to whom was referred the communication of Valentine Hilsendegen, contractor, relative to the construction of sidewalks under a resolution adopted by the Council May 27th last, submitt the following:

The resolut on of May 27th directed the Street Commissioner of the Eastern District to cause sidewalks to be constructed in the Tenth Ward where in his opinion such walks should be built.

We are of the opinion that in all cases for the construction of sidewalks the resolution ordering them should state particularly where they are to be laid; that the resolution passed, contained a delegation of power not authorized by the charter or ordinances, and we do not believe that any legal assessment can be based upon such a resolution.

Very respectfully,
C. M. WELCH,
G. GRELLING,
D. SHANAHAN.
F. G. RUSSELL,
City Attorney.

Accepted and adopted.

STREETS.

To the Honorable the Common Council:

Gentlemen—The Committee on Streets, to whom was referred the petition of property owners on the south side of Jefferson avenue, between Orleans and Dequindre streets, asking that the sidewalk be raised to the proper grade, and that plank sidewalks be substituted for stone until the earth has become thoroughly settled, would respectfully report in favor of granting the prayers of the petitioners provided that the work be done without expense to the city.

Respectfully submitted,
C. M. WELCH.
G. GRELLING,
D. SHANAHAN.

Accepted and adopted.

PUBLIC BUILDINGS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Public Buildings to whom was referred the petition of F. A. Mumford calling attention to the dangerous condition of a brick one-story building in rear of No. 121 Grand River avenue, have examined the same and find the building is built with two by four scantling and filled between the studding with brick four inches thick and about six feet from the ground to the eaves, and props are put up the outside to prevent it from falling; and your committee was informed by the owner that he intends to rebuild the same as soon as possible, and in view of the above we recommend that the prayer of the petitioner be not granted.

All of which is respectfully submitted.
JAMES FLOWER,
SMITH R. WOOLLEY,
CHARLES STANGE.

Accepted and adopted.

LICENSES.

To the Honorable the Common Council:

Gentlemen—Your Committee on Licenses, to whom was referred the petition of J. E. Warner, proprietor of Warner's Menagerie and Circus, would respectfully report that it is our opinion that no deviation from the ordinance should be fostered by this council; for we are of the opinion that the schedule of price is low enough. But inasmuch as Mr. Warner promises to winter his stock here, we have come to the conclusion to make a deduction of one-third, making the license $2 0 for six days.

All of which is respectfully submitted,
M. BROEG,
WM. LICHTENBERG,
CHAS. STANGE.

Ald. Hough moved to lay the matter on the table for one session.

Carried.

HEALTH.

To the Honorable the Common Council.

Gentlemen—Your Committee on Health, to whom was referred the petition of S. W. Cumming and others, asking that you forbid F. Mesmore connecting with the Union street sewer for the purpose of draining a slaughter house, would respectfully report that in the opinion of your Committee, the Common Council, under the ordinance, have not assumed any control over such matters. When said Mesmore's establishment becomes a nuisance it will then become a matter for the cognizance of the Board of Health or sanitary police.

Very respectfully,
G. GRELLING,
D. PRESTON.

Accepted and adopted.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—Your special committee to whom was referred the petition of Conrad Clippert and many others, members of the German Evangelical Church and School, on Seventeenth street, asking your honorable body to cause the Michigan Central Railroad Company to place a gate across said street, or else a flagman to warn their children of danger, would respectfully report that, after a full interview with Mr. Joy, President of the said road, that gentleman is of the opinion that the city cannot compel the company to do either. Mr Joy thinks that as the railroad was constructed before the street was opened, we cannot control them in that matter. We would further report, in relation to the construction of bridges across Baker and other streets, that Mr. Joy says the railroad company will meet the city half-way at any time whenever it decides to construct bridges across any or all streets crossing their road; or, in other words, they will build the abutments whenever the city is ready to build the bridges. Your committee are of the opinion that the best interests of all concerned would be subserved by the construction of bridges across the above-named and other leading streets, as soon as possible.

Respectfully submitted,
JAMES DALY,
JAMES FLOWER,
F. RUEHLE.

Accepted and adopted.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—Your special committee to whom was referred the petition of A. J. Chapman, H. A. Graves, Levi T. Griffin, Hal E. McNeil, and others for the opening of Watson street, would recommend that the prayer of the petitioners be granted and recommend the adoption of the accompaning resolution.

Respectfully submitted,
SMITH R. WOOLLEY,
JAMES FLOWER.

To the Honorable the Common Council:

Gentlemen—The Board of Sewer Commissioners, to whom was referred the resolution of Ald. Broeg requesting an explanation from this board "why the receiving basin taken from the corner of Russell and Maple streets had not been replaced," would respectfully report that said basin was removed on account of its being one of the old style basins and now well worn out; and further, that this board deemed a basin on this corner unnecessary, as there is, according to the report of the City Surveyor, a fall of over four (4) feet to the corner of Rivard street. Also, the resolution of Ald Hough directing this board to cause a receiving basin to be put in on the corner of Thirteenth-and-a-half and Dalzelle streets, would respectfully report that as there has been, for nearly a month, a receiving basin on each of the four corners of said streets, and as this board has not yet discovered the fifth corner, they have been unable to carry out the directions of the honorable Alderman.

Respectfully submitted,

WALTER H. COOTS,
HARVEY KING,
AUG. E. BISSELL.

Accepted and placed on file.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—Your special committee, composed of the aldermen of the Tenth Ward, to whom was referred the remonstrance of Heineman, Butzel & Co., against the construction of sidewalks on the north side of Lafayette street, between Elmwood and Mt. Elliott avenues, have examined the locality, and are of opinion that walks are necessary on said street.

It is very true there are not many residences on that portion of Lafayette street, but there is a very large portion of our citizens in the Eleventh Ward who attend divine service, at the Catholic Church on Elmwood avenue; there is also very many citizens in the western part of the city who have friends interred in Mt. Elliott Cemetery; they, naturally, want to see the last resting place of their friends, they cannot go by street car farther than Elmwood avenue, hence they have to go on foot to Mt. Elliott avenue; after a rain it is impossible to travel on said street; your committee would further state that there has been a petition presented to the Council, one year ago, for sidewalks on said street; the walk was ordered, the same parties remonstrated, asking time until spring. Now the contractor has begun the work, we recommend that he continue until completed. Therefore your committee would report adverse to the prayer of the petitioners.

All of which is respectfully submitted,
A. O'KEEFE,
CHAS. STANGE,
Ald. Tenth Ward.

Accepted and adopted.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—The undersigned, to whom was referred the petition of W. H. Jennings, asking that permission be granted him to hang his "banner on the outer wall," at No. 217 Woodward avenue, respectfully report in favor of granting the prayer of the petitioner.

Very respectfully,
G. GRELLING,
Alderman Fifth Ward.

Accepted and adopted.

The pavement is of Wyckoff pine, and has this day been examined by the chairman of the Committee on Streets of your honorable body, and by myself, and found to be in accordance with the contract and specifications for the same, as far as we could judge from the appearance of the work.

There is due the contractors for paving said avenue as follows:

I respectfully ask authority to draw my warrant on the city treasury in payment of said intersections, and for the cost of advertising, and ask further instructions in reference to issuing the paving bonds due the contractors.

Accepted, and by unanimous consent Ald. Welch offered the following:

Whereas, It appears from communication from the City Controller that the paving on Jefferson avenue from the east curb line of Beaubien street to the east line of Hastings street has been fully completed; and

Whereas, Said avenue has been examined by the City Controller and the chairman of the Committee on Streets of this Council, and the pavement of said avenue has been found to have been done in accordance with the contract and specifications for the same; therefore,

Resolved, That the pavement on said avenue be and is hereby accepted, from the east curb line of Beaubien street to the east line of Hastings street; and further

Resolved, That the City Controller be, and he is hereby authorized to draw his warrant on the City Treasurer in payment of the intersections, etc., of said avenue to the amount of $971 88, the same being the whole amount due the contractors for paving said avenue, and for the cost of advertising, and also to issue and deliver to the contractors for paving said avenue street paving bonds to the amount of $6,302 40, in accordance with parts 2, 3 and 4 of the assessment rolls, said bonds to be dated and delivered 60 days after the date of the confirmation by this Council of said assessment rolls.

SUSPENSION OF THE RULES.

On motion of Ald. Grelling the rules were suspended for the purpose of presenting the following preamble and resolution:

Whereas, A direful disease has visited the cities of Shreveport and Memphis, spreading in their midst death and destruction, and reducing their inhabitants to extremes of necessity, helplessness and want, and

Whereas, Many of our sister cities have made noble response in aid of the sufferers, and

Whereas, We believe that the citizens of our city desire, in some organized and effective method, to do their full share in this work of humanity and mercy, therefore,

Resolved, That His Honor, the Mayor, be and is hereby most respectfully requested to call a meeting of citizens at the City Hall as soon as practicable, to devise necessary means of assistance in this most urgent calamity.

Adopted.

On motion, the Council resumed the regular order of business.

FROM THE ATTORNEY.

To the Honorable the Common Council:

Gentlemen—I respectfully submit the following in relation to the Third street paving complication, referred to me at your last session.

I have seen the contractors and the attorney of the Central Market, Cass Avenue and Third Street Railway, to ascertain if the controversy could not be amicably adjusted and the construction of the pavement proceeded with without further delay. Mr. Barbour, attorney of the company, intimated that the company were willing to pay the expense of the grading and paving of that portion of the street lying between and two feet nine inches outside their tracks, but cannot make the first payment as soon as wanted by the contractors.

The contractors say they are ready and anxious to proceed with the construction of the pavement, upon the city manifesting due diligence in the collection of the money to pay the expense of such construction. The contractors have a right to and do hold the city solely responsible under the contract for the paving of the entire street. As the work should be prosecuted and completed before the setting in of winter, I submit that the assessment must be made according to the estimates already made and such steps taken as may be necessary to enforce compliance with the ordinance upon the part of the railway company. Upon the liability of said company to pay the expense of paving between and two feet nine inches outside their tracks, the City Counsellor and myself have already reported.

Very respectfully,
F. G. RUSSELL,
City Attorney.

Accepted, and leave being granted, Ald. Welch offered the following:

Resolved, That the City Assessor be and he is hereby directed to send to this Council at its next session for confirmation of the assessment roll for paving Third street from Henry to Pitcher street.

Adopted.

FROM THE GAS INSPECTOR.

To the Honorable the Common Council:

Gentlemen—At your session of Tuesday evening last, the subject of "Illegal Proceedings" was freely discussed, and the Gas Inspector was held up as an example.

Allow me to explain the facts in my case: Mr. A. Valentine, the contractor, had an order to make 24 street lamps, at my request, and signed by the Controller. The lamps were delivered, I found the standard size of glass would not fit, but accepted of them, because lamp posts throughout the city were being ordered so rapidly. The next 24 lamps ordered from the contractor were of such poor material that I could not accept of them under any circumstances. In the meantime, citizens wanted to know why lamps had not been put on posts already erected. I went to the Controller and explained my situation. He asked me if I thought lamps could be had from any other party at the same price. I told him I would try, and went to Mr. Hawman who consented to make some at the contractor's figures. I told the Controller what success I had had. A requisition was written and signed by the Controller for 24 lamps from Mr. Hawman, and were received on the same day that the contractor's lamps were that were ordered between two and three weeks previous. After I returned the 24 lamps to the contractor that were not acceptable, Controller Garfield signed a requisition on Mr. Hawman for 24 more. Whether the transaction is illegal or not I leave your honorable body to decide, and remain

Yours, very respectfully,
JAMES T. WRIGHT,
Gas Inspector.

Accepted and placed on file.

D., 1873, and that I have, on this 17th day of October, 1873, filed in the office of the City Clerk a certified copy of the report of said jury in said matter, and of the order of said court confirming the same.

Accepted and placed on file.

SEWERS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Sewers, to whom was referred the petition of Henry Lee, asking to be relieved from assessment upon lot No. 2, Beaubien farm, for the construction of a lateral sewer in Harriet street, east of Beaubien street, having examined the said lot, and finding it is now well drained by a private drain into the public sewer in

Also a like petition from Fred Hartivig, asking relief from assessment on lot No. 9, would respectfully report in favor of relieving him of one half of said assessment.

Also a petition from Charles Weissenstein, asking to be relieved from assessment upon his property, on the corner of Beaubien and Harriet streets, for the construction of the above mentioned sewer, having examined said premises, and finding that they are not liable for assessment, would report in favor of the prayer of your petitioner.

Lodewyck, asking to be relieved from the assessment on lot No. 1 McDougall farm, for the construction of a lateral sewer in Woodbridge street, from Walker street to McDougall avenue, having examined the premises, and, finding them to be without sufficient drainage, would respectfully report adversely to the prayer of your petitioner. Also, the petition of J. H. Seitz, asking to be relieved from the assessment on lot No. 5, of the McDougall farm, for the construction of the above-mentioned sewer, finding, on examination, that he has already made connection with said sewer and is now using the same, would report adversely to the prayer of your petitioner.

To the Honorable the Common Council:

Gentlemen—Your Committee on Sewers, to whom was referred the petition of B. Busha, asking to be relieved of the assessment upon lots No. 18 and 19 Rivard farm, for the construction of a lateral sewer in the alley between Wilkins, Brewster, Hastings, and Prospect streets, have made an examination of the premises and find that lot No. 19 is sufficiently drained by a crock drain leading into the Prospect street sewer. Gentlemen—Your Committee on Sewers, to whom was referred the remonstrance of James Crudden, remonstrating against the assessment of lot No. 7, block 53, Labrosse farm, for the construction of a sewer in the alley between Labrosse, Porter, Sixth and Fourth streets, have made an examination of the premises and find that said lot has a depth of but 84 feet from Labrosse, for which reason it has no frontage on the above described sewer; and further, that said lot is already well drained by a sewer in Labrosse street. We therefore report in favor of the remonstrance.

Gentlemen—Your Committee on Sewers, to whom was referred the petition of Bernard McEnally and three other property-owners on Wight street, asking to be relieved from the assessments on their lots for the construction of a lateral sewer in Guoin street, from McDougall to Joseph Campau avenue, having examined into the matter, and finding that said lots have no frontage on Guoin street, and that they are therefore not liable for assessment, would respectfully report in favor of the prayers of your petitioners.

Also, the petition of Elisha Taylor asking to be relieved from assessment on the vacant lots on the southeast corner of Guoin street and Joseph Campau avenue, for the construction of the above mentioned sewer, have taken the matter into consideration and find that said premises are now without proper drainage, and that in such cases the payment for lateral sewers is provided for by the city charter by assessments on the property adjoining said sewer. We would therefore report adversely to the prayer of your petitioner.

not, as she feared, by the frontage on the alleys. We would therefore report adversely to the prayer of your petitioner.

SUSPENSION OF THE RULES.

On motion of Ald. Ruehle, the rules were suspended for the purpose of taking from the table the assessment roll presented at the last session of the Council for the construction of a lateral sewer in the alley bounded by Columbia, Montcalm, Park and Clifford streets.

The roll was taken from the table, and, upon motion of Ald. Ruehle, the same was referred back to the Surveyor for further correction.

On motion, the Council proceeded to the regular order of business.

TAXES.

To the Honorable the Common Council:

Gentlemen—Your committee to whom was referred the communication of the Receiver of Taxes in relation to an error in special assessment roll No. 1446, would report that they have examined the said roll and find the error to exist as stated.

Your committee therefore recommend the adoption of the following resolution:

Respectfully submitted,

P. PARSONS,
JAMES DALY.

Resolved, That special assessment roll No. 1446, for building a plank sidewalk on the north side of Woodbridge street, in front of lot 3, Mullett farm, confirmed by the Common Council, August 16, 1872, be cancelled, said assessment being erroneous, and that the City Surveyor be, and he is hereby instructed to make a new assessment roll for the building of said walk on the south side of Woodbridge street, in front of lot 3, Mullett farm.

Accepted and adopted as follows:

Yeas—Ald. Botsford, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Ruehle, Shanahan, Stange, Welch, and the President *pro tem.*—17.

GAS LIGHTS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Gas Lights, to whom was referred the petition of A. Valentine, have examined the same and find that the Inspector of Gas informed the Controller that he could not obtain gas-lamps enough from the contractor to meet the wants of his department, and that he applied to the City Controller for advice, and that gentleman was of the opinion that if some lamps could be obtained at the same price as contracted for, it would be better to procure some from other parties to meet the present demand. He found that the lamps could be procured at the contractor's price. He then procured an order from the City Controller and ordered lamps enough to meet the wants of the city at that time. Your committee are of the opinion that it was the duty of the Gas Inspector or the Controller to have given notice to the contractor that he was not supplying the lamps fast enough for the wants of the city before obtaining lamps from other parties.

All of which is respectfully submitted.

JAMES FLOWER,
G. GRELLING,
C. M. GARRISON.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Gas Lights, to whom was referred the petition of the Mutual Gas Light Company, have examined the same, and would state that they cannot recommend the division of the city at present between the two gas light companies. If both companies mains were equal through the city it would then be the duty of the city to receive bids from both and take the lowest bid.

Your committee would recommend that in all streets in which only one company have mains, that company should receive the same amount per lamp, and in all streets in which both companies have mains, that the City Controller advertise for bids from both companies for gas for all new lamps, and the lowest bidders to have the supplying of all new lamps put up in the said streets with gas for two years from the signing of the contract.

JAMES FLOWER,
G. GRELLING,
C. M. GARRISON.

Accepted and adopted.

Leave being granted, in connection with the above, the following communication was received from the contractor for constructing gas lamps

To the Honorable the Common Council:

Gentlemen—Having seen in the official proceedings a letter from James T. Wright, Gas Inspector, to your honorable body, in which he makes certain specific charges against me, wholly without color of foundation, unwarrantable and unjust, and as a pretext of justification for his illegal acts, dictated from motives of favoritism, if not from motives of self-interest, and in complete subversion of my legal rights, I respectfully beg leave to inform the Council that I have pressed for orders from time to time from the Gas Inspector, but always found a difficulty in the way of getting them; he wanted me to do work irregularly and without the legal order, but on his word, and from time to time, when urged by me to have some made in time, and have them on hand, as he had when there was no demand for lamps, he would not, although well knowing them to be constantly in demand, nay, taken from my shop when made without being taken to the City Hall first for inspection. As another instance and element of Wright's solicitude for patronizing the old ring, I never got the repairing of any lamps but a few, Hawman, my predecessor, getting all that, as my contract did not call for it: and now, by a gradual scale of petty intrigues, I am thus sought to be undermined out of my contract on unwarrantable pretenses of inability to comply with orders which I could not get in time for the reasons above set forth, while having the same man working for me that worked for Hawman, and fully able to furnish lamps as quickly as any, in every particular in accordance with my contract, if properly and timely ordered without having designing embarrassments thrown in my way by the Gas Inspector. I respectfully submit to your honorable body that I will satisfy any committee of your honorable body of the truth of these facts if deemed expedient, and refute the allegations contained in that document, prove my fidelity and good faith as a contractor from your honorable body, show the solicitude I evidenced for the interest of the city unavailingly on said Wright, maintain the assertions I have made and leave no room or color of room for doubt that Wright deliberately threw those impediments in my way to beat me out of my contract, or to have it abrogated in complicity with said Hawman to get him back the work, of all which and the motive spring of action impelling said Gas Inspector, I will then leave your honorable body to judge. I therefore humbly submit to your honorable body that justice to me demands a thorough investigation of this matter. In what manner it shall be examined into, I leave to your honorable body; but as a citizen and legitimately appointed contractor of your honorable body, I respectfully demand it my own right and in the in-

Detroit, October 21, 1873.

Gentlemen—The Fire Commission, to whom was referred the petition of Isaac Hersch, praying for permission to erect a frame shed in the rear of his premises on Congress street, between Hastings and Rivard streets, would respectfully report that previous to the presentation of the aforesaid petition to your honorable body the erection of the shed petitioned for advanced to a near state of completion, also the raising of the roof of a kitchen, was stopped by the Fire Marshal.

That the construction of said shed is a flagrant violation of the ordinance governing the fire limits, and that its completion and maintenance would be a hazardous and detrimental increase of the fire risk is a fact demonstrable upon the most casual examination. Relative to the foregoing a remonstrance from a prominent citizen and resident in the locality, which was prepared for presentation to your honorable body, and transmitted upon the reference of the subject to this board, is herewith respectfully alluded to, as pertinent in the connection.

The Fire Commission regard this as a just and evincible correct appreciation of the case in point, as well as an exemplification of the hazard entailed upon the community at large by the erection of wooden structures within the fire limits, to which subject the attention of your honorable body has been called in a former communication from this board.

It is therefore respectfully recommended that the prayer of the petitioner aforesaid be not granted, and that said shed be ordered taken down.

The present defective and inharmonious method of enforcing the fire limit ordinance has an illustration in this case, inasmuch as your honorable body have granted without any reference the petition of the owner of the lot adjoining that of the aforesaid petitioner permission to erect a shed; an apparent but unintentional partiality which tends to throw discredit upon the management of our municipal affairs in the eyes of the people, of whom the Honorable Common Council and the Board of Fire Commissioners are the conjunctive representatives

It is earnestly desired, and respectfully urged upon your honorable body to take some measures whereby this highly important ordinance can be enforced in an efficient and consistent manner, subservient to the best interests of citizens.

By direction of the Board.

Very respectfully, etc.,
FRED. H. SEYMOUR,
Secretary.

Accepted and referred to the chairman of the Committee on Fire Limits.

FROM THE SAME.

To the Honorable the Common Council:

FROM THE BOARD OF FIRE COMMISSIONERS.

To the Honorable the Common Council:

Gentlemen—Your attention is respectfully called to the condition of the street intersections on Jefferson avenue which are torn up from Hastings to Dubois streets, consequent upon which all property on the south side of the avenue included between said streets is endangered, arising from the fact that in the present state of said intersections it would be impossible for the engines to cross the same in the event of a fire, and would occasion a delay which could not fail to result disastrously.

As this encumbered condition of all these intersections is unnecessary as well as dangerous, your honorable body is respectfully requested to take such action as will cause this to be promptly remedied, which otherwise will entail grave liabilities.

The Fire Commissioners in reply to the resolution of your honorable body seeking an explanation in regard to the hydrant out of repair on the corner of Sherman and Riopelle streets, would respectfully state that said hydrant has been ordered removed on account of its inefficiency, owing to the supply in its present situation, and also as property in the locality referred to is protected by four hydrants and one cistern.

By direction of the Board.

Very respectfully, etc.,

FRED. H. SEYMOUR,
Secretary

FIRE LIMITS.

To the Honorable the Common Council:

Gentlemen—The Committee on Fire Limits, to whom was referred the communication of the Fire Commissioners, relative to the erection of a woodshed, by Mr. Isaac Hersch, in the rear of his premises on Congress street, and also as to the imperfect and inharmonious manner in which the ordinance relative to the fire limits is enforced, have given the matter much careful and anxious consideration. That there have been many and gross violations of this ordinance, cannot be denied; and that these violations will continue until a more stringent enforcement of the same shall be adopted, there cannot be a doubt. Your committee will briefly allude to a few of the more gross violations of this ordinance that have taken place within a few months, and which was not contemplated nor intended by this Council in granting the prayer of the petitioners, and which would not have occurred if the same had been referred to the Fire Commissioners. Mr. Kransman, on the corner of Havard and Larned streets, asked permission to move a small wooden house a few feet forward to the line of his lot, and to raise the roof about three feet. He built an entirely new house, nearly double in size of the one originally on the ground and added a story to the height, by which the fire risk was considerably increased to the entire neighborhood. The case of Dr. McGraw, on Fort street, is familiar to the Council, and need not be mentioned. On the corner of Larned and Second streets, a person (name not now remembered) asked permission to remove a building from the west side of the lot, where it joined close against another wooden building, to the line of the street, thus separating the wooden buildings and lessening the fire risk considerably; but not content with confining himself to the removal, as asked for, and wisely granted, he has built a large addition to the same, which was not asked for nor granted by the Council, and by so doing has increased the risk on Second street quite as much as it has been decreased on Larned street. But the most outrageous violation of this ordinance, and of good faith on the part of the petitioners, perhaps, is that of Mr. John Moore, on Washington avenue, who, in place of slight alterations asked for, has erected a large and elegant mansion, which certainly would not be recognized as the one which formerly occupied its position. That these violations will continue, if the Council persists in granting the request of citizens to violate an ordinance which was wisely designed for the protection and welfare of the whole city is just as true as that men will take advantage of such license if there is no proper constituted authority to hold them in subjection. The Board of Fire Commissioners is composed of honorable, patriotic and disinterested men, whose services are given to the city, without fee or reward, and whose only object is the protection and welfare of the city. Your committee believe that all petitions for the erection of wooden buildings in the fire limits should be referred to them, and that there may be no clashing of authority, no seeming slight cast upon them, their decision should be final. Your committee also believe that in all cases where citizens wish to erect small outhouses of a temporary character, or sheds for the protection of wood from the weather, that they will receive as liberal a consideration from the Fire Commissioners as the good of the public in general will allow.

As to the petition of Mr. Hersch, referred to by the commissioners, your committee believe the same to be a gross violation of the ordinance; and as it was erected without permission and in defiance of the ordinance, should be immediately removed. Respectfully submitted,

M. P. CHRISTIAN,
A. O'KEEFE,
D. DULLEA.

Ald. Garrison moved to lay the report upon the table until the next session of the Council.

Carried.

STREETS.

To the Honorable the Common Council:

Gentlemen—The undersigned committee, to whom was referred the petition of John C. Williams and Mrs. McKinstry, relative to the paving and grade on Michigan avenue, have examined the locality, and would recommend that the Street Commissioner of the Western District be directed to have a ditch excavated of sufficient depth to protect the premises of the petitioners from overflow of water that may fall on Michigan avenue in front of petitioners' lots. Your committee, therefore recommend the adoption of the following resolution:

SEWERS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Sewers, to whom was referred the remonstrance of Louis Wolfschlager and six others, remonstrating against the increased assessment of their property for the construction of the sewer in the alley between Dalzelle and Marantette, Thirteenth-and-a-half and Fourteenth streets, in consequence of your honorable body relieving the property of the St. Vincent Church of one-half of their assessment, would respectfully report that after giving the matter careful consideration we can see no reason for reporting differently from our communication of September 16.

The four lots belonging to the St. Vincent Church society were well drained by a crock drain, running from their premises into the Fourteenth street public sewer, and were, therefore, as is customary in such cases, relieved of one-half of their assessment, and the assessment roll was confirmed by your honorable body on the basis above mentioned. We therefore report adversely to the prayer of the remonstrance.

Respectfully submitted,
F. RUEHLE,
D. SHANAHAN.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Sewers, to whom was referred the petition of Thomas Fitzsimmons, asking to be relieved from his assessment for the construction of a sewer in the alley between Porter and Labrosse streets, Sixth and Fourth streets, having examined the premises, and finding that the old box drain by which he claims to be well drained, to be decayed and near-

ly useless, and believing that he will have to make use of the brick sewer in the alley; and further, that the assessment roll for said sewer has already been confirmed by your honorable body, would report adversely to the prayer of your petitioner.

Respectfully submitted.
F RUEHLE,
D. SHANAHAN.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen — Your Committee on Sewers, to whom was referred the petition of Mary Hayes, asking to be relieved of a portion of her assessment for the construction of a sewer in the alley between Michigan avenue, Dalzelle, Fourteenth and Fifteenth streets, on account of an error, as she claims, in assessing her lot for the frontage on the street, having examined the assessment roll and finding that there is no error, but that the assessment is made on the superficial feet of the lot, would report adversely to the prayer of your petitioner.

Respectfully submitted.
F. RUEHLE,
DANIEL SHANAHAN.

Accepted and adopted.

TAXES.

To the Honorable the Common Council:

Gentlemen—Your Committee on Taxes, to whom was referred the petition of N. Woods and others, would report that they find the facts as stated, and ask the passage of the accompanying resolution.

Very respectfully,
P. PARSONS,
JAMES DALY.

Resolved, That the City Controller be, and he is hereby directed to draw his warrant on the contingent fund in favor of the Receiver of Taxes for $11 84 for taxes on lots 259 and 260 Beaubien farm, occupied as church property.

Accepted and adopted as follows:

Yeas—Ald. Botsford, Broeg Christian, Daly, Dullea, Flower, Garrison, Grelling, Hough, O'Keefe, Parsons, Ruehle, Shanahan, Stange, and the President *pro tem.*—15.

Nays—None.

TAXES AND COUNSELOR.

To the Honorable the Common Council:

Gentlemen—The undersigned, Committee on Taxes, and the City Counselor, to whom was referred the petition of David Preston to be refunded the sum of $446 16 paid for taxes on certain bonds and mortgages which do not belong to him, and which were included in the amount assessed to David Preston & Co., report that they have examined the matter and find that of the amount assessed $24,85 belonged to David Preston & Co., and were included in their capital assessed, whereby this amount was twice assessed and paid; that the balance, $7,758, was not subject to assessment. The undersigned are of the opinion that the sum of $446 15 should be repaid, and they present a resolution and recommend its adoption.

Respectfully submitted,
P. PARSONS,
Committee.
D. C. HOLBROOK,
City Counselor.

Resolved, That the Controller draw his warrant for $446 15 on the Contingent fund in favor of David Preston for that amount, over-paid on taxes.

Accepted and adopted as follows:

On motion of Canvasser Brodie the Clerk was instructed to make all the necessary corrections.

There having been no official returns filed from the Eleventh and Twelfth Wards, the inspectors having enclosed the same in their respective ballot-boxes, Canvasser Brodie moved that a committee of three be appointed by the chair to procure the boxes, open the same in the presence of the board, and take therefrom the returns of the inspectors above referred to.

Canvasser Stamm moved to amend by adding the City Clerk to the above committee, and that the statements having been procured the ballot-boxes be immediately sealed and returned to their proper custody.

The amendment was accepted.

In connection with the same the Clerk read the following communication

FROM THE CITY COUNSELOR.

CITY OF DETROIT,
COUNSELOR'S OFFICE, Nov. 8, 1878.

To the Honorable the Board of City Canvassers:

Gentlemen—I am informed that in some of the wards the Inspectors have not delivered to the Clerk of the City any statement of the result of the late charter election as required by law; but have made such statements, and placed them in the ballot-box used by them, and after sealing it, have delivered it to the City Clerk.

Such a proceeding cannot defeat the election in such ward.

I therefore inform you that in my opinion it would be proper, and your duty, after your Board shall have organized at its meeting, to declare the result of this election, and being satisfied that such statements are contained in such box to direct the Clerk to produce the box, and open it in the presence of the Board, and to take therefrom such return, and act upon it the same as though regularly returned to the Clerk according to law.

Permit me to add that the ballots in such boxes must not be inspected nor interfered with at all by your Board.

Very respectfully,
D. C. HOLBROOK,
City Counselor.

The communication was accepted.

The motion offered by Canvasser Brodie was adopted, and the chair appointed as the committee Canvassers Kuehle, Phelps, Christian, and the City Clerk, Chas. H. Borgman.

The committee having procured the ballot boxes, the statements were taken therefrom and the boxes

were again sealed and placed in possession of the Clerk.

The Clerk thereupon announced the following as the

To the Honorable the Common Council:

FROM THE BOARD OF FIRE COMMISSIONERS.

To the Honorable the Common Council:

Gentlemen—The Fire Commission, to whom was referred the petition of N. Sennniger, praying for permission to raise the roof of the wing adjoining his house, on the northwest corner of Gratiot and Prospect streets, would respectfully report that the said location has received an examination, and it is found that in the rear of the main building of said petitioner there is a frame kitchen adjoining the wing desired to be raised, size 14x32, in the rear of which is also a large woodshed connected with a cooper shop, size 20x30 feet.

Digitized by Google

This efficiently demonstrates a present unsafe condition of the premises that the increase desired would only serve to multiply. It is therefore recommended that the prayer of the petitioner be not granted.

The Fire Commission, to whom was referred the petition of G. Vier, praying for permission to erect a shed on lot No. 848 Michigan avenue, respectfully report, upon examination there is found to be a butcher shop, dwelling-house, slaughter-house and smoke-house already on said lot, to which it is now the prayer of the petitioner to add a frame two-story barn, 30x23 feet, a result that would endanger adjoining property and increase the fire risk. It is respectfully recommended that the prayer of the petitioner be not granted.

The petition of Andrew Myler et al., and remonstrance of Joseph Kuhn pro and con, in the matter of allowing Isaac Hoersch to retain a shed built contrary to the fire limit ordinance, referred by your honorable body to this board, in reply attention is respectfully called to the report from the Commissioner, dated October 21, 1873 wherein the subject is considered; nothing having occurred subsequent to superinduce a compatible change in the recommendations therein set forth.

The attention of your honorable body is also asked in relation to the intersection of streets crossing Jefferson avenue, which, in their present state, preclude the crossing of fire engines in response to alarms from the south side of the avenue, without detentions and dangerous delay. It is respectfully desired that this subject receive that prompt consideration that its urgency, gravity and importance deserves.

By direction of the Board.

Very respectfully,
FRED. H. SEYMOUR,
Secretary.

Accepted and placed on file.

REPORTS OF COMMITTEES.

WAYS AND MEANS.

To the Honorable the Common Council:

Gentlemen—We, the undersigned, your Committee on Ways and Means, to whom was referred the weekly report of the various city officers for the week ending November 7, 1873, have carefully examined the same and, believing them to be correct, recommend their approval.

DAVID PRESTON,
GUY F. HINCHMAN.

Accepted and adopted.

FIRE LIMITS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Fire Limits, to whom was referred the resolution of Ald. Hough, relative to the wooden building recently erected on the lot owned by the Hon. Philo Parsons, on Woodward avenue, have examined the matter and respectfully report that said building was erected by Mr. Jessup, the contractor for the carpenter work on Ald Parsons' new residence, for the protection of the workmen during the winter, and will be removed early in the coming season. It stands only partially in the fire limits, the boundary line passing a out centrally through the shop. The nearest building on the south is more than 60 feet distant, and on the north, 120 feet, so that there cannot possibly be any increase of fire risk by allowing it to remain for a short time in its present position. Your committee therefore recommend that said building be allowed to remain. In view of the fact that Woodward avenue, in this vicinity, is rapidly building up with costly residences, your committee recommend that the fire limits should be extended further north. They therefore recommend the adoption of the following resolution:

Resolved, That the City Attorney be and he is hereby directed to bring in an ordinance extending the fire limits on either side of Woodward avenue from their present terminus 100 feet north of Charlotte street to a point 100 feet north of Piemont street.

All of which is respectfully submitted.

M. P. CHRISTIAN,
A. O'KEEFE,
D. DULLEA.

On motion of Ald. Woolley, the report and resolution were divided and considered separately.

Ald. Christian moved the adoption of the report.

Carried.

On motion of Ald. Christian the resolution was also adopted.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—Your special committee, the Aldermen of the Seventh Ward, to whom was referred the petition of Frederick Suhre and eight others, asking that the lamp-posts on Orleans street be placed upon the northeast and southwest corners of said street, at its intersection with Chestnut and Jay streets, in accordance with the usage upon said street and other streets, would respectfully report that we have examined the matter, and find the lamp posts upon said street, at said intersections, placed upon the northwest and southeast corners, which is contrary to the established rule for the placing of lamp posts in the streets of the Seventh Ward. We are of the opinion that all good citizens ought to be willing to be governed by established rules in the disposition of public improvements, and will be in this case. We therefore report in favor of the prayer of the petitioners, and recommend the adoption of the annexed resolution.

F. RUEHLE
M. BREEG.

Resolved, That the Controller be, and is hereby directed to cause the lamp-posts on Orleans street, at the corner of Jay and Chestnut streets, to be placed forthwith upon the northeast and southwest corners.

Accepted and adopted by the following vote:

Yeas—Ald. Botsford, Breeg, Christian, Daly, Dullea, Flower, Greiling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Preston, Ruehle, Shanahan, Welch, Woolley, and the President—18.

Nays—None.

To the Honorable the Common Council:

Gentlemen—The undersigned, Street Commissioner of the Eastern District, begs leave to notify

your honorable body that the citizens between Alfred and Division streets, in block 14, Sixth and Tenth Wards, are very much annoyed by having their alley blocked up with long, heavy lumber for building purposes, by the Detroit and Milwaukee Railroad, and have to drive back as far as St. Aubin avenue to reach their alley, which then is hardly passable, as even the track is blockaded with blocks.

As the citizens lay all the blame on me, I most respectfully would ask your honorable body for further instructions.

JAS. DALY.

Resolved, That the Controller be, and he is hereby directed to draw his warrant on the Contingent Fund, in favor of the Rev. Ald. Ruehle, chairman of a special committee, submitted the following

MAJORITY REPORT:

To the Honorable the Common Council:

Gentlemen—Your special committee, to whom was referred the communication of the Gas Inspector of October 17, charging the contractor for furnishing gas lamps with inefficiency, and also the communication of said contractor in answer thereto, would respectfully report that they have had the matter under consideration, and have examined Mr. Wright, the Controller, Mr. Valentine and two of his workmen. The contractor was put off from time to time by the Gas Inspector when he applied to him for orders, with the remark that he did not think he would need any lamps if the Council did not order more this year than they did last, and that he had 64 lamps which he had taken off the hands of Mr. Hawman, when he ceased to be contractor. When the Gas Inspector did order lamps he wanted them with unreasonable haste, having apparently put off the matter until there was a pressing necessity for them. We find by comparing the records in the Controller's office, that Mr. Valentine furnished lamps with reasonable expedition, and as rapidly as Mr Hawman, of whose energy no complaint was made. As to the quality of those lamps, Mr. Delay, who superintended their manufacture and who made lamps for Battle and for Battle and Hawman, testifies that they were the best lamps ever made for the city. Mr. Valentine admits that the glass in the first order did not snugly fit, for the reasons that there were three sizes of glass and one pattern lamp; but Mr. Wright in his communication says he accepted the lamps, and by so doing practically acknowledged them to be fit for use. Mr. Wright claims that the second two dozen were not up to the standard, averring that they did not weigh enough; that this is the first year he has weighed lamps because the standard lamp was first used this year. But the Controller states that the standard has been in use ever since the contract for making lamps was awarded on bid. Mr. Hawman having contracted on the standard lamp. Mr. Valentine claims that his lamps were practically up to the pattern, and must have weighed as much as the standard, as they were made of the very best material. Mr. Wright moreover admits that the lamps furnished of late by the contractor have been of excellent quality. Mr. Valentine also showed by one of his workmen, Emile Thiery, that one time when he, Valentine, was without orders, and bad been for a month, Hawman was making city lamps. These are the salient facts in the matter, and, after looking it over careful y, we are of the opinion that the contractor was guilty of no such lacks, either in promptness in filling requisitions, or quality of workmanship or materials, as would justify the Gas Inspector in breaking the contract solemnly entered into by the city with Mr. Valentine, and laying it liable to an action for damages. We exonerate the Controller of any blame in the matter, as he acted on the representation of the Gas Inspector, which appeared to be of a serious nature. It would have been better, however, had he consulted Mr. Valentine before signing a requisition for lamps to be made by Mr. Hawman. During the examination it became evident to your committee that a strong personal feeling existed between the Inspector and the contractor, which undoubtedly has aggravated their disagreement, if it has not been the cause of it. We would further state that as it has been the custom for the last 15 years for the persons making lamps to do the repairing, the present contractor reasonably enough had a right to expect that he would receive it, and such a consideration might have had some influence upon his bid. We therefore recommend the adoption of the annexed resolution.

All of which is respectfully submitted.

F. RUEHLE,
Chairman.

Resolved, That the Gas Inspector be, and he is, hereby directed to have the repairing of lamps done by the contractor when he will do such repairing as cheaply as any one else.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—Your committee, to whom was referred the communication from the City Railway, in regard to the inconvenience to travel caused by the moving of houses on the line of railways, would most respectfully report that we find that, on November 14, an old house was put upon the line of the Gratiot Street Railway, and was not removed from the track until the 21st, or seven days thereafter. Two days of that time there was no work done, and during that time about 2,100 passengers were compelled to wade through the mud from one car to another. We also find that a building was five days on the line of the Fort street and Elmwood line of railway, between Congress street and Gratiot street, being but about three blocks; and we also find that these instances of abuse of privilege are by nowise isolated, but are happening repeatedly, and your committee would recommend that section No. 2, of chapter 87, of Revised Ordinances of 1871, be so amended that buildings cannot be moved on any street occupied by street railways excepting in crossing such street or streets, and that the Committee on Ordinances be instructed to bring in an amendatory ordinance to that end.

Respectfully submitted,
ALBERT BOTSFORD,
Alderman First Ward.

COMMUNICATIONS FROM CITY OFFICERS.

FROM THE CONTROLLER.

To the Honorable the Common Council:

Gentlemen—I deem it my duty to the owners of property on Third avenue, north of Grand River, to call the attention of your honorable body to the condition of the pavement on that avenue.

From the present appearance of the street, particularly that portion below Ledyard street, the pavement will be worthless in the spring.

The contractors have been paid for the intersections and a portion of part 1 of the assessment roll. The bonds have not been delivered, and are not due until December 23.

The alley east of Antoine street, between Jefferson avenue and Larned street, is also in bad condition.

I do not propose to pay any more money or bonds on either of these contracts until I am compelled to or a guarantee is given the city that the work shall be put in such condition as will be acceptable to the citizens and the city.

Respectfully, etc.,
E. I. GARFIELD,
Controller.

Accepted and referred to the Committee on Streets.

FROM THE CITY PHYSICIAN, FIRST DISTRICT,

transmitting monthly report for November, 1873.

Accepted and placed on file.

FROM THE BOARD OF PARK COMMISSIONERS.

To the Honorable the Common Council:

Gentlemen—The Board of Park Commissioners of the city of Detroit respectfully represent that by the express terms of the Amended Park Act of 1873, they were authorized to locate a park, and as far as possible to make a purchase of lands therefor, within the limitation as to the number of acres, and the amount to be expended, as provided in said act.

The Park Commissioners, in good faith, believing that they had legal power to make such location and purchase, and bind the city thereby, proceeded to exercise the power thus expressly given to them, as stated in their report to your honorable body, made on the 9th day of August, 1873, and to which report they especially refer. They asked your honorable body to authorize the issue of bonds of the city of Detroit, to the amount of $300,000, to meet purchases by them already made for the purpose of a park, and the estimated cost of securing that portion of the premises selected which they had not been able to purchase.

Your honorable body, by a tie vote, refused to authorize the issue of such bonds, and the undersigned, believing that the law under which they acted, was valid and binding, both upon them and your honorable body, applied to the Supreme Court for a mandamus to your honorable body to require you to issue said bonds in accordance with the provisions of said amended Park Act.

The Supreme Court, after a full argument, have, by an unanimous decision, held and determined that the Park Commissioners have no power to bind the city to provide the money for the purchase of lands selected by them for a park, and that until their action in this respect is approved and adopted by your honorable body the city is not bound by their actions, nor required to issue the bonds aforesaid.

The undersigned, when they believed the responsibility of making the selection and purchase rested upon them exclusively, sought to discharge those responsibilities in a faithful and judicious manner. They selected as a location for a public park the best site in their judgment that was attainable, and as far as they were able to make purchases thereof, they succeeded in making said purchases at a most favorable rate, and at prices far below the then and the present market value of the property contracted for, which expires January 1, 1874.

The best attainable place for a public park, we think, is the one selected, and the time for its purchase, if the city proposes or wishes ever to have one, is now, before the premises shall be covered by extensive and valuable improvements, and shall be by the natural advance of prices placed beyond the reach of the city for such an improvement.

The responsibility no longer rests upon the undersigned. They have in good faith discharged the duty imposed upon them by the express provisions of the act.

By the decision of the Supreme Court, the action is not binding upon the city, unless sanctioned and approved by your honorable body.

The responsibility therefore rests upon your honorable body to finally settle and determine the question as you shall deem for the best interests of the city. You are the representatives of the citizens, and we respectfully submit the matter for your consideration.

GEO. V. N. LOTHROP,
JNO. J. BAGLEY.
M. L. MILLS,

SPECIAL.

To the Honorable the Common Council:
Gentlemen—The undersigned, to whom was referred the petition of Mrs. Elizabeth Williams to be repaid the sum of $118, being part 1, and the interest on parts 2, 3 and 4 of the assessment for paving in front of lots owned by her on Jefferson avenue, report that, upon entering into the contract by the city for repaving the avenue it became the duty of the city to cause the assessment to be collected as soon as, and in the manner, prescribed by the charter, and the Common Council cannot, without the consent of the contractors, extend the payment of such assessments.
So long as the contract is in force it is the duty of the city to collect the money, even if the work has not been commenced; but where the time for the performance of the contract has been extended it is with the consent of the contractor's right that the time to pay assessments should also be extended.

We would therefore report adversely to the prayer of your petitioner.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—The undersigned special committee, to whom was referred the communication of the Park Commissioners, have had the same under consideration and beg leave to report as follows:

On the 18th of August last, the Park Commissioners reported to this Council that they had selected a site for a park, and had made contracts for the purchase of the greater portion of the lands, and requested the Common Council to issue bonds of the city, the proceeds of which were to be used in paying for the lands embraced within the site selected. This Council, by a tie vote, refused to ratify the action of the Commissioners, and to direct the issue of bonds. The Commissioners then applied to the Supreme Court for a writ of mandamus. The writ was not granted as per reasons fully set forth in the published opinions of the Judges of said court. Although, as they represent, the Commissioners acted in entire good faith in endeavoring to enforce what they believed to be a valid law binding upon the city and its municipal representatives, still their action has occasioned active opposition not only from parties interested in real estate situated in portions of the city remote from the site selected, but from others who, although they approved of a park, and the proposed location, thought the principle of municipal self government was violated by the enactment of the amendment to the Park law, and the action of the Commissioners thereon, and the vindication of the principle they deemed of paramount importance. Still it is to say that the principle contended for has now been established and is admitted by the submission by the Commissioners of the whole matter to the judgment of the Common Council. Therefore as the contracts for the purchase of these Lands expire on the 1st day of January next, and that in this Council alone rests the power to authorize the completion of the purchase of said lands for said city, your committee believe that if provision could be made by subsequent legislation or otherwise, for the establishment of a park or parks in the western portion of the city, that the purchase of a part of the lands selected by the Commissioners would meet with the universal concurrence of all our public-spirited citizens.

The responsibility of acquiring those lands or allowing them to pass forever from the control of the city rests alone on this Council, and this responsibility cannot be avoided.

Your committee think that when the excitement created by interested parties and unwise legislation shall have passed away that the acquisition of a portion of these lands for a public park on the terms contracted for by the Park Commissioners will meet the approval of all our intelligent citizens, as their loss would prove public calamity.

Your committee submit that the wants of all our citizens would be best subserved by the establish-

ment of more than one park for the use of the city, but believe that the city cannot afford to lose this opportunity of acquiring a portion of the lands selected by the Commissioners, and recommend that the necessary steps be taken by this Council to provide the means to complete the purchase for a portion of the same; and also recommend that no funds shall be devoted by the city for improving said park, except such sum as the Common Council shall deem necessary to fence and preserve the same, until lands for another park shall have been purchased in the western limits of the city, with a view of ultimately connecting the same with a boulevard.

Your committee therefore recommend the adoption of the following preamble and resolutions.

Respectfully submitted.

GUY F. HINCHMAN,
C. M. GARRISON,
DAVID PRESTON.

Whereas, The Board of Park Commissioners, on the 18th day of August last, reported to this Council that they had selected and located the site of a public park in the township of Hamtramck, now within the limits of the city of Detroit, and had entered into contracts for the purchase of the greater portion thereof, and calling on this Council to provide means to pay or said lands to the amount of $300,000, which this Council declined to approve; and,

Whereas, The Supreme Court has decided that the said Commissioners have no authority to purchase the lands and bind the city to pay for the same without the consent of the Common Council; and this Council being satisfied that said Commissioners acted in perfect good faith and for the best interests of the city, and located the park in the best attainable place, and contracted for the purchase of the greater portion of the lands at a most favorable rate, and this Council believing it to be for the best interests of the city to provide the means to complete the purchase of a portion of the lands selected by the Commissioners for a public park with a view of acquiring other lands adjacent to the western portion of the city for the location of another public park; therefore,

Resolved, That this Council approves of the site selected by the Park Commissioners and reported to this Council on the said 18th day of August, and for the purpose of providing means for acquiring and paying for such portion of the lands selected as the Park Commissioners shall be able to purchase or acquire for the sum of $200,000, to be selected by them as they shall deem for the best interests of the city, and that the Controller of the city is hereby authorized and directed to prepare said bonds of the city of Detroit for execution to the amount of $200,000, to be denominated "Detroit Park Fund bonds," which bonds shall be for the sums of $500 and $1,000 each, payable in 30 years from the date thereof, at some bank in the city of New York, to be designated in said bonds, with interest at the rate of seven per centum per annum, payable semi-annually, which bonds shall be executed in the same manner as other city bonds, and a record thereof kept as provided by law.

Resolved, That the committee for the negotiation of loans be authorized and directed to negotiate the sale of such bonds from time to time as the proceeds thereof may be needed for the payment of such portion of the lands so selected by said commissioners for the purpose of a public park as they may be able to purchase for said sum of $200,000, provided the sale of said bonds shall not be below par, and the proceeds of the bonds so negotiated and sold shall be paid into the city treasury, to constitute a "special park fund," or the same may be delivered and used directly in the payment for said land, as provided by section nine of an act supplementary to the charter of the city of Detroit, relating to a public park, or other public grounds for the use of said city, approved April 15, 1871.

Ald. Hinchman moved the adoption of the report and resolution.

Ald. Hough, of the above committee, moved that the communication be accepted for the purpose of submitting the following

COMMUNICATION.

To the Honorable the Common Council:

Gentlemen—Your special committee, to whom was referred the communication of the Board of Park Commissioners, praying for the issuance of bonds to the amount of $300 000, to be used for the purchase of lands in the eastern new addition to the city for the purpose of a public park, would very respectfully report that they have given the matter much thought and consideration, and are unable to agree with the majority of the committee in all their conclusions. Admitting their convictions contain many pleasant and valuable truths, we feel compelled to disagree with them in their final conclusion, namely that the Common Council should at this time authorize the amount of bonds stated in the resolution presented. The desirability of parks in large cities is appreciated by us, and under proper circumstances we should be happy to aid in the securement of such public enterprises.

We are of the opinion, however, that the establishment of two or three parks of smaller proportions than the one proposed, and connected by a broad avenue or boulevard, the whole not costing more than the sum heretofore named, would mete out justice, and give to our citizens the park privileges anticipated more acceptably, and thereby relieve their minds from that sickly discontentment produced by local preferment.

A feasible proposition of this nature would compel us to give it a favorable reception, for we believe it would be approved by the people at large.

Respectfully submitted,

GEORGE W. HOUGH.

COMMUNICATIONS FROM THE MAYOR.

CITY OF DETROIT,
MAYOR'S OFFICE, December 16, 1873.

To the Honorable the Common Council:

Gentlemen—I return to your honorable body without my approval that part of your proceedings on the 12th inst., authorizing the issue of city bonds for the purpose of purchasing land for a park, for the following reasons:

1. That if the first enactment by our State Legislature of a law establishing a park commission and referring the act to be ratified by a public meeting of our citizens, could not be so ratified satisfactorily, it appears plain that in common justice another mode should have been adopted to obtain a true expression of public sentiment in the premises.

2. If, as the preamble to your resolution asserts, the Supreme Court of this State has decided by implication that the Common Council, as representing the people, has the right to order the issue of these bonds, it is my opinion that in doing so your honorable body overlooked the fact that since any of the present city government were elected the people of this city have twice, through the ballot-box, emphatically said no to this park scheme, either in its past or present tense, and that the commonest understanding being keenly alive to the principles of freedom, the most profound and implicit obedience to their wishes should be acceded by us, their servants, in a matter not only involving taxation, but withal the vital and momentous question of government by the people; and, notwithstanding many outspoken statements and inferences to the contrary, our citizen-en masse understand what they themselves want, what the best interests of the city require, and are competent to see as far into futurity as can the most shrewd or interested operator in real estate.

3. If your honorable body, deferring to the late decision of the Supreme Court, can recall another fact, that 14 days after the passage by the Legislature of the amendment to the Park Act, that body passed a law amendatory to our city charter creating the Board of Estimates for this city, and that section 3 of that law contains the following sentence—"And before any bonds shall be issued, issue of which is now required to be submitted to a citizens' meeting by said charter, or any other of said acts, said issue shall be authorized by said Board of Estimates." In my opinion you can clearly see that your order to the Controller can only go so far as to have the amount of these bonds submitted in his next annual estimate.

4. In view of the fact that the United States Government is ever ready to acknowledge the equality of men, and to tender the olive branch of republican fraternity to the remotest nation on the globe which may be struggling for political poerty, it certainly does not become our city officials on the very centenary of the Nation's first effort for liberty to arrogate to themselves regal powers in the midst of this mighty Republic.

In conclusion, I cannot approve of the action of the Council in ordering the issue of these bonds, because the proceedings seem contrary to the spirit and intention of our free institutions, and conflicting with the nature of the government,

which, as a citizen, and also in my official capacity, I have taken a solemn oath to support

Very respectfully,
H. MOFFAT,
Mayor.

The communication was accepted, and, on motion of Ald. Hinchman, the vote by which the resolutions were passed was reconsidered as follows:

Yeas—Ald. Broeg, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Preston, Ruehle, Shanahan, Stange, Welch, Woolley and the President—17.

Nays—Ald Botsford, Christian, and Daly 3.

The question then being: "Shall the resolution now pass, notwithstanding the objections of the Mayor." Ald Daly moved that further consideration of the matter be indefinitely postponed.

The motion did not prevail.

After debate A.d. Flower moved the previous question.

The question being: "Shall the previous question be now put," the same prevailed, as follows:

Yeas—Ald. Broeg, Daly, Dullea, Flower, Garrison Grelling, Hinchman, O'Keefe, Parsons, Preston, Ruehle, Shanahan, Stange, Welch, and the President—15.

Nays—Ald Botsford, Christian, Hough, Lichtenberg, and Woolley—5.

The question then being upon the adoption of the resolution over the objections of the Mayor, the same prevailed, by the following vote:

Yeas—Ald Broeg, Dullea, Garrison, Grelling, Hinchman, Lichtenberg, O'Keefe, Parsons, Preston Shanahan, Stange, Welch, Woolley, and the President—14.

Nays—Ald. Botsford, Christian, Daly, Flower, Hough, and Ruehle—6.

FROM THE CITY COUNSELOR.

To the Honorable the Common Council:

Gentlemen—The undersigned, City Counselor, to whom was referred the resolution introduced by Ald. Woolley, relative to the taxes assessed against the Detroit Car Loaning Company, reports that by an act of the last Legislature, approved April 29, 1873, such company and others were required to report to the Auditor General the amount of their gross receipts and pay an annual tax of three per cent. thereon; and such taxes shall be in lieu of all other taxes upon the cars used for purposes mentioned in sections 1 and 2 of this act.

The tax referred to in the resolution is upon such cars as are referred to in sections 1 and 2 of the act.

It has been held by a number of cases that where a specific tax is payable on certain property, it is implied that no other tax shall be levied, and where, as in the act of our Legislature, it is provided that such taxes shall be in lieu of all other taxes, such property is not liable for any other taxes; therefore I am compelled to hold that the tax against such company is not legal.

Respectfully submitted,

FROM THE BOARD OF PARK COMMISSIONERS.

To the Honorable the Common Council:

Gentlemen—The Board of Park Commissioners respectfully report that since the passage by your honorable body of the resolutions approving of the site selected by the Park Commissioners for a public park, and authorizing the issue of city bonds to the amount of $200,000 for the purpose of acquiring and paying for such portion of the site thus selected as the Park Commissioners shall be able to acquire and purchase for that sum, to be selected by said Commissioners, they have carefully considered the question of selecting from the site originally located by them, and reported to the Common Council, beg leave to report that they have selected so much of the original site as lies west of Crane avenue, and Crane avenue extended from Jefferson avenue to the river.

The premises so selected are described as follows:

All that certain tract of land situated in the Eleventh Ward of the city of Detroit, bounded and described as follows: Commencing at the intersection of Jefferson avenue and Van Dyke avenues; thence northerly along the center of Van Dyke avenue to the center of Mack street; thence easterly along the center of Mack street to the center of Crane avenue; thence southerly along the center of Crane avenue to the center of Jefferson avenue;

thence westerly along the center of Jefferson avenue to the place of beginning, containing 347 68-100 acres.

Also all that tract lying between Jefferson avenue and the channel bank of Detroit River described as follows: Commencing at a point where the westerly line of Crane avenue intersects Jefferson avenue; thence westerly along Jefferson avenue 900 feet to the lands owned by John Owen, James Burns, and others; thence southerly along their easterly line to the channel bank of the Detroit River; thence easterly along the bank of said river to a point where the westerly line of Crane avenue extended would strike said river; thence northerly along the westerly line of Crane avenue extended to the place of beginning

Of this they have contracted for 206 52-100 acres, at a cost to the city of $151,388 11, and they estimate that the whole of the premises can be purchased and acquired with some aid from the voluntary contribution of citizens for the sum of $200,000.

SEWERS.

To the Honorable the Common Council:

Gentlemen—Your Committee on Sewers, to whom was referred the petition of James McCormack and nine others, praying to be relieved from the assessment for the construction of that portion of the lateral sewer in the alley between Michigan avenue, Daizelle, Thirteenth and Thirteenth-and-a-half streets, which drains the Michigan avenue lots alone and is of no benefit to their lots, have carefully considered the matter and find that the assessment roll for this sewer has been confirmed by your honorable body and that it is now too late to make any change in it. We would therefore report adversely to the prayer of your petitioners.

Respectfully submitted,

F RUEHLE.
C. M. WELCH,
D SHANAHAN.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Sewers, to whom was referred the petition of John Haley and 10 others, asking for the abatement or the reduction of the rates assessed for the construction of the lateral sewer in the alley between Fort and Lafayette streets, McDougall and Elmwood avenues, have examined the matter and find that the assessment rate was made out in accordance with the charter, which provides that the payment for lateral sewers shall be made from assessments on the property having a frontage on the sewer. Believing it to be beyond the power of this Council to grant such reduction in the rates of assessment, we would report adversely to the prayer of your petitioners.

Respectfully submitted,

F. RUEHLE.
C. M. WELCH,
D. SHANAHAN.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Sewers, to whom was referred the claim of $3,000 of Common & Stewart, contractors, as indemnity for loss averred by them to have been sustained by the caving in of the Eighteenth street sewer, by reason of the inferiority of the water lime furnished by the city, would respectfully report that they have had the matter under consideration, and have taken a voluminous amount of testimony, which was submitted by said Common & Stewart, the Sewer Commissioners and the contractor for furnishing water lime. Said testimony had reference to the time and extent of the break, the cost of repairs, and attendant damage, the cause of the disaster, including the quality of the lime used, the workmanship, and the nature of the soil through which that part of the sewer passed. It appears that about 40 feet of said sewer fell in on the 24th of June last, that that part of the sewer had been laid in earth that was permeated by living springs, rendering the construction of that point more than usually difficult; that a heavy storm prevailed the night previous to the break, making the earth very soft, and full of water; that Common & Stewart made the necessary re-excavations and repairs, and put the sewer in good condition, thereby incurring extra expense. The testimony regarding the cause of this disaster, whether it resulted from the inferiority of the lime or the lack of necessary precautions under such difficult circumstances, is very conflicting and unsatisfactory. The showing made by the contractors as to the cost of repairs is extremely vague, and nothing that can be called a showing was made to determine the amount of damage resulting to other parts of the work by reason of the backing up of the water. After a careful review of all that was offered in the matter, your committee find themselves unable to determine the cause of the falling in of the sewer or the amount of expense incurred in putting it in a good condition. They therefore report adversely to said claim of Common & Stewart, and ask to be relieved from further consideration of the same.

Very respectfully,

F. RUEHLE,
C. M. WELCH,
D SHANAHAN.

TAXES.

To the Honorable the Common Council:

Gentlemen—Your Committee on Taxes, to whom was referred the petition of I. Smith Kellum, find the record of mortgage unchanged, and must, therefore, report adversely to the prayer of the petitioner.

D PRESTON,
J. DALY.

To the Honorable the Common Council:

Gentlemen—Your Committee on Taxes, to whom was referred the petition of John Thorp, would report that they find the facts set forth in the petition true, and would ask the passage of the following resolution.

Respectfully submitted,

P. PARSONS,
D. PRESTON.

Resolved, That the Controller be, and he is hereby directed to draw his warrant on the City Treasurer in favor of John Thorp for $25 64 when said Thorp presents receipts for the entire tax assessed against him for the year 1873.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Taxes, to whom was referred the petition of J. Monyhan, would respectfully represent that the matter has been examined and there appears no cause for an abatement of the tax, and they would report adversely to the prayer of the petition.

Accepted and adopted.

Ald Broeg was excused from further attendance.

FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Whereas, It appears to the satisfaction of your committee that lots 259 and 260, A. Beaubien farm, Crane & Wesson's section, north of Elizabeth street, have been sold to the city of Detroit for the general city taxes for the year 1872; and

Whereas, It also appears that said lots, at the time when said taxes were assessed, belonged to a religious society, and were used by such society for its own proper purposes; now, therefore,

Resolved, That the City Treasurer be, and he is hereby instructed to cancel the sale of said lots for said year upon the books of his office.

SPECIAL.

To the Honorable the Common Council:

Gentlemen—Your special committee, to whom was referred the petition of Mrs. S Fisher for abatement of a portion of the tax levied upon her lot for the paving of Fifth street, report as follows: The lot owned by petitioner is 57 feet front on Fifth street, triangular in form, the amount assessed against said lot is $16.09, of which Mrs. Fisher paid the first part. In our judgment the petitioner asks an abatement of tax with a considerable degree of justice, and in view of the custom of the Council to grant relief in such cases we recommend an abatement of $40 of the tax imposed, and submit the following resolution.

D. DULLEA.
D. SHANAHAN.

Resolved, That the Controller be, and he is hereby directed to draw his warrant on the Contingent Fund in favor of Mrs Fisher for $40, upon her presentation of the Treasurer's or Receiver's receipt in full for paving tax on lot 11 on Fifth street.

COMMUNICATIONS FROM THE MAYOR.

CITY OF DETROIT,
MAYOR'S OFFICE, January 9, 1874.

To the Honorable the Common Council:

Gentlemen—I return to your honorable body, without my approval, that part of your proceedings on the 6th inst., granting an annual salary for a clerk to the City Counselor, for the reason that it establishes a bad precedent by creating a new office. The usages of the city heretofore have been to pay specially for all extra services, which I beg to recommend in this case as a less dangerous mode of adjustment.

Very respectfully,
H. MOFFAT,
Mayor.

Accepted, and the vote by which the resolution was adopted was reconsidered as follows:

Yeas—Ald. Botsford, Broeg, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Preston, Ruehle, Shanahan, Stange, Welch, Woolley, and the President—20.

Nays—Ald. Botsford, Broeg, Christian, Daly, Dullea, Flower, Hough, Lichtenberg, and Ruehle—9.

FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—I return to your honorable body without my approval that part of your proceedings on the 6th inst., directing the Mayor and Controller to execute bonds to the amount of $300,000, for the purchase of a site for a public park, for several reasons, fully set forth in my communication to the City Council on the 16th of December last; also for the further reason that this resolution presumes to direct the Mayor to execute these bonds forthwith, whereas the city charter alone prescribes the duties pertaining to the Mayor's office, and the

City Council is not empowered in any way whatever to direct the incumbent as to his official duties; therefore this resolution would seem to be a nullity so far as directing the Mayor is concerned.

Very respectfully, etc.,

H. MOFFAT,
Mayor.

Accepted, and on motion of Ald. Woolley the vote by which the resolution was adopted was reconsidered, as follows:

Yeas—Ald Botsford, Broeg, Christian, Daly, Dullea, Flower, Garrison, Grelling, Hinchman, Hough, Lichtenberg, O'Keefe, Parsons, Preston, Ruehle, Shanahan, Stange, Welch, Woolley, and the President—20.

Nays—None.

Ald. Daly moved that the matter be laid upon the table.

Lost.

The previous question was demanded, and the question being "shall the main question be now put," the same did not prevail, the chair ruling it required three-fourths of all the members elect, as follows:

Yeas—Ald. Broeg, Dullea, Grelling, Hinchman, Lichtenberg, O'Keefe, Preston, Stange, Welch, Woolley, and the President—11.

Nays—Ald. Botsford, Christian, Daly, Flower, Garrison, Hough, Parsons, Ruehle, and Shanahan—9.

Ald. Botsford moved that the matter be then laid upon the table for two weeks.

Lost.

Ald. Woolley moved the previous question, and the question being "shall the previous question be now put," the same prevailed, as follows:

Yeas—Ald. Broeg, Dullea, Garrison, Grelling, Hinchman, Lichtenberg, O'Keefe, Parsons, Preston, Shanahan, Stange, Welch, Woolley, and the President—14

Nays—Ald. Botsford, Christian, Daly, Flower, Hough, and Ruehle—6.

On motion, the Council then resumed the regular order of business.

On motion, Ald. Woolley was excused from further attendance.

FROM THE BOARD OF SEWER COMMISSIONERS.

ANNUAL REPORT.

SEWER COMMISSIONERS' OFFICE,
DETROIT, January 12, 1874.

To the Honorable the Common Council:

Gentlemen—We have the honor to submit to your honorable body our 15th annual report, with detailed statement of sewers built, public and lateral, during the year 1873, their cost, length and location. Also of expenses of repairs and of the new receiving basins ordered during the past year, together with connections made with public and lateral sewers, the amount of money received for the same and paid into the city treasury from February 1, 1873, to January 20, 1874.

The contracts for building the public sewers on Ash street, Beaubien street, Eighteenth street south of Michigan avenue, and Congress street east from McDougall avenue to Bloody Run ditch, are not complete; the sewer in Congress street not commenced on account of the contractors not being able to procure a supply of sewer bricks.

The year has been one of great activity in the construction of sewers, the demand for lateral sewers being unusually large, and with a few exceptions the board has been able to meet the demand.

There has been constructed during the past season 4 miles and 5,062 feet of public sewers, and 8 miles and 740 feet of lateral sewers, against 3 miles 4,240 feet and 6 inches of public sewers, and 4 miles 4,884 feet and 6 inches of lateral sewers constructed during the year 1872.

There are 12 contracts for lateral sewers not completed on account lateness of the of the season at which those contracts were let

Drainage for sanitary purposes, to be effectual, must be undertaken in a systematic manner. Detroit is particularly fortunate in having a system of sewerage. In several cities it has been the practice for individuals to construct private sewers from time to time, according to the want of the particular street or district to be drained, and without any general plan for the drainage of the entire city. In after years, as it became necessary to use them as general sewers, the have often been found inadequate as to capacity, or useless from being at unsuitable grades and elevations. In this city each sewer is a link in the system, and designed to fill its work as a part of the whole. The change or relaying of a permanent sewer, with but one or two exceptions, has never yet been necessary, and if the demand for sewers in the next five years will compare with the past, there will hardly be a block in this city but what will be effectually drained.

Under the "new order" this board goes out of existence on the third Tuesday in January, 1874, and before severing ourselves from your honorable body allow us to return to you our sincere thanks for your courteous forbearance and co operation during our term of office.

We congratulate the incoming Board of Public Works on the prosperous condition of our sewerage system, and feel assured that no effort will be spared on your part to advance the important interests intrusted to them.

Respectfully submitted,
WALTER H. COOTS,
HARVEY KING,
A. E. BISSELL.

Accepted and referred back to the Sewer Commissioners for printing.

Gentlemen — Your Committee on Claims and Accounts, to whom was referred the account of A. I. McLeod, for services as referee for apportionment of costs and expenses of opening and widening various streets, amounting to $30, unanimously recommend that said account be not allowed, as the party who performed the service was at the time in the employ of the city at a large salary, with unoccupied time, as your committee believe, at his disposal, which should have been freely accorded to the city. Your committee consider the custom growing up among certain officials, of making extra charges for services rendered out of time usually occupied, as extremely reprehensible and as in conflict with the charter. This account was disapproved by the Controller.

FROM THE BOARD OF SEWER COMMISSIONERS.

ANNUAL REPORT.

SEWER COMMISSIONERS' OFFICE,
DETROIT, January 12, 1874.

To the Honorable the Common Council:

Gentlemen—We have the honor to submit to your honorable body our 15th annual report, with detailed statement of sewers built, public and lateral, during the year 1873, their cost, length and location. Also of expenses of repairs and of the new receiving basins ordered during the past year, together with connections made with public and lateral sewers, the amount of money received for the same and paid into the city treasury from February 1, 1873, to January 20, 1874.

The contracts for building the public sewers on Ash street, Beaubien street, Eighteenth street south of Michigan avenue, and Congress street east from McDougall avenue to Bloody Run ditch, are not complete; the sewer in Congress street not commenced on account of the contractors not being able to procure a supply of sewer bricks.

The year has been one of great activity in the construction of sewers, the demand for lateral sewers being unusually large, and with a few exceptions the board has been able to meet the demand.

There has been constructed during the past season 4 miles and 5,062 feet of public sewers, and 8 miles and 740 feet of lateral sewers, against 3 miles 4,240 feet and 6 inches of public sewers, and 4 miles 4,384 feet and 6 inches of lateral sewers constructed during the year 1872.

There are 12 contracts for lateral sewers not completed on account lateness of the of the season at which those contracts were let

Drainage for sanitary purposes, to be effectual, must be undertaken in a systematic manner. Detroit is particularly fortunate in having a system of sewerage. In several cities it has been the practice for individuals to construct private sewers from time to time, according to the want of the particular street or district to be drained, and without any general plan for the drainage of the entire city. It after years, as it became necessary to use them as general sewers, the have often been found inadequate as to capacity, or useless from being at unsuitable grades and elevations. In this city each sewer is a link in the system, and designed to fill its work as a part of the whole. The change or relaying of a permanent sewer, with but one or two exceptions, has never yet been necessary, and if the demand for sewers in the next five years will compare with the past, there will hardly be a block in this city but what will be effectually drained.

Under the "new order" this board goes out of existence on the third Tuesday in January, 1874, and before severing ourselves from your honorable body allow us to return to you our sincere thanks for your courteous forbearance and co operation during our term of office.

We congratulate the incoming Board of Public Works on the prosperous condition of our sewerage system, and feel assured that no effort will be spared on your part to advance the important interests intrusted to them.

Respectfully submitted,
WALTER H. COOTS,
HARVEY KING,
A. E. BISSELL.
